

## GRAND EXHIBITION

Continued

to leave after having made rounds through the one way street. The credit for such return in the month exhibition is due to C. F. Young, the local decorator. Mr. Young also undertook to provide the booths. The frames of these are wood with the fencing made of green burlap. The booth posts are paper tubes of large diameter, resting on pedestals to a height from the floor of nine feet. These are capped with flat boards painted white, and on the caps are dark colored baskets of artificial flowers.

To the board of trade, and especially its officers, President Marden and Secretary Murphy, is due the credit of giving the people of Lowell this splendid opportunity of inspecting the varied products of busy factories and workshops.

The Sixth Night light gave a fine concert last night from 8 to 10 o'clock. Today and every day following Friday, the Casino doors will open at 9 a. m., and remain open until 10 p. m. Today is blue ticket day. A blue ticket is not good on any day but today.

## THE EXHIBITS

Following is a brief description of the booths:

**John Scholes & Co.**

A very important exhibit is that of John Scholes & Co., reed manufacturers. This company occupies booths 1 and 2, where it has installed a reed making machine, showing the public how the loom reeds are made. The long machine takes the wire and on a long reel, and divides it into the parallel strands of the reed and fastens each place in exact position. The wire is then tied and gummed in order to make it solid. The machine is kept constantly in operation and attracts considerable attention.

**Bigelow-Hartford Carpet Co.**

The second stopping place from the entrance to the show building is at the exhibit of the Bigelow-Hartford Carpet Co., which occupies booths 3 and 4. This consists of a variety of rugs and tapestries, including Saxony, Soumac, and Axminster. A feature of this exhibit is the exact reproduction of the royal carpet in the national palace of China, this being a rug of velvet black effect. Another attractive rug is that known as the Ismaïl, reproducing the French tapestry as seen originally in the London museum. The exhibit is very creditable to the company.

**Lowell Paper Tube Corp.**

The display at booth 5 is not what many believe. It consists of a large display of small, medium and large paper tubes. These tubes, which are made in Lowell, are in great variety of sizes and their various colors make this corner one of the most attractive in the lot. It may be noted that the big booth is a product of this company. The company boasts of being the 2d largest of its kind in the country.

**Stover & Bean Co.**

In this booth are shown all the products of a shoe shop using the Goodwell system of manufacture. The Stover & Bean Co. factory makes Goodwell shoes and their chief lines are the Marsh and Franklin, and the surgical socket fit arch and heel. The factory turns out an exceptionally fine grade shoe and the country. The company has an excellent reputation.

**Butterfield Printing Co.**

The Butterfield Printing Co., occupying a part of booth numbered 7, is featuring in its exhibit a number of its catalogues which are printed by J. E. Conant & Co. Included in this exhibit is also a full line of job printing that is worth inspecting.

**Lowell Shuttle Co.**

The Lowell Shuttle Co. is also occupying a part of booth with an exhibit of hobbins and shuttles, a feature of which is the only waterproof hobbins manufactured.

**Stanhope Mfg. Co.**

The last portion of this booth is occupied by products of the Stanhope Mfg. Co., which consist of tinseled candy, used for binding up bundles, candy boxes, etc. This display is very attractive.

**John C. Meyer Thread Co.**

In the display shown by the John C. Meyer Thread Co. at booth 8 is a very fine line of threads, including everything in this line from the hair variety to a rope. One who is interested in such wares can see spool cotton, boot and shoe manufacturer's thread, thread for the clothing and cutting up trades, silkline and bookbinding thread. Red, white and blue spools have been arranged so as to form a large American flag and this adds to the brilliancy of the exhibit. It was stated at the exhibit that enough thread is being manufactured each hour at the plant of the company to encircle the world once.

**Barber Mfg. Co.**

Booth No. 9 is divided into three sections. One of which contains the exhibit of the Barber Mfg. Co., consisting of duck tapes and narrow fabrics for textile machinery. The Harris Co., with its loom harnesses occupies another section of the booth and this exhibit is very interesting, especially to the cotton and worsted manufacturers and those employed in the industry. The manufacturers of the indestructible dolls and toys, with a plant in Middle street, the P.P.P. Co., occupy another part of this booth.

**Gold Gone! Head and Nose Clear**

First Dose of "Pape's Cold Compound" Relieves All Grippe Misery.

Don't stuff up!

Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passes down easy.

It cures colds, croup, croupy, tickle, headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

The Lowell Gas company is one of

and a feature of its exhibit is the

Tango doll with its flexible wire skeleton.

Shaw Stocking Co.

The name "Shaw Stocking" famous all

over the country wherever good hosiery is sold, will be made even more prominent

as a result of its exhibit which is one of the finest in its line. The

Shaw Stocking Co. shows its finished product in an impressive fashion by

means of rotating cases. The hosiery is also displayed on stands and in boxes.

The company also conducts a large printing plant in connection with its mills and makes boxes as well.

The number of employees at the plant is 225 and the hosiery production is about 1500 dozen pairs a day. The Shaw Stocking Co. booth, which is handsomely decorated will be conducted during the week by two young women, Miss Carrie Fletcher and Dorothy Weller.

Andrews & McGraw

Andrews & McGraw, manufacturers of the "Jumbo Balers," occupy half of booth 11, and their exhibit consists of waste paper balers, with a demonstrator showing how money can be saved on waste paper. The exhibit is both instructive and interesting.

**No Shake Grate Co.**

The other section of this booth is occupied by what is known as the "No Shake Grate," a local invention which comes from the shop of the "No Shake Grate" Heating Company. A boiler equipped with this grate is also included in the exhibit.

**Lowell Insulated Wire Co.**

The insulation of wire has been a mystery to many, but those who visit booth 12, which is being occupied by an attractive display from the works of the Lowell Insulated Wire Company are enlightened on this subject, for on a long reel, and divided into the parallel strands of the reed and fastens each place in exact position. The wire is then tied and gummed in order to make it solid. The machine is kept constantly in operation and attracts considerable attention.

**J. E. Carroll & Co.**

Booth 12 is divided into two sections, the other being occupied by a fine and varied display of copper articles from the establishment of J. E. Carroll & Co., manufacturers of tanks, coils and other useful articles made from this metal. Numerous articles, large and small are comprised in the exhibit.

**Knowles Scales Works**

Scales and balances in great array, all products of the Knowles Scales Works of this city, one of the largest industries of its kind in the country are being shown in booth 13, and accordingly, the exhibit is well known to the fact that standard scales which are being sold all over the world are manufactured right here in Lowell and now being enlightened. The display is large and very interesting. A feature of the exhibit is standard scales for Russia, China and other distant lands.

**A. G. Pollard Co.**

The A. G. Pollard Co. has an exhibit, not of the variety of goods on sale in its large department store, but of goods manufactured in its workshop in Middle street. This is contained in booth 14, and consists of a number of the grandmothers, mother and daughter and includes patterns of gingham and other washable goods. The display is very attractive for the members of the fair sex. It shows but a small part of what is to be seen at the Pollard Co.'s store, however.

**Lowell Electric Light Corp.**

One of the most lighted spots of the exhibition is that occupied by the Lowell Electric Light Corp. at booths 15 and 16. The spaces occupied by this corporation are flooded with light, showing what can be done in the home of factory. The exhibit also included various kitchen utensils heated with electricity, while a good demonstration of electrical power is also given. Motors, fans, electrical ranges and other electrical appliances are being shown to advantage, and the "lighted" corner is well worth visiting. Lighting, heating and power are the specialties.

**U. S. Persian Rug Co.**

The United States Persian Rug Co., one of Lowell's most recent industries, has a very attractive display. Many beautiful and attractive rugs are on display, all of which are productions of the oriental rug. These are Marshall rugs, including the oriental rug combined with American skill. They are very beautiful, forming one of the rarest exhibits of the show.

**M. Marks Co.**

Style and quality in men's tailor made clothing is being shown in a section of booth 15, which is occupied by M. Marks Co. The latest and most durable materials for suits, overcoats and auto coats, etc., are being shown with advantage. Suits made to order are also contained in the exhibit, making this section of the booth very attractive for men.

**New England Bunting Co.**

The other half of the booth is occupied by the New England Bunting Co., with a very attractive variety of bunting. The old glory is very conspicuous adding a patriotic note to the interesting display.

**Thissell Loom Co.**

The Thissell Co. has one of its looms in operation and the feature attracted considerable attention yesterday afternoon. One of the hundreds of Lowell people who have never seen one of the big looms here is a splendid opportunity to see one of the big machines in motion. The Thissell Co. has had abundant success in its work and its manufactured product can be found in mills in all parts of the country.

**Lowell Gas Co.**

All who linger for a little while before the booth of the Lowell Gas company will feel "right at home" for there was a decidedly homelike touch about the entire display. Great pains have been taken to make the exhibit complete and it is in some ways the most interesting of all. The space is double that of the average but every inch is taken up by a complete collection of Gas company accessories, large and small. Beauty and utility are combined as to leave a very well defined picture of the main thing.

The exhibit is largely educational and gives a very good idea of the uses to which gas may be put. There may be seen the crude coal from which gas and its various by-products are produced, and nearby under glass is the delicate mechanism of the gas meter, arranged so that it be readily understood by the observer. To demonstrate the growing uses of gas there are many business and home accessories including a baker's oven, a gas range, a gas steam radiator, a fireless cooking gas range, a garage heater, a combination coke and gas range, an automatic gas and water heater and other heaters of various types. The women who visit the exposition will be especially attracted to the display of the Gas company which is a revelation of home comforts, dear to the heart of the housekeeper. A demonstrator is on hand to explain the workings of the gas range, etc. to all who may be interested.

## NORMAL SCHOOL HEAD

**John J. Mahoney of Lawrence**  
Chosen Principal by State Board of Education Yesterday

At a meeting of the state board of education held yesterday afternoon, John J. Mahoney of Lawrence, assistant superintendent of schools in Cambridge, was elected principal of the state normal school in this city, to succeed the late Cyrus A. Durgin. The newly elected superintendent has had valuable experience in school administration and those who know him best believe that the state board has made a good selection. He has made frequent contributions to educational journals. In 1907-1908 he went abroad, under the auspices of the National Civic Federation, for the purpose of studying the schools of England and Scotland.

John J. Mahoney was born Dec. 2, 1880, at Lawrence. He attended St. Mary's parochial school, Lawrence, graduating in 1896 as valedictorian. He was graduated from Phillips Andover in 1899 and Harvard, 1903, magna cum laude. He studied education under Prof. Paul H. Hanus, and has nearly completed graduate work in education for the A. M. degree. Mr. Mahoney taught English in the

Lawrence high school in 1903-04. He was elected principal of a grammar school in Lawrence in 1904, and in 1905 was elected supervisor of the Lawrence evening schools, retaining these positions until 1912, when he was elected assistant superintendent of schools in Cambridge. There he has immediately in charge of the evening schools, and also acts as secretary of the school committee. He has also been an examiner of teachers for the Boston school committee.

The New York horse show this year will have a woman judge, the first in the history of the association.

### AMUSEMENT NOTES.

**LOWELL OPERA HOUSE**  
The initial performance of "Fine Feathers" by the Siles-Emerson players at the Lowell Opera House last night thoroughly satisfied large audiences which were thrilled by this excellent selection to be proffered twice daily during the remainder of the week. The play is replete with interesting and exciting situations and these are cleverly interpreted by the Emerson cast. Although last evening's performance was only the second for the week, the various members of the company seemed well acquainted with their respective parts and there was none of the "newness" often prevalent at the initial performances of a stock company.

By special arrangement between the management of the Opera House and the high school faculty, the local football squad and a good representation of "rooters" attended the show last evening and made things merry between the acts. The students also showed their appreciation of the play and contributed freely to the applause of the evening.

"Fine Feathers" is a product from the pen of Eugene Walter and is listed among the great successes of the present day. It relates the story of a young woman who unconsciously has a great desire for fine clothes and social prominence even though she neglects her young husband. The husband at first is unable to provide for her as she had hoped but there came a time when the man found a way to satisfy her desire. He is offered an opportunity to surround himself with wealth by crooked business dealings, to be worked under the hand of another man. At first he refuses on account of his own honesty but the wife persists that he get the money and he finally enters into the business, which brings him the wealth his wife so strongly desired. His wrong doings wear on him, he begins to drink and as a last resort goes to the stock market where he is completely wiped out. In the last act when all is gone, he ends it in suicide. The story of the play is intensely interesting and shows that "Honesty is the best policy."

The principal characters in the performance are Homer Barton and Miss Ann O'Day, the young man and his wife. The former as James Reynolds interprets his role splendidly and Miss O'Day is once more given an opportunity to display her skill as Mrs. James Reynolds. The other members of the cast are also excellent, including Joseph Crehan, Frank Weir, and Miss Flora Booth. "Fine Feathers" is one of the best plays of the season and must be seen to be appreciated.

**KELTH'S THEATRE**  
The excitement of politics failed to detract from the size of the audience that greeted this week's bill at Kelth's, and those who went were amply repaid for the program offered consisted of a well balanced and nicely varied assortment of high class acts. "The New Coachman," a laughable comedy conception, is presented by Louis A. Simon and company. Simon is a real comedian, and he has a real comedy in which to show his talent. "The New Coachman" tells the story of a college youth who has been left in a hotel apartment by the boys. This apartment has been let to a young married couple, who have advertised for a coachman, and finding the stranger in their flat assume that he's the new coachman. On the other hand, the coachman believes the woman to be his sweetheart, and hence is easily handled by her. Then follows a riot of fun. The climax is reached when the coachman attempts to hane pictures. The entire sketch has extremely funny situations. Mr. Simon's supporting company ably assists him in his funmaking, and its members are Sylvia Starr, Annette Collins and John Burke. An act that includes a lot of good things, all in the nature of surprise, is that furnished by Collins, Steel and Burke, who dance, talk and do stunts on the piano. It's a merry

mixture that they present and quite out of the ordinary. Dave Kinder is a whistler, and his act is as entertaining as it is original. His notes are sweetness itself, and it's a long time since anything like his offering has been presented to a local audience. The Six Harvards are not of the "groovy" and "black" variety, but a first class musical team of four women and two men, who not only perform finely on the instruments, including the ever melodious saxophones, but who are good singers into the bargain. Irwin and Herzog are not ball players but shining comedians, and their act is a top-liner of its kind. They are real singers and their comedy is good. The Adroit Brothers are well named for they are adroit gymnasts, working along the novelty lines. Their act is attractively set, and is gracefully carried out. Miss Bussey's toy terriers are actors and actresses, and perform in costume. One of them, "Pearl," by name, gives an imitation of Eva Tanguay that is all to the merrily. Again the Hearst-Selig News Pictorial shows some up-to-date pictures, the most interesting subjects now before the public on the films.

**MERRIMACK SQUARE THEATRE**  
Mary Pickford delighted hundreds of patrons of the Merrimack Square theatre yesterday in her supreme triumph, the six act Paramount picture, "Madame Butterfly," which is an adaptation of the famous classic by John Luther Long. This is the same play which when shown at the Strand theatre in New York City at higher prices drew crowds that had to be turned away. The many settings of the scenes in this Paramount feature are superb, every care taken to make each perfect. The dramatic work of each member of the cast is deserving of highest praise. As the forsaken little Japanese lady, Cho-Cho-San, patiently and confidently waiting through the long months for the return of her American husband, only to have him return with the American wife, Mary Pickford touches depths of emotion in her expression of sorrow, pain and grief that have never before been required of her in the portrayal of the many accidental characters whose daintiness and charm have made her the supreme photo-play favorite of the age. This splendid attraction will be presented today and tomorrow. In addition to this six act masterpiece, the thrilling "Neal of the Navy" serial will also be shown today and tomorrow, revealing many startling scenes. The other pleasing numbers on the program at the Merrimack Square theatre for the first three days of the week

will also be shown. The amateurs will appear at their best this evening.

**OWL THEATRE**  
Valle Valli, the popular and accomplished actress, will be the attraction at the Owl theatre this afternoon and evening in the vivid five-part Metro feature, "The Woman Pays." This famous emotional star is seen at her best in this photoplay. Many other excellent films will also be presented.

**JEWEL THEATRE**  
Tonight, a show such as the public is rarely treated to, will be seen at the

Jewel theatre, where "Pro Patria" an astounding five act war play and amateur performance of five Mutual reels of comedy and drama, "Pro Patria" attracted record breaking crowds at yesterday's performances, and with the other attractions which are booked for tonight, the show is decidedly strong. Wednesday and Thursday, the twenty-first episode of the Universal serial, "The Broken Coin" will be featured, besides other all-star features shown. Francis Ford and Grace Conard will soon say good-bye to their friends in "The Coin," so be sure to see the few remaining episodes.

### Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "just-as-good" are but experiments, and endanger the health of children--Experience against Experiment.

### What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea--The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of  
*Chas. H. Fletcher*  
In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

### WHY "ANURIC"

**Is An Insurance Against Sudden Death!**  
Sufferers from Backache, Rheumatism and Kidney Trouble.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience--such as Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery--"Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent

in dissolving uric acid, as hot water melts sugar, besides being absolutely harmless and is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and "life-saver" for all big meat eaters and those who deposit lithic salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

Dr. Pierce's Pleasant Pellets for the liver and bowels have been favorably known for nearly 50 years.--Adv.

## A QUARTER CENTURY AGO

The life of the late Charles Frohman, the famous theatrical magnate who lost his life on the Lusitania, is being told, serially, in the Cosmopolitan by his brother, Daniel, and that part of it contained in the November issue deals with Frohman's connection with Haverly's world-famous Mastodon minstrels, of 35 years ago, of which he became manager, and the general agent of which was William F. Strickland, a Lowell man, whose relatives still reside here. When Big Bill Frohman relinquished the management of the company, after its trip to England, several names were mentioned for his position, among them being Frohman, who up to that time had been treasurer, and Strickland, who was general agent. The members of the company sent a round robin to Haverly demanding that the job should go to Frohman, and he got it, while Strickland remained with the company in another capacity. "Bill" Strickland will be readily recalled by some of the old-timers, among them Tom Hansey, of the Belvidere hotel who remembers every theatrical man, great or small, who ever spent a night in Lowell.

But the Cosmopolitan, speaking of Frohman's connection with the minstrel, tells the following true story of local interest:

"On through the summer of 1881 the Mastodons went their way. Charles (Frohman) was now able to watch the minstrel parade from the sidewalk. (Before becoming manager he was obliged to take part in the daily parade of the minstrels, much to his disgust, arrayed in a tall hat, which he detested, and a frock coat, but he was still the friend, philosopher and guide to the company, to which he had now been bound by nearly three years of constant association.

"They played Washington during the Garfield inaugural week. Charles realized that there was a great opportunity for spectacular publicity. First of all, he took his now famous band down to the Willard hotel and serenaded Garfield. A vast crowd gathered, the president-elect appeared at the window, smiled and bowed, and then sent for the little manager (Frohman), to whom he expressed his personal thanks. Then a heaven-born opportunity literally fell into his hands.

"To the same hotel came the Mechanics Phalanx, of Lowell, Mass., which had secured a conspicuous place in the inaugural parade. Their arrangement committee had seen the Haverly parade, was greatly impressed with the band, and asked if it might secure its services. Certainly," said Frohman, "you can not only have the band, but the whole company escort you in the parade."

Thus it came about that the Haverly Mastodon Minstrels headed the third division of the Garfield inaugural parade. Ever mindful and proud of his men, Frohman, at personal expense, bought a bouquet for all the members

of the troupe and fastened them in their coats himself. From the sidewalk he followed, with admiring eye and hushed face, the progress of the company. By a curious coincidence, the Haverly Mastodons played Washington during Garfield's funeral, and the band marched in the parade that escorted the dead president to the station, playing "Nearer, My God, to Thee."

A happier sequel of the incident came when the minstrels next played Lowell, where they were received by the Phalanx, in full uniform, paraded through the city, with Charles marching proudly at the head and then given a banquet at the armory after the performance.

The old time militia men will pleasantly recall the event.

THE OLD TIMER.

## LOWELL CRACK SHOT

SERGEANT O'NEIL WON HONORS IN RIFLE COMPETITION OF MARINE CORPS

Sergt. J. J. O'Neil, son of John O'Neil of 357 Broadway, was one of the prize winners at the annual rifle competitions for the Marine Corps held recently at the Marine Corps rifle range at Winthrop. Mr. O'Neil was ninth man in the contest known as the "Navy Individual Competition General." There were 96 competitors and the firing was in three stages, all at 200 yards. The first stage consists in firing five shots in each of the four positions, that is, standing, kneeling, kneeling and prone, all in slow fire. In the second stage the positions are the same, but the fire is rapid, a limit of 30 seconds to each string of five shots. The third stage is known as changing position; a man fires his first shot standing, the second kneeling, the third kneeling on one knee, the fourth kneeling on both knees, and the fifth prone. There are 20 shots in each stage. O'Neil's score was 282.

IN MEMORY OF WASHINGTON SAVANNAH, Ga., Nov. 16.—Negroes of this city under the leadership of Prof. R. R. Wright, president of the Georgia Industrial college here, have launched a movement for an annual negro holiday in memory of Booker T. Washington.

CARD OF THANKS  
Mr. and Mrs. C. F. Holsinger, 55 Thirteenth street, wish to thank the members of Engine Co. No. 6, and all relatives and friends for the floral offerings and sympathy shown at the death of S. F. Holsinger (brother) of Derry, N. H.

## Puts Another Face on It

Many a man jauntily takes his cup or two of coffee at a meal and declares that coffee doesn't hurt him!

But wait until the poisonous drug, caffeine, in the coffee begins to show its cumulative effects, and puts a different face on the proposition.

It's a fact anyone can verify, that caffeine hardens the arteries, brings on premature old age, and sallows and wrinkles the skin. Some of the signs are headache, irritability, biliousness, heart flutter, sleeplessness, dizziness, "fag," and so on.

The way out is to quit coffee, and for a pleasant, healthful beverage use

## INSTANT POSTUM

—the pure food-drink.

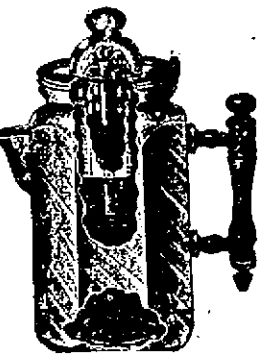

This delightful beverage is made from finest wheat, roasted with a bit of wholesome molasses. Looks and tastes like high grade Java coffee, but contains no caffeine nor any other harmful substance.

Postum makes for health, happiness and vigor.

## INDUSTRIAL AND STORE NEWS

According to official reports 81 new members were sent to the headquarters of the United Textile Workers in New York last week from Nashua. The number added to the previous enrollment of 1778 gives a total of 1859, which is said to be the actual membership. It is expected that the 2,000 mark will soon be reached. Due books are now being distributed by Organizer Thomas F. McMahon.

John F. Tobin, general president of the Foot & Shoe Workers Union; C. C. Holsinger, general vice-president; and Charles L. Dineen of Boston general secretary treasurer have announced their intentions of being present at the ball to be conducted by the Nashua union in O'Donnell hall next Friday evening. A number of Lowell members of the union have been extended invitations.

Organizer Thomas F. McMahon declares that if it should be desired the

French-speaking people of Nashua who are out on strike, as well as the Greek speaking operatives can form separate locals in the Gate City for the sake of more convenience. He has declared himself in favor of this expedient. "Tonight a public meeting is to be held in the city hall for a general discussion of the strike situation. Prominent professional business men as well as the strikers will attend."

## American Woolen

Deposits of American Woolen common stock under the chartering plan are coming in very rapidly. Saturday over 55 per cent. of the common and over 70 per cent. of the preferred had signified their approval of the change with several large holders who had given promise to deposit still to be heard from. There will probably be a meeting of the advisory committee today when the plan will be declared operative.

## THE EVENING SCHOOLS

SCHOOL SUPERINTENDENT ADDRESSES LETTER TO EMPLOYERS RELATIVE TO ILLITERATES

The attendance at evening schools of all illiterate minors is giving the school authorities in mill cities like Lowell, considerable concern, though as a matter of fact the responsibility in the matter is plainly up to the parents, guardians and employers. This fact is clearly set forth in the educational certificate issued by the state board of labor and industries, as follows: "The holder of this certificate to be legally employed must present to his or her employer each week while a public evening school is maintained in the city or town in which the said holder resides, a record of his or her attendance in such school. When such records show unexcused absence, the continuance of his or her employment is unlawful. His or her employer, and said holder, as well as the latter's parent, guardian or custodian, are subject to penalty for violation of this requirement. Chapters 187 and 773, acts of 1913.

"It is incumbent upon the employer to see that the person who holds this certificate regularly attends evening school during the term thereof."

## Letter to Employers

Hugh J. Molloy, superintendent of schools, has addressed a communication to employers in which he states that friendly and cordial co-operation between employers and the school department is essential if the evening schools are to do their work effectively. The letter:

Office of Superintendent of Schools, Lowell, Nov. 15, 1915.

To the Employer of any Illiterate Minor:

Dear Sir:— I am endeavoring to see that the legal requirements as to the attendance at evening schools of all illiterate minors are scrupulously enforced, and know that I can count upon the willing co-operation of yourself and all those who have charge in any way of illiterate minors who may be in your service.

I most respectfully ask that you send at your earliest convenience the office of the superintendent of schools a list of the illiterate minors in your service, giving the age, residence, and name of overseer in each case.

Allow me at this time to call your attention to the printed matter on the educational certificate a perusal of which will show that it is incumbent upon the employer to look after the matter of evening school attendance. Too much cannot be given to the fact that while the law makes it the duty of the city to provide evening school facilities for illiterate minors, it clearly is the legal prescribed duty of an employer to see that every illiterate minor in his service attends evening school regularly.

As reports come to the evening schools from time to time that careless remarks are made by subordinate officials concerning evening school attendance, I would further suggest that you see that all who have control over your employees read and make themselves familiar with the provisions of the law governing the employment of illiterate minors.

An illiterate minor, who may be laid off from work temporarily, cannot be employed again legally unless he can show that he has attended evening school regularly during the period of his absence from work or that he

## OUT FOR PREPAREDNESS

WOMEN'S SECTION OF NAVY LEAGUE PLANS TO ENLIST A MILLION MEMBERS

WASHINGTON, Nov. 16.—Efforts will be made by the newly organized women's section of the Navy league to enlist a million members by Jan. 1 to aid in the movement for national preparedness.

This was decided upon at the first conference of the league, which, after adopting permanent organization, Wilson and other government officers to support adequate national defense legislation and calling for the annual observance of a "national defense day" on the opening day of congress, with meetings and rallies throughout the country under the organization's auspices.

Steps already have been taken by Mrs. William Cummings Story, president of the Daughters of the American Revolution, to enroll the 115,000 members of that society in the league.

Women representing every state in the union participated in the conference and heard speakers of national prominence discuss national preparedness.

## SLEEPYTIME TALES

HOW THE GNOME HELPED JACK FROST

Once upon a time, Tip, the tiniest of the gnomes, was sitting on a stone wall when he felt a touch on his shoulder and heard a voice say: "Well, well, Tip, I wish I had your job of nothing to do."

Tip looked up and saw his old friend Jack Frost close beside him. Jack had been away all of the summer working on the icebergs in the far north, so Tip was very glad to see his friend and asked if he could help him with his work, as he had the year before.

"Yes, indeed," you can help me if you wish," said Jack Frost. "I am away because I have my work this year." You know what the gnomes can do, but no one has ever seen them at work, but when you see a big stone in the middle of a brook, the children can guess without danger or the leaves all piled up in the fall, you can know the gnomes have been at work.

The next day Tip was ready for work and he and Jack Frost started out early in the morning and worked hard all day and far into the night, so that when the children awoke the next day everything was already for them to have a nice time in the woods hunting for chestnuts and bright red leaves.

Tip had shaken many of the leaves so that the ground would be covered with chestnut leaves and the children would not have to climb the trees.

Now, Mr. Squirrel had been watching the children, and when he saw their baskets filled with luscious nuts it was more than he could stand, so he hopped down and began to fill his paws with the chestnuts. Mrs. Squirrel ran down to help and all the little squirrels, and in a little while all the nuts were in the squirrels' home, while the children were off gathering leaves. When the children came back to get their nuts and found them all gone they were

very much surprised and didn't know what had become of them, until all at once they saw Mr. Squirrel stick his head out of a hole in a tree and, as he had a nut in his teeth, they knew pretty well what had become of their nuts.

The gnome, when he saw what trouble the children were in, shook some more trees and soon the children had plenty more nuts to fill their baskets, but you may be sure they did not leave them ungarded again.

## SEND FOOD TO TEUTONS

ORGANIZED MOVEMENT STARTED AT NEW YORK TO AID AUSTRO-GERMANS

NEW YORK, Nov. 16.—An organized movement to aid the civilian population of Germany and Austria by sending food from the United States was launched here today by a "Citizen's committee for food shipment," consisting of 45 physicians, clergymen and prominent women. The organization has provided for branch committees throughout the country. Dr. Henry J. Wolf is chairman of the committee.

TO MAKE INDIANA DRY INDIANAPOLIS, Ind., Nov. 16.—An anti-liquor state temperance convention, the purpose of which, as stated in the call, is to start a movement to make Indiana dry in 1917, was opened here today. Prohibition leaders of national prominence were expected to address the convention during its two days' session.

## WAR INVENTIONS

Prof. Painleve Explains  
Work of New Ministry  
of Inventions

PARIS, Nov. 16, 4.40 a. m.—The work of the new ministry of inventions was described today by Prof. Paul Painleve, head of the department. The minister explained that hitherto many well equipped laboratories and scientists equipped with them had played no part in preparations for national defense. It is his purpose to mobilize them.

The first and greatest difficulty with which the department is to contend, Prof. Painleve explained, is the enormous number of useless inventions. All must be tested and the work must be done rapidly. Those picked out as having possibilities are referred to special sections, such as electricity or aviation, under the direction of two or three young and active experts, who investigate them thoroughly. Such inventions as are deemed practicable are then turned over to specialists, who assist the inventors to perfect them. Inventions are welcomed, whether from world-famed scientists or workmen. The variety dealt with is immense, varying from a slight improvement in the pivot of a machine gun to the most obscure applications of modern physics.

## KILLED JITNEY DRIVER

HERBERT J. MORRISON SENTENCED  
TO 17 YEARS IN STATE PRISON IN  
RHODE ISLAND

PROVIDENCE, R. I., Nov. 16.—Herbert J. Morrison was sentenced to 17 years in state prison here today under a charge of killing Leslie C. Hopkins, a jitney driver, in Pawtucket on June 12. Morrison fired five shots at Hopkins while the latter was seated in the automobile. The state could find no motive for the crime as the defendant was neither intoxicated nor mentally defective, and so far as could be learned was not acquainted with the victim. Morrison was indicted for murder but was allowed to plead guilty to the lesser crime of manslaughter.

## MATRIMONIAL

Michel Poltras and Miss Georgiana Levesque were married last evening, the ceremony being performed at 7 o'clock at St. Joseph's rectory by Rev. Joseph Denis, O.M.I. The witnesses were Joseph Laporte and Philadelphie Lemire. The bride wore white satin and carried a bouquet of roses. At the close of the ceremony the bride and groom were taken to the home of the bridegroom, 215 Allen street, where a reception was held. After a brief honeymoon trip the couple will make their home at 215 Allen street.

Cardell—Merrett  
Ernest E. Cardell and Miss Mabelle Gump were married yesterday afternoon by the ceremony being performed by Rev. A. C. Forbin, pastor of

Says Woman's Beauty  
Depends Upon Health

Health and Vigor Necessitate  
Regulation of Organs of  
Elimination.

"Skin foods and face creams and powders cannot make a woman beautiful, because beauty lies deeper than that—it depends on health. In most cases the basis of health and the cause of sickness can be traced to the action of the bowels.

The headache, the lassitude, the sallow skin, and the listless eyes are usually caused by constipation. An ideal remedy for women, and one that is especially suited to their delicate organisms, is found in Dr. Caldwell's Syrup Pepsin, a mild laxative compound, pleasant to the taste and free from opiates and narcotic drugs of every description. Mrs. Gertrude Jordan, 522 North Liberty St., Indianapolis, Ind., says: "It is simply fine; I have never been able to find anything to compare with Dr. Caldwell's Syrup Pepsin. I started using for the baby and now it is my family standby in all cases where a laxative is needed."

Dr. Caldwell's Syrup Pepsin is sold in drug stores for fifty cents a bottle.

MRS. GERTRUDE JORDAN

Use a trial bottle can be obtained free of charge, by writing to Dr. W. R. Caldwell, 454 Washington St., Monticello, Illinois.

She also wore a diamond pendant and carried a bouquet of roses. She was attended by her sister, Miss Annie C. Murphy, who was attired in a dark blue suit with black picture hat and white plumes and she carried pink roses. The best man was a brother of the bridegroom, William J. Crowley. At the close of the ceremony a wedding dinner was served at the home of the bride's parents, Mr. and Mrs. Jeremiah Murphy, 63 Durant street, Ashland section and in attendance were guests from Springfield, Keene, N. H., Hallowell, Boston and Washington. After a honeymoon trip, that will include New York, Springfield and other cities, the couple will make their home at 210 Hale street, this city.

## MURDER OF AMERICAN

DETAILS OF KILLING OF JOSEPH W. TAYS NEAR SAN BLAZ, SINALOA, MEXICO

EL PASO, Tex., Nov. 16.—Details of the murder of Joseph W. Tays, near San Blas, Sinaloa, Mex., are contained in a letter received today by J. W. Tays, father of the murdered man.

According to the letter, dated Sept. 20, Tays set out for Los Mochis, 25 miles away, on Sept. 6, in company with four companions, and three Indian teamsters. They were met by 500 Indians of the Villa faction and made prisoners. Despite this protest of American citizenship, they were forced to march naked five miles across the desert to the camp of Bachomo, Indian bandit chieftain.

Tays and his companions begged for water, but the bandits only brought forth threats of revolvers in their hands. All the while the Indians dangled full canteens before their famished captives. On arriving at the camp of the Indian leader, the American and his companions were robbed of \$300, after which they were lined up and shot. The Indian teamsters fled, but one was killed in trying to make his escape.

The father, accompanied by seven armed Americans, visited the scene of the tragedy next day, but was unable to recover the body of his son. Two days later Bachomo sent word to Tays that he would kill him, too, if he persisted in searching for his son's body.

Tays wrote his brother that he had notified Carranza authorities through the American consul at Mazatlan, but so far the bandits had escaped punishment.

## SINKING OF THE ANCONA

U. S. GOVERNMENT WILL AWAIT  
FACTS FROM AUSTRIAN GOVERNMENT

WASHINGTON, Nov. 16.—The American government will await the receipt of the Austrian government's statement of facts governing the sinking of the Italian liner Ancona before considering whether any rights of Americans have been violated. These facts probably will be sought through Ambassador Penfield at Vienna.

The state department now has before it the Italian government's communication addressed to neutral nations, denouncing the sinking of the Ancona as an "unparalleled atrocity" and officials have also seen the published statement of the Austro-Hungarian admiralty describing the attack.

The two statements differ. Italy's communication charges that "without even a blank shot of warning from the attacking submarine" the Ancona was shelled and that the killing and wounding of passengers continued after the vessel stopped.

The admiralty statement on the other hand declares that the Ancona attempted to escape and only after repeated shelling was brought to a stop. It also claims that the passengers and crew were given 45 minutes to escape in small boats, and denies the charge that the submarine fired on the boats.

Diplomatic exchanges between the American and Austrian governments probably will follow over the entire question of submarine warfare and the obligations of a submarine commander to see that neutrals are safe before destroying a prize.

"WATERWAGON CLUB"  
At November Meeting It Was Announced Organization Now Has 1800 Members

BUTLER, Pa., Nov. 16.—At the November meeting of the Bessmer & Lake Erie "Waterwagon club" here yesterday it was announced that the organization now has a membership of 1800. All the members of the club are employees of the Bessmer & Lake Erie railroad, which employs 3300 men.

FRENCH APOLOGIZE TO GREEKS  
BERLIN, Nov. 16 (By wireless to Tuckerton, N. J.)—"According to a despatch from Saloniki received through Vienna," says the Overseas News agency, "French troops at the Greek port attempted to occupy a Greek military building. This attempt, however, was frustrated by Greek troops. The French military authorities afterwards apologized for the incident, declaring a mistake had been made."

## GRAND EXHIBITION

Continued

manufacturers of high grade colognes. Of course men are also attracted at that booth, which is numbered 49, for the aroma in the vicinity of this exhibit is most inviting. Five different colognes are on exhibition and the odors are seductive. Samples are being distributed to the visitors and in this manner the company is receiving great advertisement.

C. I. Hood Co.

No made-in-Lowell exhibit would be complete without the name of C. I. Hood, whose products for almost half a century have carried the name of Lowell all over the world. The display is very striking, its first impression being that of completeness. On a step-like foundation many of Hood's preparations are arranged in attractive profusion. Hood's Sarsaparilla takes the lead, surrounded by Hood's pills, Dye-pap-pets, Popitron pills, and so on. A splendid display of tooth powder, hair tonic, lotion, soap, tooth wash, etc., the fullest investigation is invited and the seal of the expert pharmacist is on everything with the Hood label.

Over all is a striking sign in black and white declaring that "Hood's Sarsaparilla has made Lowell famous throughout the world." The original pastel painting by Mr. Frank Desch, a popular artist of New York, is also shown, this being the subject of the Hood calendar for 1916. The various processes in the reproduction of this painting are shown in an interesting manner.

American Woolen Co.

The Bay State mills of Lowell and the Beaver Brook mills of Collinsville combine to make the exhibit known as that of the American Woolen company and occupy booth 51. The display is chiefly in the form of the steamer rug, which is the Beaver Brook consists of chinchillas, blankets, polo cloth, crash and cap cloth. The booths are artistically arranged, materials from both mills being used as decorations. Some of the finest weaves are on exhibition including the army navy blankets. The exhibit makes one think of winter warmth.

American Hide & Leather Co.

The finest leather to be found in the country is on exhibition at the booth of the American Hide & Leather Co., right across the aisle from the Lamson Co.'s exhibit. Samples of the leather are to be seen in 25 different varieties, most conspicuous of which are the willow calf, a development of the original box calf and six shades of tan Royal, a product peculiarly the property of the American Hide & Leather Co. The samples are artistically arranged on either side of the booth and the silky finish of the leather is a fine thing to look at. Through a store window at the booth a full bolt of silk or satin cloth. In fact the finish is so glossy that one can almost see one's face reflected in the various leathers. In the background of the booth is situated a large picture of the hide business plant of the company in Perry street, or perhaps in the entire world. The product of the company is known the world over and Americans buying high grade shoes from other countries will be interested to learn perhaps that the leather for such shoes has been supplied to a large extent by the plant in Perry street. There are also other exhibits of interest at this booth to Lowell people especially, for Lowell has the distinction of originating the "box calf" in the old White tannery to say nothing of numerous other durable leathers.

A long stay at this booth is well worth one's time.

J. C. Ayer Co.

At the booth occupied by the J. C. Ayer company and numbered 53, the visitors are given an opportunity to see how the millions of almanacs put out yearly by the company are made up. In the booth is installed a machine handling almanacs at the rate of 150 a minute and it is figured that before the show closes over 40,000 almanacs will have been distributed. The products of the company, which consist of patent medicines of all kinds, are contained on glass shelves. The booth is a miniature fairy garden with a greenery display and the walls contain the portraits of the founder of the company, Dr. J. C. Ayer, and his brother, Fred Ayer.

Appleton Co.

The exhibit of the Appleton Mfg. Co. embraces regular cotton manufactures, all of which are the art of the loom. Space does not permit a description of all the grades of output, for the mills of the Appleton Co. turn out great varieties of goods. There are apple weaves, ginghams, storm flannels, Swiss flannels, Alcor, Slumber, Tyrol, Doxy and Dreamland types, all suggesting the greatest comfort of the bed. Wara, Sultans, Twilidown, A.G.V. and A.B.S. bleached goods and other trade-marked products are admirable samples of Appleton work. There are also goods on exhibition absolutely guaranteed against "runnings." Samples of these goods are displayed which will yield nothing of their dye as long as the cloth lasts, and the quality of the cloth is of extreme durability. Persons visiting the Appleton booth will learn at a glance why the mills of the company have been running steadily for the past 20 years through all periods of industrial depression.

Boott Mills

One of the distinctive features undertaken at the enterprise is the exhibit of the Boott Mills. Up to within a few days ago the Boott mills manufactured along ordinary cotton textile lines, but with the beginning of the more prosperous administration of the present agent, E. W. Thomas, attention was diverted to the manufacture of duck. Auto tire duck is one of the most important products of the mills. Another feature of Boott production to which the

Tremont & Suffolk Mills

The Tremont & Suffolk mills show a fine array of cotton blankets with new and highly satisfactory wool finish at its booth. It is the corner booth in the mill circuit and is wonderfully laid out with Canton flannels for the Chinese trade. French flannels, chambrays for South America, table felt, mottled flannels, cotton underwear and the yarn for this product: rope, ginghams, quince flannels for gloves and blankets by the score in all sorts of colors and patterns, plaids and plain. In fact, the basis of the exhibit is the blanket display, and it is a highly commendable one. There are bleached shakers and brown shakers, and the whole are placed in tremendous array throughout the booth. The decorating is done with exquisite taste and the goods are made to carry their own beauty with the best possible effect.

Special Exhibits

Under the head of special exhibits come a variety of ladders equipped with safety devices, and manufactured by J. W. H. L. Ladder Co., of Lowell. A spring manufactured by the National Spring Bed Co., and artificial limbs from the plant of William Andrews. In the exhibit of Mr. Andrews is a splendid likeness of former Mayor Hosford in purest marble. It is a beautiful piece of sculpture.

Ideal Comb Co.

The display of the Ideal Comb Co., located at the end of one of the aisles, is very interesting, especially to the ladies, inasmuch as the majority of the articles on display are for the use of ladies, such as bracelets, barrettes, shoe

lished by the enemy might sometimes cause uneasiness is counterbalanced by the consideration that facts can never be concealed for any length of time and that lies are always recognized as such in the end.

DEMOCRATS IN CONGRESS MEET

WASHINGTON, Nov. 16.—Democratic members of the ways and means committee, it was announced today, will meet here Nov. 19 to take up the organization of the new house of representatives. The committee will have its recommendations, including the chairmanships of principal committees ready when the democratic caucus meets Dec. 4, two days before the opening of congress. Representative Kitchin, of North Carolina already chosen by the caucus for chairman of ways and means committee, plans to come to Washington several days before the meeting.

## PRINT ALL WAR NEWS

GERMAN CENSORS INSTRUCTED TO PUBLISH IN FULL ALL ALLIED REPORTS

WASHINGTON, Nov. 16.—The German ambassador, Count von Bernstorff, announced today that he had been instructed to insist upon the publication in full in Germany of all reports issued by the allies. As a consequence of the German chief of the censor bureau, said:

"Cases have occurred where such news items which are unfavorable to us are eliminated from the reports at the order of the censor. This latter procedure does not correspond with the opinion held by the army headquarters that the unabridged quotation of the enemies' reports is required at all times, exceptions only to be made with papers in case of which technical reasons or technical difficulties in printing demand consideration.

"We have the less reason to fear the unabridged publication of our enemies as our own war reports are strictly according to the truth, giving everybody the opportunity of forming a correct conception of the situation. The fear that the official reports pub-

lished by the enemy might sometimes cause uneasiness is counterbalanced by the consideration that facts can never be concealed for any length of time and that lies are always recognized as such in the end."

SUN BUILDING, MERRIMACK SQUARE, LOWELL, MASS.

Member of the Associated Press

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

## LOWELL IS GROWING

The immense industrial importance of this city will at once flash into the mind of any citizen who walks through the narrow aisles of the Casino and surveys the lovely booths on either hand. There, side by side, scores of great business enterprises are represented, many of which are of national importance and most of which carry the name of Lowell into every large city of this country and into many foreign countries. Practically all of the names of exhibiting firms are familiar, but their very familiarity has prevented us from seeing the various industries of this city in their true light. Our people have passed by the walls of the mills and factories for years and formed a vague impression of what goes on within, but they have not realized that practically everything found on the counters or in the show rooms of local stores may be produced with the "Made-in-Lowell" trade mark thereon. The local exposition is a condensation of Lowell, but it is more; it is a small reflection of industrial America—the biggest thing industrially in the world.

The Lowell exhibit is of a decidedly high grade, taken collectively or in detail. In it may be found the finest of textiles, the most delicate machinery, the best in clothing, in confectionery, in household utensils, in home and office furniture, in everything that conduces to successful modern life. One who sees the splendid display in the proper spirit wishes that side by side with the local product were the imported, for comparative purposes. This would be possible in some lines of manufacture but not in all, for Lowell makes some things so well that it has a clear field. Even where competition is possible, Lowell leads. Anybody who doubts should go to the Casino and think it over seriously. All who go there and who use their eyes will come away with the feeling that Lowell is indeed a great and growing city in which its citizens should take pride.

There are other indications of our prosperity and growing importance. Our industries are becoming more diversified; our plants are running full time; many of them are building additions. Generally speaking, building this year has been ahead of last and there is no indication of unemployment hardship. Let us take a deep breath and, all together, cheer for Lowell—the city of opportunity and optimism.

## LOCAL SCHOOL CHANGES

As expected by those who have watched the circle of widening state interest since the Peabody fire, the state authorities have turned their attention to Lowell. In a letter to Commissioner Putnam, State Inspector Carey reminds the Lowell authorities of certain evasions of the law in this city and insists that additional fire escapes and exits must be provided in the near future in all public schools which are not properly equipped. There is only one answer and that can be given only by immediate compliance; the public will approve of no other.

If local authorities everywhere were insistent on the recognition of the law, whether in public or private buildings, it should not be necessary for the state to step in and demand reforms. Any investigator with common-sense may readily discover whether schools are safe or not, and if unsafe in the slightest particular, the fault should be corrected. Where the lives of children are concerned, no margin should be permitted for official laxity or evasion of the law on the part of those responsible. Better to have laws enforced at the risk of offending the few than a great calamity that will spread horror through the entire community.

Commissioner Putnam claims that since no money was appropriated for this specific purpose early in the year, it will be necessary to borrow sufficient to meet the new requirements. If so, let it be borrowed by all means. The estimated sum is somewhat less than \$5000—a mere trifle compared with some amounts which the municipal council is in favor of borrowing for unnecessary things. If we can afford \$70,000 for a street extension, for which there is no public demand, we can surely afford to spend \$5000 in order to prevent a local repetition of the tragedy of Peabody. Let the money be borrowed and let the work proceed at the earliest possible opportunity. Safety in schools is a prime necessity.

Incidentally, it is to be hoped that the state inspector of schools will demand greater respect for the law locally than the state department of health has done. There should be no quibbling or uncertainty. Every school in this city should be made as safe as prompt attention and the expenditure of money can make it. Lowell should be anxious to lead Massachusetts in such a worthy movement.

## THE RECKONING

There are evidences of the awakening of democracy in most of the belligerent nations, and all students of history who predict the future frankly confess that there is no way of anticipating some of its possibilities. The governments may make claims and counter claims, but among the great

masses of the respective peoples is growing a feeling that for the future no ruler or group of kings or emperors shall be permitted to lead the world into a fratricidal slaughter. Under the title "Is Liberty perishing in Europe?" the New York World deals with some phases of this great subject. Following is an excerpt:

Europe was plunged into war by secret diplomacy. It is fighting the war, thanks to censorship, in the dark. Not one of the belligerent nations is well informed as to the progress of events. The suppression or distortion of news and the shackling of the press are as notorious in the countries that are pleased to think they are battling for civil liberty as it is in those popularly supposed to be wedded to militarism and autocracy. That the situation is dangerous for all concerned is shown by the minority protests now made in Great Britain, France and Germany. Some day the truth is going to be known in all of these lands, and we may be sure there will be a stern reckoning then. Wicked everywhere, the censorship in England amounts to a crime against the people and probably explains most of the public lethargy which at times has menaced the very life of the empire. In Germany a large and devoted population long sustained by false hopes, will eventually learn the facts, and when it does, war may take on a different aspect at home.

Foreigners have often commented on the fact that in America one notices a stronger public opinion than anywhere else. Our government may for a short time run counter to that almost public opinion, but eventually the will of the people must prevail, and the people may be trusted to keep a pretty safe balance in national matters. A concrete instance was afforded by the fact that while America grew red hot after the loss of the Lusitania, there never was any indication of a desire for war. In Europe, military dogmatism betrays and misrepresents public opinion, and during war there is no independence of thought is permitted, if it can be crushed. There will be a great airing of ideas when the war is over, and the world may be the better for it, even if some of the kings and the royal families have to step down and out.

## CAN IT BE TRUE?

After the many revelations of pernicious activity in hindering the making of armament and the shipping of supplies to the allies, few Americans doubt that there is a concerted effort to fight the war in some of its phases in this country. Now, the charges go deeper and involve the highest ministers of Austria and Germany in this country. Dr. Joseph Gorican, formerly with the Austrian consulate, declares that Count Bernstorff was in league with Dr. Dumba for the spending of millions to cripple American plans and he charges that the German and Austrian embassies can account for most of the bomb explosions in factories and fires on ships. This is indeed a serious charge and the people should suspend judgment until it is proved. The state department has referred the matter to the department of justice for investigation, and if our secret service is as efficient as we have been led to believe, we shall sooner or later see a clearing up of many dark episodes in recent history. The United States government ought not to depend on newspapers to get on the trail of treason, and if there is a concerted move here to attack American interests with the connivance of the Austrian and German governments, acting through their respective consulates, the government will not remain long in the dark.

## SUNSHINE IN JAPAN

Right in the midst of the foreign despatches for some days past, reports of the coronation of Emperor Yoshihito of Japan have come with refreshing and quaint insistence. Details of ceremonial magnificence, ancient costume, traditional symbolism and religious mysticism have been blended with concessions to modern progress until to Americans the ceremony has seemed like a theatrical presentation of an Oriental play that is dated too far back to be other than mythical and legendary. As a matter of fact, the ritual of the Japanese coronation is intensely serious. For Yoshihito is a descendant of the oldest royal line in the world, and his crowning is linked with things that stir the deepest feelings of the hearts of his people. He has seen his country grow from a beautiful land of legend and myth into one of the most progressive nations of the earth and he knows how much modern Japan owes to the blending of the new and the old that is found there in such unique harmony. His people are united and patriotic and during his coronation they have shown the deepest love and loyalty to their ruler.

## BOOKER T. WASHINGTON

Fame has been kinder to Booker T. Washington, great educator and acknowledged leader of the negro people of America, than to most men. For it has bestowed its tributes upon him in life.

## GET RID OF THOSE POISONS IN YOUR SYSTEM!

You will find Dr. King's New Life Pills a most satisfactory laxative. In releasing the system from your accumulated waste and poisons, cause manifest ailments to be released. Blotches, spots, pimples, eyes, blackheads, and a host of other ailments are generally caused by the impurities in your blood. Take a dose tonight and you will experience gratifying relief by morning.

The praise that is heard over his remains only echoes praise heard for many years past, and the regret that is universally voiced comes from a nation that realizes a national loss. Dr. Washington was a great American for through his eventful career he was ever mindful of American ideals and aspirations and he exercised a profound influence on his people. Faced by prejudice and hostility in some sections and by the indifference of those he would serve, he had no slight task on hand, but he was over deliberate, calm and patient under a strain that would have broken a less rugged man. He was a thinker and a worker with a great mentality and he managed to keep the ideal ever subservient to the practical. Born in slavery and lamented after death by the greatest in the land, the late Dr. Washington stands as a type which no other country on earth can produce.

## SEEN AND HEARD

In searching for the man with the smallest mental displacement look for the one with the largest megaphone.

Talk to a successful man long enough and he will admit he once lived in a community where he pitched horse-shoes for amusement.

## Knew Her Number

They were eating their dinner when little Dorothy looked up into the face of the visitor and asked: "How do you like the place?" "It's all right," replied the visitor, "but you mean whipped cream, my child. It's delicious," taking a guess at the child's meaning. "It's licked cream," said the child a little piqued. "I know because I saw it being licked it."

## The Scotchman's Contribution

An Englishman, Irishman and Scotchman made an agreement among themselves that whoever died first should have five pounds placed on his coffin by each of the others. The Irishman was the first to die. Shortly afterward the Scotchman met the Englishman and said: "If he had fulfilled the agreement."

"Yes," said the Englishman, "I put on five sovereigns. What did you put on?" "Oh, I just wrote a check for 10 pounds," said the Scotchman, "and took your five sovereigns as change."

## Don't Jinx This

"Yes, dogs are undoubtedly sagacious animals," Jones said to his friends, "but none of your dog stories will beat the story of my friend Johnson's dog. One night Johnson's house caught fire. All was instant confusion. Old Johnson and his wife fled for their lives and bundled out with their pretty child. Alas! One of the children had been left behind, but up jumped the dog, rushed into the house, and soon reappeared with the child in its mouth. The animal was soothed, but it was a miracle. The child was saved, but the dog was burned. What did the dog want? No one knew. Presently the animal reappeared, scorched and burned, with what do you think?" "Give it up," chorused the eager listeners.

"With the fire policy, wrapped in a damp towel, gentlemen!"

## Putting One Over

Private Tommy Sims had had pneumonia and had been for some time in the hospital, where they treated him so well that he was much averse to the prospect of being discharged as cured. One day the doctor was taking his temperature, and while Tommy had the thermometer in his mouth the doctor moved on and happened to turn his back. Tommy saw his chance. He pulled the thermometer out of his mouth, popped it into a pot of hot tea, replacing it at the first sign of the doctor's turning. When the doctor examined the thermometer he looked first at Tommy and then back at the thermometer and gasped.

"Well, my man, you're not dead, but you ought to be!"

## \$100 For One Word

It had been a sweltering day, and Mr. K. smoked in silence one cigar after another. Dr. K. happened to be studying Jupiter, though in reality he was wondering how long it would be until her husband would say something. Jim is rather quiet for the most part, she will tell you. "I'll give him five minutes," she agreed mentally, with her usual generosity.

"I'll give a hundred dollars to know," Jim remarked abstractedly.

His wife clasped her hands in delight. Jim never disappointed her.

"What?" she asked.

"Well, you see, it was this way. I was talking over a business deal with the head of the firm, and I got pretty enthusiastic. I said, 'Study the boss' hand came down on the table with a crash. 'You used the right word that time, my boy. That's my idea exactly,' he exclaimed."

"Well," questioned his wife.

"Nothing, only I'd give a hundred

**"CASCARETS" FOR HEADACHE, COLDS, LIVER, BOWELS**

Enjoy life! Don't stay bilious, sick, headachy and constipated.

Get rid of bad breath, sour stomach, coated tongue, indigestion.

Get a 10-cent box now.

They're fine! Cascarets give you liver, clean your thirty feet of bowels and sweeten your stomach. You eat one or two, like candy, before going to bed and in the morning your head is clear, tongue is clean, stomach sweet, breath right and you feel good. Get a box from your druggist and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Cascarets stop sick headache, biliousness, indigestion, bad breath and constipation.

Mothers should give a few Cascarets to cross, bilious, sick, feverish children any time. They are harmless and never gripe or sicken.

## HAT BLEACHERY

Ladies' and gentlemen's felt, velvet and beaver hats cleaned, dyed and reblacked into the latest styles. E. H. SILVER, Inc., 133 Middle Street, Open Saturday and Monday Even.

dollars to know what I said."—Indianapolis News.

## What Is Marriage?

Marriage is a trade in which neither party pays much attention to business principles. Each party to the swap expects to get everything he wants without giving up anything.

When he gives nothing and finds afterward that he got just what he gave, he is surprised and deeply hurt.

It is considered highly disloyal and unbecomingly for the prospective groom to try to ascertain whether the bride's feet are mates.

It is likewise gross and vulgar for the bride to endeavor to find out in what key the groom snores.

Their happiness, if they have no more sense than most people, depends almost entirely on trifles.

And either of them would be ashamed to ask anybody who knew, about these trifles, beforehand.

Things big enough to fight about after marriage are too trifling to mention before the wedding day.

Most of the homely women get married.

That is because they know they are homely and never pass up a good chance.

The pretty ones think they have a lot of choice, and they wait and pick around and act snippy about it till the boys decide the aforesaid pretty one is not worth picking.

Then comes the "anybody's your's" stage.

We once knew a girl who said she wouldn't marry the best man in the world.

She kept her word. But she's married.

## The Moneyless Man

Is there no secret place on the face of the earth where charity dwelleth, where virtue has birth, Where hosannas in mercy and kindness Where the poor and the wretched shall ask and receive? Is there no place at all where a kaffek Will bring a kind angel to open the door?

Oh! search the wide world, wherever you can, There is no open door for a moneyless man.

Go, look in your hall where the chamber-door is ajar, Drives off with its splendor the darkness of night; Where the rich hanging velvet, in Sweeps gracefully down with its trimmings of gold; And the mirrors of silver take up and On long-lighted vistas, the wildering view—

Go there at the banquet, and find, if you can, A welcoming smile for a moneyless man.

Go, look in your church of the cloud-voled angels, gray, Which gives the sun his same look of red fire; Where the arches and columns are gorgeous with sin; And the angels seem as pure as a soul without sin; Walk down the long aisles; see the rich and the great, In the pomp and the pride of their worldly estate;

Walk down in your patches, and find, if you can, Who opens a pew for a moneyless man.

Go, look in the banks, where mammon has laid His hundred and thousands of silver and gold; Where, safe from the hands of the starving and poor, Lie piles of gold glittering o'er; Walk up to their counters—ah! there you may stay

Till your limbs shall grow old and And you'll find at the bank not one of the clan With money to lend to a moneyless man.

Go, look to your judge, in his dark, flowing gown, With the scales wherein law weigheth Where he frowns on the weak and smiles on the strong, And punishes right whilst he justifies Where juries their lips to the Bible have laid To render a verdict they've already

Go there in the courtroom and find, if you can, Any law for the cause of a moneyless man.

Then go to your hotel—no raven has fed The wife that has suffered too long for her bread; Kneel down by her pallet and kiss the death frost From the lips of the angel your poverty lost;

Then turn in your agony upward to God, And bless, while it smites you, the chastening rod; And you'll find at the end of your life's little span, There's a welcome above for the moneyless man.

—H. T. Stanton.

## IN THE PRIVY COUNCIL

Arguments on Question Whether Sir Edgar Speyer and Sir Ernest Cassel Can Retain Membership

LONDON, Nov. 16, 11.35 a. m.—The lord chief justice, Baron Reading and Justices Sir Horace Avory and Sir Charles Lush heard arguments today on the question whether Sir Edgar Speyer and Sir Ernest Cassel can remain members of the privy council.

The question was raised by the fact that Sir Speyer had been found guilty of treason by the German courts and Sir Cassel had been found guilty of treason by the British courts.

Largest Sale of Any Medicine in the World. Sold Everywhere. In boxes, 10c., 25c.

tain membership in the privy council. The case was brought by the anti-German league, which obtained a writ demanding Sir Edgar and Sir Ernest to show cause why they should not relinquish their positions in the council because they are of German birth.

Sir Edgar Speyer in a letter to Premier Asquith last May resigned his privy councilship and requested that his baronetcy be revoked on account of charges of disloyalty made against him in the press. The German origin of Sir Edgar and Sir Ernest, both prominent financiers, has been the subject of much antagonistic comment in England.

## WAS BOUND AND GAGGED

BATH, ME., Nov. 16.—The local police are bending all their efforts to solve the mystery connected with the binding and gagging of Mrs. E. W. Studley, aged 77, who was left helpless in a churchyard directly opposite her home at 8 Willow street, early Sunday evening.

As Mrs. Studley tells the story to the police she was on her way home from a home of Miss Gertrude Greenleaf, 539 Washington street, where she is employed as a domestic. She walked up Washington street and turned into North street. As she approached the Free Baptist church at the corner of North and Willow streets she was alarmed by the approach of a strange man whom she believed to be intoxicated.

To avoid him she started into a path through the churchyard which would bring her out directly in front of her home on Willow street. As she reached the rear of the church she says she was grabbed by a strange man and before she could make an outcry he was joined by another. They quickly took her from her apron which she was carrying under her arm and, tearing it into two strips, tied one about her mouth and the other across her eyes.

Including a long piece of rope similar to a clothesline they tied it about her neck, bound both arms behind her and tied her ankles together. Then they jumped a nearby fence and left her.

KITCHENER AT MUDROS

BRITISH SECRETARY OF WAR ACCOMPANIED BY RESIDENT-GENERAL OF EGYPT

MILAN, Nov. 15, via Paris, Nov. 16.—Earl Kitchener, British secretary of war, who has arrived at Mudros, is accompanied by the resident-general of Egypt, according to a Saloniki despatch to the Corriere Della Sera.

The "resident-general of Egypt" referred to may be Major General Julian H. G. Byng, who has been commander of the British forces in Egypt since 1912. It has been assumed that during his trip to the east Earl Kitchener would visit Egypt and prepare its defenses to resist a possible invasion by troops of Germany and her allies.

WOMAN'S WILL HELD UP

BOSTON, Nov. 16.—The will of Ann Adams, aged 90, who with her mother ran an apple stand for years on Boston common, disposing of an estate of about \$13,000, was disallowed by Judge Grant in the probate court yesterday. Undue influence was alleged to have been exerted by Mrs. Mary J. Corbett of 59 Chestnut street, Charlestown, the principal beneficiary, in whose house she died on May 25. The judge certified the case for a jury trial

# PEACE TALK IN COMMONS

## Trevelyan Urges Negotiation Instead of Fighting—Others Condemn Him—Kitchener Attacked

LONDON, Nov. 16.—Charles P. Trevelyan, Liberal member for Yorks, in a speech in the house of commons yesterday urged the formulation of terms of peace for the purpose of trying to obtain the restoration of Belgium and the settlement of European boundaries on lines of nationality.

"Germany," said Mr. Trevelyan, "to preserve her existence can continue the war six years. Meanwhile what is going to happen to us and the rest of the world? A war of attrition means for us, as well as for Germany, utter and irretrievable ruin."

### England Firm, Says Law

Andrew Bonar Law, minister for the colonies, condemned Mr. Trevelyan's speech as useless and mischievous.

"There is not another member of the house," said Mr. Law, "who believes for a moment that Germany will free Belgium or restore Alsace to France until she is thoroughly beaten, and the British government is as determined now as it was on the first day of the war to continue until the objects sought by it are attained."

### O'Connor Condemns Peace Talk

T. P. O'Connor, one of the Irish nationalist leaders, said that the view should not be permitted to go abroad that Mr. Trevelyan represented any considerable section either of parliament or the country. Until Germany was defeated, he added, it was certain she never would consent to terms of peace satisfactory to the allies.

John Hodges, Laborite member, said that during the last six months he had visited France for the purpose of counteracting the evil effects of such "mischievous pacifist views" as Mr. Trevelyan had expressed.

### Kitchener Called a Blunderer

"As long as Earl Kitchener—the man who accepts no advice—remains at the war office we will not win the war," declared Sir Arthur B. Markham in the debate on the conduct of the war.

Earl Kitchener, Sir Arthur added, was responsible for the "blunders" at Antwerp and the Dardanelles and also for the withholding of information from the public, whom he treated like "derbies."

## LINER CRETIC ARRIVES

### STEAMSHIP FROM NEW YORK AND BOSTON ESCAPES SUBMARINES AND REACHES NAPLES

NAPLES, Nov. 15, via Paris, Nov. 16.—The steamship Cretic, from New York and Boston has arrived here safely. There was intense anxiety among the passengers on board after they learned at Gibraltar of the sinking of the Ancon. The captain took all precautions against possible attack. The vessel was shelled from submarines by a heavy storm which raged while she was crossing the Mediterranean.

### SCHOOL HOUSE SAFEGUARDS

#### State-Wide Committee Acts on the Recommendation Relating to Basements and Rubbish

BOSTON, Nov. 16.—The first recommendation at a meeting yesterday in the state house of the state-wide committee for safeguarding school houses, which was appointed as a result of the Faneuil hall conference Nov. 3, was as follows:

"That all basements be isolated from the first floor by fireproof materials, masonry or wire lath and hard plaster, and by fire doors, self-closing; that the basement be entered preferably only from outside the building; that the entire basement, especially all portions where rubbish or inflammable material may collect, be equipped with automatic sprinklers having adequate water supply, and installed as required by the national board of fire underwriters, and that all inclosed areas capable of containing rubbish be eliminated wholly and no combustible material be stored under stairways.

A committee of three, William H. Sawyer, Franklin H. Wentworth and Chief George L. Johnson of Waltham was appointed to see about an expansion of the committee named in Faneuil hall.

A sub-committee, R. Clifton Sturges, Prof. C. B. Breet and Frank Irving Cooper, was appointed to determine to what extent the proposed building law furnishes safeguards for new or existing school buildings.

The next meeting will be Nov. 23, in room 133, state house.

### CAUSE OF MUCH TROUBLE

Constipation is more frequent in women than in men. It is almost always present in old age.

Many results of constipation are attributed to something else. Constipation causes pimples and eruptions. By pressing on the veins it causes cold ankles and feet and produces varicose veins. It may cause neuralgia. Constipation often makes children delicate and feeble.

The remedy is to stimulate the liver by the use of Pinkettes, the gentle laxative pills that do not gripe or purge but simply assist nature. Taken regularly for a time, they really do correct constipation.

Write the Dr. Williams Medicine Co., Schenectady, N. Y., for a free sample and booklet on the treatment of constipation or get a full-size 25-cent bottle of Pinkettes from your own druggist.

### "WARM-CAR" SERVICE

#### New Haven Road Files Tariff Which Calls For Increased Rates—Reasons For Request

BOSTON, Nov. 16.—A new tariff, providing for a substantial increase in the rates for "warm car" service between local stations, has been filed with the public service commission by the New Haven railroad. The new tariff seeks to increase the rate 10 per cent above regular freight rates, which was in effect last winter, to double the first-class rate in addition to the regular charges.

The railroad officials claim that while the shippers urge the maintenance of this "warm car" service, they take chances on ordinary shipments for short distances and only order the heater-car service when the weather is inclement. Consequently, the heater-car service has been a losing proposition, the railroad claims.

## TO REMOVE GROWTHS ACCUSED OF FORGERY

### VETERINARIANS REPORT LIQUID AIR VERY SUCCESSFUL—TAKES PLACE OF SURGEON'S KNIFE

BOSTON, Nov. 16.—Liquid air in place of anesthetics and the surgeon's knife in the removal of foreign growths from animals is being used with marked success at the Angell Memorial hospital of the Massachusetts S.P.C.A., on Longwood avenue. This is believed to be the first instance of its use in this way in veterinary surgery.

Within the past few days Drs. Frank J. Flanagan and Hugh P. Duxley, veterinary staff surgeons of the hospital, have used liquid air to remove a cancer from the throat of a dog, a skin cancer from a dog's hip and in curing a horse's infected leg. Several other operations have been performed with great success.

It has been found particularly efficient in the removal of all superficial growths, ulcers and warts from animals.

With the use of liquid air, the temperature which is 312 degrees below zero, no anesthetic or knife is necessary. The liquid air is applied to the affected part, the freezing process destroying the tissues, with the result that the affection is readily and painlessly removed.

## CHURCHES DEMOLISHED

### FOR NEARLY A MONTH GORIZIA HAS BEEN UNDER BOMBARDMENT BY ITALIANS

VIENNA, Nov. 15, via London, Nov. 16.—For nearly a month Gorizia has been under bombardment by Italian artillery. The attack began Oct. 13 and continued with varying intensity. An official telegram from the front describing it says:

"On several days more than 100 projectiles of all calibres, but especially heavy shells, fell on the town. The bombardment usually begins early in the morning, reaching its climax between 3 and 4 in the afternoon and relaxing towards evening. The convent of Monte Santo has been burned and its church destroyed. The vestry of the Gorizia cathedral has been demolished and the church of San Antonio has been damaged by aerial bombs. Both railway stations have been pierced by artillery projectiles. Churches in the suburbs of Podgora, Grafeberg, Padma, Santa Andrea and Oslavija have been destroyed. The southern portion of Gorizia has suffered more heavily than other parts of the town. The city frequently is bombarded by airplanes."

### FREIGHT HANDLERS OUT

#### No Settlement for New Haven Men—Boston & Albany and Boston & Maine Men Returned to Work

BOSTON, Nov. 16.—After a conference between representatives of the New Haven freight handlers union and Gen. Supt. C. N. Woodward of that road, which lasted more than four hours yesterday, it was said no settlement had been effected which would result in the strikers returning to work.

The officials of the road made no formal statement and the union leaders declined to talk. However, it was learned that the only proposition offered the committee was: "Our former employees will be given the preference when any vacancies are to be filled in the working force."

The union committee of the Boston & Albany and Boston & Maine started to send their men back to the freight sheds yesterday, but how many of the strikers were employed could not be learned.

### BULGARS OCCUPY TETOV

PARIS, Nov. 16.—The Bulgarians again have occupied Tetovo, which already has changed hands several times, according to a report current at Saloniki, says the correspondent of the Petit Journal, who adds that no great significance is attached to the possession of this town since the forces engaged on either side are small.

## TO REMOVE GROWTHS ACCUSED OF FORGERY

### PORTLAND, ME., MAN TAKEN IN PITTSFIELD—OFFERED A BAD NOTE FOR AUTO, IT IS SAID

PITTSFIELD, Nov. 16.—George L. Trot of Portland, Me., was arrested here yesterday afternoon, charged with forgery of a note for \$1000, by which it is claimed, he endeavored to buy an automobile of A. A. Mills.

Trot came to Pittsfield Saturday and bought a motion-picture theatre, paying down a small amount and giving a mortgage for the balance to Leo Zander.

In payment for an automobile yesterday morning, it is claimed, he tendered a note bearing Zander's signature, which Zander says is a forgery. Trot formerly lived in Chelsea. He had been employed at a theatre in Portland.

Mrs. Trot says that they have been married nine years and that this is the first time Trot has been in like trouble.

## CHURCHES DEMOLISHED

### FOR NEARLY A MONTH GORIZIA HAS BEEN UNDER BOMBARDMENT BY ITALIANS

VIENNA, Nov. 15, via London, Nov. 16.—For nearly a month Gorizia has been under bombardment by Italian artillery. The attack began Oct. 13 and continued with varying intensity. An official telegram from the front describing it says:

"On several days more than 100 projectiles of all calibres, but especially heavy shells, fell on the town. The bombardment usually begins early in the morning, reaching its climax between 3 and 4 in the afternoon and relaxing towards evening. The convent of Monte Santo has been burned and its church destroyed. The vestry of the Gorizia cathedral has been demolished and the church of San Antonio has been damaged by aerial bombs. Both railway stations have been pierced by artillery projectiles. Churches in the suburbs of Podgora, Grafeberg, Padma, Santa Andrea and Oslavija have been destroyed. The southern portion of Gorizia has suffered more heavily than other parts of the town. The city frequently is bombarded by airplanes."

### FREIGHT HANDLERS OUT

#### No Settlement for New Haven Men—Boston & Albany and Boston & Maine Men Returned to Work

BOSTON, Nov. 16.—After a conference between representatives of the New Haven freight handlers union and Gen. Supt. C. N. Woodward of that road, which lasted more than four hours yesterday, it was said no settlement had been effected which would result in the strikers returning to work.

The officials of the road made no formal statement and the union leaders declined to talk. However, it was learned that the only proposition offered the committee was: "Our former employees will be given the preference when any vacancies are to be filled in the working force."

The union committee of the Boston & Albany and Boston & Maine started to send their men back to the freight sheds yesterday, but how many of the strikers were employed could not be learned.

### BULGARS OCCUPY TETOV

PARIS, Nov. 16.—The Bulgarians again have occupied Tetovo, which already has changed hands several times, according to a report current at Saloniki, says the correspondent of the Petit Journal, who adds that no great significance is attached to the possession of this town since the forces engaged on either side are small.

### DINNER RUSH KILLS FOUR

#### Drowned From Scow When Dozen Bridge Laborers Jump as Noon Whistle Blows

TROY, N. Y., Nov. 16.—Four foreigners employed on a bridge being built on the Hudson across here were drowned yesterday afternoon from a scow from which a dozen laborers jumped when the dinner whistle sounded.

### LEAVES \$2,000,000 ESTATE

#### Mrs. Margaret E. Armour Wills \$65,000 to Educational, Charitable and Religious Societies

KANSAS CITY, Mo., Nov. 16.—The will of Mrs. Margaret E. Armour, widow of S. B. Armour, the packer, who died here Nov. 11, was filed for probate yesterday. The estate is valued at about \$2,000,000.

Of this amount \$65,000 was bequeathed to various educational, charitable and religious institutions.

### CHICAGO HAS NO IDLE ARMY

#### Work for Everybody, With State Seeking 1500 More Men and Railroads Short-Handed

CHICAGO, Nov. 16.—There is no "Army of the Unemployed" in Chicago this year.

The first blast of winter, which sent the mercury down to 23 degrees Sunday night, was the test. For years this has been the signal for an army of vagrants to appear.

The cheap lodging houses were crowded Sunday night, but yesterday there were few of the lodgers about, and it was said that they were working.

"It is different from last year," said Wm. B. Taylor, manager of the Rufus Dawes hotel. "There is work for everybody, it seems. The men who drift in here are making time between jobs, mostly. They don't stay. Last year we had them all winter. The state has 1500 jobs open and the railroads want men."

# NASHUA STRIKE

## Man Arrested on the Charge of Shouldering Militiamen

NASHUA, N. H., Nov. 16.—The first arrests this month in connection with the textile strike here were made early this evening. John Bagdanowich was taken at the upper end of Factory street, just before shutting down time in the mills by Inspector Dean and Patrolman P. A. Brown and Mulvanity, and was booked on two counts alleging assault.

It is charged that he shouldered two militiamen who were returning to the mill.

Peter Kindzma, who was near Bagdanowich was arrested on a drunkenness charge.

At a meeting of the striking textile operatives yesterday forenoon Organizer Thomas F. McMahon read a telegram from San Francisco, where the American Federation of Labor is in session. It is signed by John Golden, international president, and read as follows:

"American Federation and United Textile Workers will stand by the striking textile workers of Nashua to the finish or until employers arbitrate. Hope strikers will stand united."

Organizer McMahon said that with the number of workers who left Nashua for jobs in other cities, practically all of the Greek employees in the closed mills have gone. Many French operatives and a large proportion of the Lithuanians have also left the city.

## MURDER OF HUSBAND

### JURY CHOSEN TO TRY MRS. BURNS, WHO IS ACCUSED OF KILLING HUSBAND BY POISON

PORTSMOUTH, N. H., Nov. 16.—The trial of Mrs. Mary A. Burns of Nottingham, charged with the murder of her husband, Frank A. Burns, at Nottingham on Dec. 22, 1914, by poison, was opened in the superior court yesterday before Chief Justice Robert G. Pike of Dover.

Mrs. Burns, accompanied by Mrs. Shaw, wife of Deputy Sheriff Shaw, came into the courtroom just prior to the opening of the court and took a seat beside her mother, Mrs. George H. Davis. Nearby were two sisters, Mrs. Fred Gove and Mrs. John Currier, who are said to be important witnesses for the defense. Some distance away was another sister, Mrs. Louise Demeritte, who will testify in behalf of the state.

Mrs. Burns chatted freely with her mother and other relatives near her. She appeared calm and collected and watched attentively the talesmen as they were drawn and questioned by the state and Col. James P. Tuttle for the defense.

The only interruption during the morning session was when the young child of her sister, Mrs. John Currier, disturbed the serenity of the court, and mother and baby were sent to an anteroom.

It was not until late in the afternoon and after 40 talesmen had been drawn and examined that the following jury was empaneled: Benjamin Stackhouse, engineer, Derry, foreman; Alfred L. Marston, farmer, North Hampton; George L. Lawrence, farmer, East Kingston; Alfred J. Mooney, hatter, worker, Portsmouth; George C. Brown, carpenter, Exeter; Hiram O. Durgin, shoemaker and farmer, Newton; Fred L. Webster, assistant postmaster, Windham; Warren M. Hatch, baker, Derry; Edward R. Weeks, farmer; Joseph L. Allen, J. Wilson, farmer, Salem; Luther H. Roberts, farmer, Chester; Chester A. Kimball, shoe cutter, Danville.

This morning the jury was taken in automobiles to Nottingham to view the scene of the alleged murder. Owing to the fact that Mrs. Burns is the first woman to be tried on a murder charge in this city for nearly 25 years, there is great interest manifested in the case, and the courtroom at both sessions yesterday was thronged with spectators.

### EXPRESS BUNDLES STOLEN

#### Chief of Police Murphy of Athol Thinks Car Was Entered on Way From Boston

ATHOL, Nov. 16.—It was discovered yesterday that a number of articles had been stolen from a car in which Sarnon express packages had been sent from Boston.

Goods consigned to C. E. Sault, Miss Lucy Keefe and others were missing.

Chief Murphy believes the car was entered on the way from Boston. It left Boston Saturday evening, arriving in Athol Sunday morning.

### UNIVERSALIST CONFERENCE

#### Of Merrimack Valley Churches To Be Held In Grace Church Tomorrow—The Program

Following is the program for the Merrimack Valley Universalist conference to be held in Grace church tomorrow.

10:00 Half hour for sociability.  
10:30 Devotional exercises led by Rev. A. F. Welch, Amesbury.  
11:00 Sermon, "Why?" Rev. S. G. Dunham, Fitchburg.  
12:30 Lunch.  
1:30 Business.  
2:00 Address: "A Radical Peace Program." Rev. C. H. Dole, D.D., Jamaica Plain. Discussion.  
3:00 Address: "The Glory of Work." Rev. W. H. Morrison, D.D., Nashua. Discussion.  
Mr. Welch and Dr. Morrison are well known in the conference.

### A Woman Going to California

#### Alone or With Children

Every woman, I don't care how competent and independent she is, feels a little more at ease when traveling alone or with children. If she can rely on a responsible official, paid to look after her comfort and convenience.

That's a special feature of our "Personally Conducted" Parties to California.

Join one. It's the best way to travel, especially for women. It's comfort, interest, safety and very moderate cost are to be taken into account.

The cost of it all is surprisingly low. If you will write, or drop in at the office, and see me, I will be glad to explain every detail of the famous "Personally Conducted" Parties.

Alex S. Barker, New England Passenger Agent, C. & N. E. R., 241 Washington St., Boston.

## ROBBERY OF \$273,000 TO MANUFACTURE SHELLS

### MAN WANTED IN CANADA ON CHARGE MADE DESPERATE ATTEMPT TO ESCAPE

CHICAGO, Nov. 16.—George Wakefield, wanted in Canada for alleged complicity in the \$273,000 robbery of the Bank of Montreal several years ago, and arrested here recently on another charge, made a desperate attempt to escape yesterday.

Wakefield and others were charged with a fake prize fight fraud. State Atty. Lloyd had this charge quashed yesterday in order to turn Wakefield over to the federal authorities on extradition proceedings.

Wakefield, free for the moment, left the criminal court building, but at the exit was met by United States Deputy Marshal Thomas Sheehan with the federal warrant. Wakefield struck Sheehan in the face and ran.

Sheehan overtook him and a lively fight was in progress when the marshal was reinforced.

Wakefield was arrested and taken before United States Commissioner Mason, who set the extradition hearing for next Friday.

## PLAY SUPPRESSED

### Skit on Recruiting Announced For Production in Dublin Theatre Banned By Censor

LONDON, Nov. 16.—The censor has suppressed the new Bernard Shaw play, "O'Flaherty, V. C.," announced for production at the Abbey theatre in Dublin. The play is a skit on recruiting.

### SOCIAL AND FRATERNAL

A grist of routine and important business was transacted at the monthly meeting of the officers of Industry council, Royal Arcanum, held last evening in Odd Fellows temple. Regent Harvey J. Chase presided. It was voted to call the regular meeting of the council on Wednesday evening at 7:30. The members will then attend the industrial show at the Casino. Remarks were made by Thomas H. Wilson and George H. Desroches.

### Wamesit Staff Association

The regular meeting of Wamesit staff association, I.O.O.F. M.U., was held last evening in Odd Fellows hall. After the roll call and initiatory staffs had presented: Piano solo, A. W. Henderson; songs, P. G. Thomas M. Smith, P. G. James McCardle and Brother James Taylor of Integrity lodge, P. G. Willis Bowles, P. G. John Eacrett, P. G. William Atkinson and P. G. William Dawson of Integrity lodge; readings, Thos. Smith of Integrity lodge and Brother Major of Wamesit lodge. Brother Arthur Willis was in charge of the entertainment.

## WANTS TO MEET WILLARD

**JACK DILLON, WEIGHING 170 LBS., INSISTS THAT HE CAN DEFEAT THE CHAMPION**

Jack Dillon looms very conspicuously along the pugilistic horizon just now. He doesn't seem to be able to get the success he is capable of, but he is surely big enough to take on any champion. He has been pestered with challenges for some time. Dillon, however, yearns to swap punches with the champion. He is confident that he can beat him. "Six months ago when I announced that I'd fight any heavy weight in the country, some folks laughed at me," said Dillon. "I said I could beat the best of them—and the louder was the laugh. For the next six months I tried to prove my claim by getting a fight with some of those heavies."

"Well, at last I got a chance against Churley Weinst. He was touted as one of the best heavies in the game. He was a bigger man than me, he outweighed me—but I beat him. I could beat any paperman who saw the fight. I beat him in a most decisive manner. I weighed only 170 pounds—but that's no handicap. I'm after Willard. He's my goal. No man has ever knocked me off my feet and I don't think that Willard can turn the trick. If he can't, I'll outpoint him in every round."

Protesters just now are trying to arrange a fight between Dillon-Frank Moran. Dillon is eager to take a crack at the conqueror of Jim Coffey, and he isn't quibbling over terms. He'll fight for anything he can get. But with Moran it is different. He's very coy. He wants a large guarantee waved at him, and his demands just now are a bit too large for the ordinary promoter. But Moran probably will come to earth shortly.

## SPORTING NEWS

Ty Cobb and Jack Barry are reported to have remarked that football is a brutal game. Ty Cobb, who has said that, but there is some question about Barry expressing any such sentiments as he has been known as a close follower of the gridiron game.

The Lynn writers lose a meal ticket now that Irving Porter has jumped to the Feds, quotes a circuit writer. There is no danger. So long as Irving breathes, the Lynn scribes will continue to grind out the copy about Porter's speed and his lean means only more food for thought.—Exchange.

Well Louie Hepler lost out in his first point at the minor league convention. Long Louis went prepared to wage a fight to have Pitcher Pennington transferred to the Fitchburg club, but the player gave up in view of the fact that Pennington was so anxious to have Pennington awarded to Fitchburg but one of many facts which suggest he will grab the Fitchburg franchise and like it away to some Eastern association city if the merger goes through.—Exchange.

The seating capacity of the Harvard stadium has been more than doubled to accommodate the crowd at the Yale-Harvard game Nov. 20. The stadium itself holds 22,000 while wooden stands have been erected in the end of the amphitheatre, on the cinder track adjoining the gridiron and under the colonnade. This will bring the seating capacity up to 47,000. One-half of the seats have been sent to Yale. It has been agreed that members of football teams which have played either Harvard or Yale during the season will be received at the gate as guests.

Wladek Zbyszko was a winner in his wrestling bout with the Great Dano of Hungary in New York last week. He threw his husky opponent in 43 seconds.

Jack Halstein, who played here a few seasons ago and who was seen in a Lynn uniform last year is now a free agent. He had that working agreement with Louie Pieper. Halstein is working in Lynn for the Lynn Gas and Electric company.

Haverhill high made a determined effort to have its game with the local squad played on Friday instead of Saturday as not to conflict with the Andover-Exeter game. The local management would not agree to the change.

John J. McGraw says he will take 40 men south with him in the spring. The Giants will train at Marlton, N. J., who was with Lynn at one time and later with the Brooklyn Colonials will go along as will Chick Farrell of the Portland team this past season.

Young Saylor of Indianapolis who meets Charley White of Chicago in a return match of 12 rounds at the Atlas A.A. tonight, must feel confident that he will earn the decision or better, inasmuch as he has opened negotiations for a match with Freddie Welsh.

Albert J. Weatherhead of Cleveland, Ohio, is the staged 1227 points. Mosely Taylor, the former Andover athlete was fifth in the list with 1101.

Lowell boys seem to make a hit in any branch of sport they take up away from home. Eddie Cawley is a shining example and several local high school students are due to follow his lead when they enter college.

"Beat Lowell Textile," and then on to Lawrence is the slogan of Capt. James "Rooney" Roane and his committee of 10 football warriors.

Lowell Textile, you know beat Lawrence academy team 20 to 7, and Lowell high only humbled the Lawrence eleven by a score of 12 to 7.

The majority of New England league players seem to favor the merger. They claim that higher salaries will be paid them.

Princeton outwitted Yale about 7 pounds to the man on Saturday. Yale's average was 173 while Princeton's was announced as 158.

Tom Shevlin's work in preparing the Bull dog eleven for its crucial game with Harvard will be watched by the whole football world.

The New York Yankees paid nearly \$60,000 for new player this year, exceeding all other major league clubs in this respect. The Yankees purchased 20 men, including 13 pitchers, three catchers, four outfielders and one infielder.

Of the 11 picked men to play for England in the International soccer game on Thanksgiving day, writes Billy Peters in the Lawrence Tribune, "five are members of the Lawrence Olympics; three Methuen players; two from the Lowell Buntings and one from the Lawrence team. Of the team that will represent Scotland, Beverly and

## ON THE LOCAL ALLEYS

**ONLY A FEW LEAGUE GAMES ROLLED LAST NIGHT—COLE GOT HIGH TOTAL OF 205**

Only a few league games were rolled last night on the alleys. The first game of the Crescent league was won by the Geneva quintet which took three points from the Benthams. Jack Cole was high man in the Y.M.C. match. In the Broadway club league the Red Sox and Indians put up a close and exciting game. The former took the second string and total, while the Indians captured the first and third strings. The score:

**GENEVAS**—Reynolds 267, Welch 240, Kernan 238, Lannan 231, Finnegan 212; totals 1296.

**BROADWAY LEAGUE**  
RED SOX—Smith 234, Murphy 230, J. Donovan 237, P. Monahan 234, J. Kelley 237; totals 1262.

**INDIANS**—M. Kelley 227, Rodgers 237, Fitzgerald 237, Marcotte 262, Teague 205; totals 1361.

**Y.M.C. LEAGUE**  
**BROWNS**—King 244, Bobbington 250, Ready 240, Spillane 244, Curry 225, Clark 237, Allen 274; totals 1761.

**COLUMBIANS**—McInerney 224, Wilkes 236, O'Shea 232, Cole 205, Kane 243, Curtin 255, T. Doyle 272; totals 1813.

**SHOE WORKERS WON**  
The Shoe Workers won from the National last night in a good game. The score:

**SHOE WORKERS**—Flint 264, Sabar 255, Hagerman 262, Gernahn 250, Labery 273; totals 1304.

**NATIONALS**—Blanchette 222, Drouin 260, A. Charrette 259, Lamontagne 244, Fortier 287; totals 1262.

**BASKETBALL LEAGUE MEETS**  
Protest Over Marlboro-Framingham Game Not Allowed—Schedule for Two Weeks Adopted

**NORTHBORO, Nov. 16.**—The Central Massachusetts Basketball league met at the Marlboro Inn last night, with representatives present from Framingham, Marlboro, Holliston, Milford, Needham Heights, and Northboro, Lowell and Maynard.

Manager Chilton of Marlboro protested the game played last Wednesday between Marlboro and Framingham, which the latter won, on the grounds that the Framingham referee officiated in the absence of the official referee. The protest was not allowed.

A schedule for the next two weeks was adopted as follows: Nov. 16, Framingham at Lowell; 17, Worcester K. of C. at Holliston; 18, Holliston at Northboro; 19, Milford at Marlboro; 20, Northboro at Milford; 21, Worcester K. of C. at Framingham; 22, Framingham at Northboro; 23, Marlboro at Northboro; 24, Milford at Milford; 25, Milford at Marlboro.

**LATEST ALLEY NOTES**  
Frank O'Brien of Carr's team is making great inroads on the white sticks at the present time.

Bobby Whalen, the former Y.M.C. star is ranked as one of the leading bowlers in the City league. His average is 101.1.

Chet Martel is the real leader in the City league race although Curry, Houston and Sweeney have better averages. Martel has bowled twice as many games as either of the three above mentioned.

In five games the members of the White Ways have bowled down 7762 ducks. Bert Cole is captain of the team and Kempton, the husky ex-fireman is the anchor man.

It is reported heretofore that Steve Shelve is out after Con Concanen's place on the Crescent aggregation. Concanen's average at present is over 100 and Steve will have to step lively to oust him.

The arduous duties of league secretary have been impaired the eyesight of Walter Jewett, the captain of the Crescent team. Secretary Jewett's name is not on the individual average list published recently.

James "Goody" Winn, captain of Carr's team has fallen away off in his rolling this season. Captain Winn has been trying out a new curve and he has not yet gained control of it.

The Kimball System team which started in the league race by losing four games in a row is now making them all get out and hustle.

Tom Kelly, the husky anchor man of the Crescents has regained his old-time form. His average of 101.13 is up to the league standard.

Kempton and Concanen will roll a match game next time the Crescents and White Ways meet for a prize. The bowlers will roll three strings and the man getting the best total will be awarded the prize.

The Y.M.C. league has got away to a good start and several high marks have been attained by the members of the various teams. President Tom Clark says the league is the best ever.

**HARVARD - YALE GAME**  
CRIMSON PLAYERS COMING TO TYN'S ISLAND THURSDAY TO REST AND PLAY GOLF

**CAMBRIDGE, Nov. 16.**—The last days of practice for the Harvard football squad before the game with Yale Saturday find the players and the undergraduate body enthusiastic but exhausted. A feeling of over-confidence has been maintained since the blue disposed of Princeton last Saturday.

It was regarded today as practically certain that the line-up would be the same as was used in the Princeton game. All the men are in excellent shape. Several former Crimson stars have arrived to assist in the final polishing of the team and for three days more they will be put through hard work. Thursday night the team will go to Tyn's Island, in the Merrimack river near Lowell to rest and play golf until Saturday morning.

Tickets for the game, numbering about 45,000 were distributed yesterday and today. According to Fred W. Moore, graduate manager, more than 100,000 would have been needed to satisfy all who expressed a wish to see the contest.

**SHEVLIN PLANS NEW PLAYS**  
**NEW HAVEN, Conn., Nov. 16.**—Coach Tom Shevlin and his corps of assistants began today further development of the Yale football team for the game with Harvard at Cambridge on Saturday. Special attention was to be given to improving the attack and the defensive work of the ends. The Blues' offensive against Princeton is considered to have been only elementary, and it is understood that Shevlin has some new plays, involving the forward pass, which are to be used against the Crimson.

Little scrimmaging was looked for during the remaining days of practice.

**MINOR LEAGUE RACE**  
The second week of Carr's Minor league closed with the Marlboro and Columbus tied for first place, with seven points won and one lost. The next five teams are well bunched while the Shot Shells have a good hold on the cellar position. J. Murphy leads the individual rollers with a mark of 93.2, and Mike Wrenn is in second place with an average of 93.2. Ten men are over 90.

**MERRIMACK LEAGUE STANDING**  
The Print Room and the Fustian department teams are tied for first place in the Merrimack Bowling league. Bob Fullerton leads the list of individual bowlers. Following are the league standing and averages:

Print Room ..... 11 7 528  
Fustian Dept. .... 11 7 521  
Cotton Dept. .... 10 8 520  
Packing Room ..... 9 9 536  
Repair Shop ..... 9 9 505  
White Room ..... 4 14 309

Individual averages:  
Fullerton 100, McNeil 93.13, Sweeney 93.10, Poye 97.8, Pantan 97, Downey 96.7, Fortier 95.15, Dalton 95.6, Schomberg 95.5, Hubin 93.4, Lyness 93.4, Mc Ardle 92.15, Hennessey 91.4, Bradbury 91.4, Wallace 91.3, Armstrong 90.7, Howarth 90.6, Maguire 90.5, Monahan 90.1.

**PHINNEY BOYLE WON**

**DEFEATED YOUNG BRITT IN FIFTEEN ROUNDS AT NEW BEDFORD**

Phinney Boyle again demonstrated to the satisfaction of the boxing fans of New Bedford, that he is the master of Young Britt, by decisively defeating the Whaling City boy in a fifteen round bout last evening.

Boyle's cleverness proved too big an obstacle for the rugged Britt to hurdle and as a result, he was forced to run a poor second. Phinney jabbed and hooked Britt at will and several times had Britt on the verge of a knockout by his rapid fire hitting.

The local boxer used his hands in fine style and after the bout he did not

## HELP WANTED

JOY wanted to work. Apply M. J. Callahan, Horseshoe, Market st.

**KITCHEN GIRL** wanted at once. Apply 6 Dutton st.

**MEN**—Have a business of your own. In your own home, make big profits over and over again. Get out of the "Invest 10 in a postal card and we will do the rest." Address: Essex Distributing Co., Dept. M, Lawrence, Mass.

**OPERATIONS** wanted for Acme automatic screw machines; good wages; steady employment. Apply Helme Electric Co.

**RELIABLE** steady man wanted who has had experience in measuring box ends to a man who is reliable and steady I can give regular employment. Apply A. Flint, Tyngsboro, Mass.

**FIVE OR SIX GIRLS** wanted at once. Apply 265 Walker st., Pure Food Package Co.

**LABORERS** wanted at once to work on state highway. Apply J. J. Mass, Apply Antonio Pallotto, 117 Crosby st., Lowell, Mass.

**EXPERIENCED** helper wanted on wagon repair work and two coal and steam fitters. Apply Quinn Coal & Wood Co.

**TURNING CUTTER** and upper leather cutter wanted. Apply Federal Shoe Co., 114 st.

**WORSTED MILL HELP WANTED**  
Spinners, twistlers, jack spoolers and drawing room help wanted. Apply at once, Brookside Worsted Mills, Brookside, Mass.

**MEN WANTED**  
Five men as general helpers in structural steel plant; ages 25 to 40; 16 hours a week; 2 1/2 cents an hour. Chance for advancement for faithful service. Communicate with Mr. H. C. Winslow, New England Structural Co., 2nd st., E. Everett, Mass.

**WANTED**  
Machinists, Scraper Hands, Assemblers, Turbine Machine Operators for Chuck Work, also Moulders. Apply P. O. Box 453, Fitchburg, Mass.

**WANTED**  
A piano wanted to keep for storage in a reliable home. Rev. Samuel D. Perreault, 211 Pleasant st., Braintree, Mass.

**HAND PULLEYS OVER** and miller head operators (male) wanted at once. Apply H. H. Spaulding.

**DISC RECORDS**, late magazines, papers, books and sound books wanted. Merritt's Book store, 277 Middlesex st.

**WE WILL MAIL YOU \$1** for full sets of old false teeth, any condition; send by mail. Eaton Laboratory, Dorchester, Mass.

**LIVE POULTRY WANTED**  
Send card or tel. G. H. Barton, Chelmsford.

**CLAIRVOYANT**  
MADAM ADELLA, clairvoyant and card reader. If in doubt, need help or advice, call 42 Branch st.

have a scratch, while Britt was a badly battered fighter from the heavy bombardment from Boyle's guns.

Boyle beat Britt a few weeks ago and Britt's friends were not satisfied, but after last night's exhibition, they will remain quiet, for Phinney left no doubt as to who was the better man.

All roads, Asso., Thurs. eve.

**LATE WAR NEWS**  
Continued

Mudros, on the Aegean sea, by "the resident general of Egypt" (by which is probably meant Major General John P. G. Byng, commander of the British forces in Egypt), the despatch states:

Seek Guarantees From Greece  
Definite guarantees regarding her attitude are sought from Greece by the entente powers because they propose sending large numbers of troops into the Balkans, establishing an entirely new front, according to an Athens despatch forwarded from London early today.

Quiet on Franco-German Front  
Quiet has prevailed along the Franco-German front, according to the daily statement from Paris, which reports that no operations worth recording have occurred.

In the Dardanelles  
Only artillery exchanges and bomb fighting have occurred on the Dardanelles front, the Turkish official communication states.

No Intention to Mediate  
The Netherlands government has no present intention of mediating for peace among the warring nations and has so announced according to a despatch to London from The Hague.

**BULGARIANS HAVE BEEN REINFORCED AND HAVE BEGUN NEW OFFENSIVE**  
LONDON, Nov. 16, 12.22 p. m.—The exact situation in central Macedonia is uncertain. Despatches from the near east are conflicting, and doubt as to the time of events to which they refer injects an additional element of uncertainty. It is clear, however, that the Bulgarians have been reinforced and have begun a new offensive.

The operations in central Macedonia, according to Rome accounts, present a most powerful menace to the armies of Serbia and her allies which are operating from Tetovo through Perlepe to the southern and Serbian frontier. Telegrams received almost simultaneously from Greece announce that Tetovo is in the hands of both the Serbians and the Bulgarians, but the preponderance of evidence points to Bulgarian occupation of this point.

Nonattic Again in Danger  
The Bulgarians are making desperate efforts to force their way through Katchank pass in the direction of Pristina. They are also attempting to advance from Tetovo to Perlepe and Monastir and by forcing Babuna pass, to reach Perlepe from the other side. These operations are said to have placed Monastir again in danger.

It is at present a problem whether the newly arrived French and British forces are large enough to meet this Bulgarian onslaught, which apparently has begun with extraordinary vigor.

What Greece will do to the event the allied troops are forced back over the Greek border is still a matter of speculation. A message from Greece says the government will extend to the Serbians the same privileges accorded to the French and British in case of their encroachment on Greek territory, but in view of the fact that no definite announcement has been made as to what these privileges will be, whether than the original statement of Premier Skoufoudis that the allied troops would be permitted to reach the sea unmolested, the intentions of Greece remain obscure.

On the Galician front the Russians, while admitting they have yielded some ground in the neighborhood of the Styrr fort, do not concede they have been forced back across the river as is claimed in the German official communication of yesterday.

Further details of this fighting will be necessary to determine whether the Russians have lost the town of Czortow and the Russian control of the Kovel-Sarny railway thereby endangered.

**FEATURES OF LAST NIGHT'S WAR NEWS IN BRIEF**  
FRENCH  
Threat of Athens to disarm allies if they seek refuge in Greece alarms entente powers.

French repel Bulgarian attacks and effect junction with the Serbians near Prilep.

Serbs recapture Tetovo from Bulgarians. Montenegrins driven back by Austrians to new positions in Vlasograd region.

## LEGAL NOTICES

**MORTGAGEE'S SALE OF REAL ESTATE.**  
By virtue of the power of sale contained in a certain mortgage deed, made by Michael Harlan of Lowell in the County of Middlesex and Commonwealth of Massachusetts to John Callaghan of Billerica, said County, dated May 8, 1915, and recorded in the Registry of Deeds for the Northern District of said County Book 242, Page 13, as amended, and in pursuance of the said mortgage deed, the premises described in the conditions contained in said mortgage deed and for the purpose of said mortgage deed, to wit: a lot of land, containing nineteen hundred square feet, and thus bounded:

Beginning on Revere street at the northeast corner of said lot, conveyed by John A. Knowles to Michael McKenna by deed dated October 28, 1915, and recorded in the Registry of Deeds for said County, Book 245, Page 41, for breach of the conditions contained in said mortgage deed and for the purpose of said mortgage deed, to wit: a lot of land, containing nineteen hundred square feet, and thus bounded:

Beginning on Revere street at the northeast corner of said lot, conveyed by John A. Knowles to Michael McKenna by deed dated October 28, 1915, and recorded in the Registry of Deeds for said County, Book 245, Page 41, for breach of the conditions contained in said mortgage deed and for the purpose of said mortgage deed, to wit: a lot of land, containing nineteen hundred square feet, and thus bounded:

# \$71,000 VOTED FOR THE DUMMER STREET PLAN

City Council Takes Final Action  
—Purchase of Motor Fire Apparatus Postponed Again

At its regular meeting today the municipal council voted to borrow the sum of \$71,000 for the extension of Dummer street and the seizure of land in connection therewith. The matter of the purchase of three pieces of motorized fire apparatus was put over to Thursday morning at which time the purchasing agent will submit a contract. The apparatus will be purchased from the Robinson Co. at a price not exceeding \$18,000, the company to furnish a bond for \$5000, or 50 per cent. of the purchase price. The petition of the Gulf Reclaiming Co. for a garage license in Tanner street was referred to Commissioner Carmichael and Fire Chief Saunders. The petition of the Lowell Electric Light Co. for a pole location in Union street was referred to the city engineer. (Continued on page eight.)

## WORKS ON HIS MESSAGE

PRES. WILSON EXPECTS TO HAVE IT FINISHED BEFORE THANKSGIVING DAY

WASHINGTON, Nov. 16.—President Wilson plans to work all this week on his message to congress and expects to have it finished before Thanksgiving day. He discussed some features of it today with the cabinet.

National defense will be the principal subject treated in the message which also is expected to take up recommendations for raising additional revenue.

Conservation measures which failed of passage at the last session of congress and the Philippine bill will be endorsed again.

At today's cabinet meeting each department head submitted his views on what important matters should be urged upon congress at the coming session and there was a general discussion of what the president's message should contain. The president will begin immediately to write the message, doing the work himself on his typewriter.

Because revenue raising legislation must originate in the house, the president will confer with the house leaders before finally deciding on his recommendations as to how the additional revenue needed, for the defense plans should be raised.

The annual reports of cabinet members will not be made public until after the president delivers his message to congress. Mr. Wilson will take into consideration, however, the recommendations of his official advisers.

Attorney General Gregory, after the cabinet meeting, revealed that he is considering recommending amendments to the Sherman anti-trust law, so that the federal government can better proceed in alleged plots to blow up munitions factories and vessels.

He said at present it was difficult to find laws covering the cases already investigated but that the various states had laws which covered most of the alleged plots and the department of justice was anxious to co-operate with state officials.

Secretary Garrison informed the president that he thought it advisable to make public the recommendations of the gathering of the military branch of the government. It was decided that the army general staff's report would be made public but not until Secretary Garrison's report is given out, after the president reads his message to congress.

URBAN UNIVERSITIES  
CINCINNATI, O., Nov. 16.—The second day of the conference of the Association of Urban Universities here included two business sessions and a visit to Cincinnati institutions.

Owing to the non-arrival of several of the speakers in time to take part in the morning session, the program was changed and President Lemuel Herbert Murlin of Boston university, delivered an address on "Results of Co-operation by the Municipality and the University in Education."

INDUSTRIAL EXHIBITION TONIGHT  
Free Samples of HOOD'S Sarsaparilla

The World's Greatest Blood Purifier, at C. I. Hood Co.'s Exhibit  
BOOTH NO. 50  
Samples given out at 7 o'clock, and limited in number.

HALIFOUX'S ON THE SQUARE  
Bluebirds, bobolinks and robins have gone; flowers have gone to sleep; leaves, yellow and red are fluttering down. Lovely Indian summer is here and the crisp air is full of health and strength for us. It is joy to work and walk these days and forecast the happy Christmas time. This store is one of the principal helpers of a growing city to do some of its thinking and make ready for Thanksgiving and Christmas holidays.

# BAY STATE HEARING TO BOOST FARES POSTPONED

Contention of Railroad That Public Service Commission Had No Jurisdiction in Matter of Hearing Petition Overruled

BOSTON, Nov. 16.—The contention of the Bay State Street Railway company that the public service commission had no jurisdiction in the matter of hearing its petition for an increase of fare from 5 cents to 6 cents, was overruled by the commission today. At the same time it was decided to postpone further hearings in order to give counsel for many cities in eastern New England, which have protested against the proposed increase, time to prepare their case. Chairman MacLeod stated that the commission tomorrow would announce the date on which the hearing will again be taken up. When the hearing was resumed Edwin J. Dwyer of Hanover presented a motion that the commission vacate all previous orders filed in the Bay State case. His motion, he said, was based on the allegation that the schedule of fares heretofore filed by the company did not conform to statutory requirements. Chairman MacLeod ruled that whether this point was correct had nothing to do with the question of the commission's jurisdiction, and announced that the motion was overruled. Conrad W. Crocker, of counsel for the Bay State, who had expected to argue in support of his motion that the question be referred to the interstate commerce commission, stated that because of a temporary abrupt affliction he would ask for further time. City Solicitor Wadleigh of Lynn suggested that the case be continued for three months so that counsel for all of the protesting cities be given full opportunity to present evidence and argument against any increase in fare. Chairman MacLeod replied that the commission must make its findings by April 30 next and that time would be needed to go over the evidence. It was agreed, however, that a postponement would be granted, the chairman saying the date for a re-opening of the matter would be announced tomorrow.

## NEW HAVEN TRIAL

NEW YORK, Nov. 16.—The prosecution in the trial of the eleven New York, New Haven & Hartford directors under the Sherman law resumed today the task of presenting its evidence of the acquisition of the 65 trolley lines that went into the New Haven system. The government attorney had about twelve accounts for when the session began and the prospects were that the list would not be finished today.

The first half of the hour was taken up with another discussion as to whether evidence as to intra-state trolley lines was admissible but Judge Hunt permitted the government to continue its case while he took the question under further consideration.

The testimony was chiefly documentary, consisting of minutes of the board of directors authorizing the acquisitions and letters exchanged between President Charles S. Mellen and various persons setting forth the advantages.

Mr. Mellen, as a witness, traced the lines on a map and explained their connections together with the financial transactions associated with their purchase.

The New England Investment and Securities Co., a New Haven creation, was the vehicle for the acquisition of a number of the properties, it was brought out.

The introduction of testimony of the acquisition of the lines which comprised the trolley system of Worcester, Mass., again precipitated an argument which continued through the latter part of the morning session and into the afternoon. Judge Hunt finally ruled out the evidence.

"Wherever the government can show," said the court, "that trolley lines within a state were so acquired as to justify an inference that they were acquired for the purpose of controlling interstate commerce, the evidence is admissible. But it does not appear in

this instance that it was proposed to connect the lines in interstate commerce, and I will rule at this time that the evidence should not be proceeded with." The court added that he would make further study of the question.

FIVE SHOT TO DEATH  
NUMBER OF KNIFE AND PISTOL ENCOUNTERS AT HOPEWELL, VA.

HOPEWELL, Va., Nov. 16.—Five men shot to death, three wounded, two dead of injuries received in encounters and a number of knife and pistol encounters, resulting less seriously, was yesterday's record in this powder mill boom town which is frequently compared to the mining camps of the days of '49.

Three of the dead men, negroes, were killed in a crap game, another was a highwayman resisting arrest, and another was shot by an insane man.

TO SAVE HILLSTROM  
A. F. OF L. ASKS CLEMENCY FOR I.W.W. LEADER SENTENCED TO BE SHOT

SAN FRANCISCO, Nov. 16.—Resolutions asking clemency for Joseph Hillstrom, member of the Industrial Workers of the World, sentenced to be shot at Salt Lake City, Utah, next Friday, were passed unanimously today by the American Federation of Labor meeting here. The resolutions declared it was "apparent" Hillstrom did not have a fair trial.

President Gompers is authorized in the resolutions to transmit copies of them to Gov. Spry of Utah, the board of pardons of Utah, the Swedish ambassador to the United States and President Wilson.

MARRIAGE BY PROXY  
Woman in Case Refused to Confirm Vows and She Returns From Java

DENVER, Colo., Nov. 16.—A marriage by proxy contracted last January by Miss Eugenia Campbell of Denver and John Pieter Scholten of Java, has been allowed to remain unconfirmed, according to Miss Campbell because she was not pleased with the tropical setting of her prospective home in the Dutch island. Miss Campbell is back in Denver.

Scholten, an officer in the Dutch army, met Miss Campbell in Cripple Creek in 1912. Afterward he was ordered suddenly to return to his post in Java. A proxy wedding was arranged. The bride's part of the wedding was performed in Denver by the Rev. David H. Poise with a newspaperman acting as the proxy bridegroom. Scholten participated in a similar ceremony in Batavia. Shortly afterward the bride sailed for Java. According to Miss Campbell when she found she did not like Java she refused to confirm the vows, a form required by the Dutch government to make them binding.

VIEW SCENE OF ALLEGED MURDER  
PORTSMOUTH, N. H., Nov. 16.—Before the presentation of evidence by the prosecution in the trial of Mrs. Mary A. Burns, charged with the murder of her husband, Frank A. Burns, at Nottingham, on Dec. 12, 1914, was begun today, the jury was taken to the scene of the alleged crime.

Attorneys for the prosecution and the defense went to Nottingham with the jurors and several deputy sheriffs and pointed out the various rooms in the Burns house which may be referred to during the trial.

The jury returned here in time for luncheon.

BODY FOUND IN FIELD  
BOSTON, Nov. 16.—Arvid D. Jackson, of the Dorchester district, an insurance collector, committed suicide last night by shooting. His body was found in a field today. It was said by his friends that he had been in poor health for some time.

125 LABORERS STRIKE  
CONNELLSVILLE, Pa., Nov. 16.—Because of the refusal of their demand for an increase of 15c a day to \$2 and goggles to protect their eyes, 125 laborers employed by the Pittsburgh & Lake Erie railroad struck today.

FIND BODY ON TRACK  
BOSTON, Nov. 16.—The body of Mary Luciano, about 35 years old, of 7 Laurel street, Everett, was found on the tracks of the Boston & Maine railroad near the West street station, Saugus branch, yesterday afternoon about 5 o'clock.

# FRENCH PUSHED BACK IN SOUTHERN SERBIA

Repel Bulgarian Attempt to Pierce French Center—Asquith Hopes to Avoid Conscription

The French are being pushed back in sections of their line in southern Serbia under attacks by the reinforced Bulgarians, a despatch from Saloniki states.

The French retirement was at two points near Gradisce, only 12 miles north of the Greek border.

French Victory on Cerna River  
On the Cerna river the French succeeded in beating off desperate attempts by the Bulgarian forces to pierce the French center, the troops of King Ferdinand being checked along the whole front in this fighting zone.

New Bulgarian Movement  
The new Bulgarian movement at Babuna Pass threatens Perlepe and Monastir, it is declared, and the diplomatic corps in Serbia is preparing to proceed to Scutari, Albania, instead of to Monastir.

Asquith Hopes to Get Recruits  
Premier Asquith informed the British house of commons today that he still hoped and believed that a resort to coercive measures in recruiting Great Britain's forces would not be necessary.

Kitchener in Near East  
Field Marshal Earl Kitchener, British secretary of state for war, is conferring with British officials in the near east regarding eventuality should an attack by the Teutonic allies on Egypt develop, it is indicated by a despatch from Saloniki received in Milan.

Earl Kitchener was accompanied to Monastir, it is declared, and the diplomatic corps in Serbia is preparing to proceed to Scutari, Albania, instead of to Monastir.

# GRAND EXHIBITION OF LOWELL PRODUCTS

Industrial Exposition at Kasino Opened  
With Large Attendance—Account of the Numerous Exhibits and Special Features—Highly Creditable to City

One needs no road map to guide him from booth to booth for the Kasino aisles are one way streets for the visitors. There is just one way to go and the marshals see to it that every one goes the proper way. So it is not necessary for the visitor to take a plan along with the booths marked by numbers. The Kasino contains more than three score separate exhibits representative of the industries of Lowell. The companies and individuals who entered the Kasino at the big show have spared no expense to make their exhibits attractive. There are goods as fine as can be produced anywhere in the world and the greatest enthusiasm and ingenuity is manifested by the exhibitors. There is big machinery in motion and beside these great machines one finds a display of the smallest type of product and these are descriptive of Lowell's versatility in manufactures. It is interesting, too, as one moves from booth to booth to think that the goods exhibited there are in the markets of the world and that Lowell is known by her products abroad as well as by her exhibition of the same at home. The big show will continue for five days and we cannot refrain from repeating that the opening night was a great success. The surroundings are superlatively attractive and there is a feast for the eye for taste and color. The display of Lowell-made goods is indeed pleasing to the eye. Words cannot do justice to this magnificent show. It is something for Lowell people to feel proud of and the majority of those who attended last night were

GRAND EXHIBITION  
Continued

loath to leave after having made the rounds through the one way streets.

The credit for such triumph in decoration as greets the eye at this mammoth exhibition is due to C. F. Young, the local decorator. Mr. Young also undertook to provide the booths. The booths are made of green burlap. The booth posts are paper tubes of large diameter rising from pedestals to a height from the floor of nine feet. These are capped with flat boards painted white, and on the caps are dark colored baskets of artificial flowers.

To the board of trade, and especially its officers, President Marden and Secretary Murphy, is due the credit of giving the people of Lowell this splendid opportunity of inspecting the varied products of busy factories and workshops.

The Sixth Regiment band gave a fine concert last night from 8 to 10 o'clock. Today and every day including Friday, the Casino doors will open at 9 a. m., and remain open until 10 p. m. Today is blue ticket day. A blue ticket is not good on any day but today.

## THE EXHIBITS

Following is a brief description of the exhibits:

**John Scholes & Co.**

A very important exhibit is that of John Scholes & Co., reed manufacturers. This company occupies booths 1 and 2, where it has installed a reed making machine, showing the public how the reed beds are made. The long machine takes the wire which is on a long reel, and divides it into the proper lengths, sets them in the parallel arms of the reed and fastens each piece in exact position. The wire is then tied and gummed in order to make it solid. The machine is kept constantly in operation and attracts considerable attention.

**Higelow-Hartford Carpet Co.**

The second stopping place for the entrance to the show building is at the exhibit of the Higelow-Hartford Carpet Co., which occupies booths 3 and 4. This consists of variety of rugs and tapestry, including Saxony, Soumac, Isphahan, Ardell, Blackland, Bangor and Axminster. A feature of this exhibit is the exact reproduction of the royal carpet in the national palace of China, this being a rug of velvet black and gold. Another attractive rug is that known as the Isphahan, reproducing the French Gobelin tapestry as seen originally in the London museum. The exhibit is very creditable to the company.

**Lowell Paper Tube Corp.**

The display at booth 5 is not what many believe at first sight, "firecrackers," but it consists of a large display of small, medium and large paper tubes. These tubes, which are made in Lowell, are in great demand for their variety of colors make this corner of the exhibit the most attractive of the lot. It may be well to note that the big booth posts throughout the show building are products of this company. The company boasts of being the 2d largest of its kind in the country.

**Stover & Bean Co.**

In this booth are shown all the products of a shoe shop using the Good-year welt system of manufacture. The Stover & Bean Co. factory makes 100,000 year well shoes and their chief lines are the Marsh and Franklin and the surgical shoe. The exhibit also shows the finished product in fine grade shoe and the finished product is sent all over the country. The company has an excellent reputation.

**Butterfield Printing Co.**

The Butterfield Printing Co., occupying a part of booth numbered 7, is featuring in its exhibit the numerous catalogs which it prints for J. E. Conant & Co. Included in this exhibit is also a full line of job printing that is worth inspecting.

**Lowell Shuttle Co.**

The Lowell Shuttle Co. is also occupying a part of this booth with an exhibit of hobbins and shuttles, a feature of which is the only waterproof hobbins manufactured.

**Stanhope Mfg. Co.**

The last portion of this booth is occupied by products of the Stanhope Mfg. Co., which consist of tinseled cord, used for binding up bundles, candy boxes, etc. This display is very attractive.

**John C. Meyer Thread Co.**

In the display shown by the John C. Meyer Thread Co. at booth 8 is a very fine line of threads, including everything in this line from the hair variety to a rope. One who is interested in such a wide range of thread, thread and shoe manufacturer's thread, thread for the clothing and cutting up trades, silkline and bookbinder thread, red, white and blue spools have been arranged so as to form a large American flag and this adds to the brilliancy of the exhibit. It was stated at the exhibit that enough thread is being manufactured each hour at the plant of the company to encircle the world once.

**Barber Mfg. Co.**

Booth No. 9 is divided into three sections. One of which contains the exhibit of the Barber Mfg. Co., consisting of duck tapes and narrow fabrics for textile machinery. The Harris Co. with its loom harnesses occupies another section of the booth, and this exhibit is very interesting, especially to the cotton and worsted manufacturers and those employed in the industry. The manufacturers of the indestructible duck and tape, with a plant in Middle street, the P. P. Co. occupy another part of this booth.

COLD GONE! HEAD  
AND NOSE CLEAR

First Dose of "Pape's Cold Compound" Relieves All Gripe Misery.

Don't stay stuffed-up!  
Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or lungs.  
It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.  
"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

and a feature of its exhibit is the Tanco doll with its flexible wire skeleton.

**Show Stocking Co.**

The name "Showknit," famous all over the country wherever good hosiery is sold, will be made even more prominent as a result of its exhibit which is one of the finest in its line. The Show Stocking Co. shows its finished product in an impressive fashion by frames of hosiery made of rattan. The hosiery is also displayed on stands and in boxes. This company also conducts a large printing plant in connection with its mills and makes boxes as well. The number of employees at the plant is 725 and the hosiery production is about 150,000 pairs a day. The Show Stocking Co. booth, which is handsomely decorated will be conducted during the week by two young women, Misses Carrie Fletcher and Dorothy Wollerton.

**Andrews & McGray**

The "Jumbo Baler," occupies half of booth 11, and their exhibit consists of a waste paper baler, with a demonstrator showing how money can be saved on waste paper. The exhibit is both instructive and interesting.

**No Shake Grate Co.**

The other section of this booth is occupied by what is known as the "no-shake-grate," a local invention which comes from the shop of the "No Shake Grate" Heating Company. A boiler equipped with this grate is also included in the exhibit.

**Lowell Insulated Wire Co.**

The insulation of wire has been a mystery to many, but those who visit booth 12, which is being occupied by the Lowell Insulated Wire Co., are enlightened on this subject, for there is a small machine which does the work, this piece of mechanism being very interesting. It is worthy of close inspection.

**J. E. Carroll & Co.**

Booth 12 is divided into 2 sections, the other being occupied by a fine and varied display of copper articles from the establishment of J. E. Carroll & Co., manufacturers of tanks, coils and other useful articles made from this metal. Numerous articles, large and small are comprised in the exhibit.

**Knowles Scales Works**

Scales and balances in great array, all products of the Knowles Scales Works of this city, are on display in booth 13. In the country are being shown in booth 13, and accordingly those who were not aware of the fact that standard scales which are being sold all over the world are manufactured right here in Lowell are now being enlightened. The display is large and attractive. A feature of the exhibit is standard scales for Russia, China and other distant lands.

**A. G. Pollard Co.**

The A. G. Pollard Co. has an exhibit, not of the variety of goods on sale in its large department store, but of the large department store, in its workshop in Middle street. This is contained in booth 14 and consists of home dresses for the grandmother, mother and daughter and includes patterns of gingham and other washable goods. The display is very attractive. A feature of the exhibit is that it shows but a small part of what is to be seen at the Pollard Co.'s store, however.

**Lowell Electric Light Corp.**

One of the most lighted spots of the exhibition is that occupied by the Lowell Electric Light Corp. at booth 15 and 16. The booths occupied by this corporation are flooded with light, showing what can be done in the home or factory. The exhibit also included various kitchen utensils heated with electricity, while a good demonstration of electrical power is also given. Motors, fans, electrical ranges and other electrical appliances are being shown in an attractive and instructive manner. The exhibit is well worth visiting. Lighting, heating and power are the specialties.

**U. S. Persian Rug Co.**

The United States Persian Rug Co., one of Lowell's most recent industries, has a very attractive display. Many beautiful and attractive rugs are on display, all of which are productions of the oriental rugs. These are Marshall rugs, and include the oriental art combined with American skill. They are very beautiful, forming one of the rarest exhibits of the show.

**M. Marks Co.**

Style and quality in men's tailor made clothing is being shown in a section of booth 18, which is occupied by M. Marks Co. The latest and most durable materials for suits, overcoats and auto coats, etc., are being shown in this section. Suits made to order are also contained in the exhibit, making this section of the booth very attractive for men.

**New England Hunting Co.**

The other half of the booth is occupied by the New England Hunting Co. with a very attractive display of hunting. The old glory is very conspicuous adding a patriotic note to the interesting display.

**Thissell Loom Co.**

The Thissell Co. has one of its looms in operation and the feature attracted considerable attention yesterday afternoon and evening. For the hundreds of Lowell people who have never seen one of the big looms here is a splendid opportunity to see one of the big machines in motion. The Thissell Co. has had abundant success in its work and its most famous product can be found in mills in all parts of the country.

**Lowell Gas Co.**

All who linger for a little while before the booth of the Lowell Gas Co. will find a "right at home" for there was a decidedly homelike touch about the entire display. Great pains have been taken to make the exhibit complete and it is in some ways the most interesting of all. The space is double that of the average booth and every inch is taken up by a complete collection of gas company accessories, large and small. Beautiful and utility are combined as to leave a very well decorated picture in the mind.

The exhibit is largely educational and gives a very good idea of the uses to which gas may be put. There may be seen the crude coal from which gas is made, the various by-products are produced and clearly under glass in the delicate mechanism of the gas meter so arranged as to be readily understood by the observer. To demonstrate the growing uses of gas, there are many beautiful and home accessories including a baker's oven, a gas range, a gas range, a gas heater, a combination gas and water heater and other heaters of various types. The women who visit the exposition will be especially attracted to the display of the gas company which is a real treat to the heart of the housewife. A demonstrator is on hand to explain the working of the heaters, ranges, etc. to all who may be interested.

The Lowell Gas company is one of

## THE WELL DRESSED WOMAN

Requires apparel which, although in style, is by no means common. Original and artistic ideas are absolutely essential to produce this distinctive effect. This may explain why some ladies are dissatisfied with their dressmakers.

## Mrs. S. SOOKKIAN

THE LEADING TAILORESS AND DRESSMAKER

Rooms 218-220 Bradley Building, 147 Central St.

## THE SICKABED LADY

Nurse is a very strong advocate of the salt rub. It is splendid for the patients not too ill and is matches in its effect upon the skin and complexion. With all the virtues it is the simplest and most easily managed of all similar measures, and can be taken at home easily.

Put a few pounds of coarse salt, the coarsest you can get, in an earthen jar, and pour enough water on it to make it like slush, but not enough to dissolve the salt.

This should be taken up in handfuls and rubbed briskly over the entire person. Anyone in ordinary health can do this take a thorough douching all over in clear water, cool or cold, and rub briskly with a coarse towel. The effect of salting, freeness and renewed life, is immediately felt and the satiny texture of the skin; the increased clearness and brightness of the complexion, will surely show you the wonderful properties of the salt rub.

Nurse tells me she has just cured a case of falling hair in a convalescent patient by use of the following tonic: Resorcin one-sixteenth of a drachm, castor oil four drachms, spirits of wine five ounces, balsam of Peru eight grains. This should be shaken and applied to the scalp with the finger nail. She also says that crude oil is fine for the hair, although not pleasant to use. It should be rubbed into the scalp with the finger tips once or twice a week, only a little being used.

How often an ill person is made uncomfortable by odors from other parts of the house getting into the sick room. Sometimes when the room is near the kitchen the smells are unbearable. By pouring a few drops of oil of lavender into a glass of very hot water the air of the room can be cleared almost instantly.

The Nurse says castor oil is a good remedy for soft corns. A piece of cotton wool should be soaked in the oil and applied between the toes. When the corn is removed, the cotton wool should be placed in the foot. The nurse also says that when a foreign body lodges in the eye you should at once forcibly open and shut both eyes several times and it is very apt to disappear. The movements of the muscles will cause the substance to shift to the corner of the eye from whence it can easily be removed.

For sore eyes, a weak solution of alum, about one grain to an ounce of distilled water, may be used as a bath with good results. Or, she says, use

the most progressive in the country. It employs about 300 persons and has a modern plant in every particular. Among the by-products which are produced are coke, tar and liquor, and experiments are constantly going on to better its output. Its conduct is efficient and practical, and the Kaslo display is a faithful representation of some of its aspects.

**Sawyer Carriage Company**

The Sawyer Carriage Co. has a very substantial exhibit and the company's products are very effectively presented. Included in the display are auto springs, shields, wheel work and a general automobile wheeling equipment. A very large automobile wheel for trucks is a feature of the exhibit, which also includes factory equipment, forging tools, etc. The Sawyer Carriage Co. occupies booths 22 and 23, and its exhibit shows the Lowell public that anything in the line of horse-drawn or motor-propelled vehicles can be done right here in this city. The company also makes a specialty of painting carriages and automobiles, and the automobile on display at its booth is a specimen of the Sawyer company's painting.

**Mrs. Farr's Apple Jelly**

Booth numbered 24 is partially occupied by the display of home made apple jelly put up by Mrs. Farr, and the various pure food products on exhibition are very appetizing.

**Hibbard & George**

Another section of this booth is taken up by Hibbard & George, manufacturers of potato chips, who have a show case filled with their products. The third concern to occupy this booth is the Mineral Spring Mfg. Co., manufacturers of a powdered soap for family and laundry use. The remainder of the booth is taken up by M. M. Laine & Co., manufacturers of loom attachments and their exhibit consists of loom straps, bushings and brushes.

**Four Exhibits in One**

Booth 25 is occupied by The Parr Engraving company, The Economy Rug company, The Lowell Carriage company, and the Linden Hill Clayco. The latter has a money display and just for that booth twenty-five is one of the sweetest in the whole show. In the corner of the booth occupied by the Parr Engraving company, one can follow the process of the making of an engraving or a half tone plate from start to finish. The Lowell Carriage company exhibit includes a complete set of all sizes and shapes for rail work. The Economy Rug Co. has a very attractive display of rugs of all kinds and sizes.

**Crawford Art Studio**

Booth 26 is divided into two sections, one of which is occupied by the display of artificial flowers of various colors and styles and baskets for decorative purposes from the establishment of the Crawford Art Studio. This exhibit is very artistic.

**Lowell Pottery Co.**

The other half of this booth consists of an exhibition of furniture polished. A demonstrator is on hand to show the public what this wonderful fluid will do.

**Brad's Bakery**

Brad's Bakery, Lowell's oldest bakery establishment occupies half the booth numbered 27 and has a fine display of soda crackers, Boston crackers and other dainty selections of foods of

shells as used in the small arms of the belligerent nations, and nearby is a display of the cartridges actually used in the Olympic games at Stockholm in 1912, when Lowell shells were used. The United States holds most of the records for target shooting of the world, and these records were won almost wholly by cartridges and shells made in Lowell.

Another interesting exhibit is a shrapnel shell with its component parts, including a fuse which will be manufactured by the Norton Mfg. Co. at the Warrenville plant. The shrapnel display and its setting were arranged by W. W. Comings of the Cartridge company plant, who is in charge, assisted by W. D. Corcoran. The officials of the company will meet the public occasionally during the display and every effort will be made to explain its various features.

**Friend Bros.**

Dainty samples of the products of the Friend Bros. bakery are being distributed at booth 33, and this affords a good opportunity to select items of the quality of this well known company's products. The exhibit is artistically arranged and these in charge are featuring home made cake and plum puddings.

**American Mason Safety Tread**

"Safety First," which, by the way, was originated by the Santa Fe railroad, was never better demonstrated than at the booth of the American Mason Safety Tread Co., where there is on display samples of all kinds of treads to prevent accidents. When floors and stairs turned out by this company are used it is not necessary to "watch your step." Included in the exhibit are types of treads used on stairs, automobile treads and Karloff's floors.

**The Lamson Co.**

One of the most interesting exhibits in the hall is that of the Lamson company, which occupies spaces 35 and 36. Few people realize the scope of the operations of this company, but before the local exhibit closes thousands of people who will be attracted to the booth will have a chance to see the various carrier systems in operation, and also have the intricacies of each explained in detail by efficient employees of the company. Among the inventions of this company displayed are the pneumatic systems operated by foot and electric power, the latter being used in the Sun building between the tenth floor and business office and basement. The one-quarter pick-up carrier which expedites matters; the belt and gravity conveyors used in postoffices and large business establishments; the one-quarter cable cash carrier; hand and electric elevators, air line package carriers, air line cash lifts, coin cashiers, change maker, and numerous others. Samples of special finish of the terminals are also displayed in the front center of the exhibit together with the various sized and receptacles used. This company is able to install a system peculiar to the needs of any company and, owing to the diversity of systems used, its specialists are always working on new ideas. When the new Sun building was erected many time and labor saving devices were installed, among them being the pneumatic tube system for life, plan, drops and air line carriers in the editorial room, all of which were furnished by the Lamson Co.

**Stirling Mills, Belvidere Woollen Mills**

Along the great manufacturers' way at the exposition among the most interesting exhibits are the products of the Stirling Mills and Belvidere Woollen Mills. The goods include a great variety of color and fine weaves. Red and green are very conspicuous in this exhibit and there are also a number of plaids shown. The cloth is of the finest texture and is highly creditable to the manufacturers.

**D. L. Page Co.**

The D. L. Page company, occupying booth 38, has a fine array of candies, bonbons and other products of Lowell's biggest and most modern catering establishment. This exhibit is in a class by itself and demonstrates to the visitors, cleanliness, and purity which is the watchword of the company. The electrical popcorn machine, the first of its kind to reach this city is also in the exhibit, while young women give a demonstration of bonbon dipping that appeals to the taste for candy in an overpowering way.

**Lowell Bleachery**

The Lowell Bleachery has one of the finest exhibits on the floor. The products of this company include all sorts of toweling and cloth which are put through the bleaching process at the Lowell plant. The company has an extensive plant at St. Louis also, but the booth is practically given up to the work of the Lowell mills. The booth itself is a triumph of artistic arrangements and the color scheme is most beautiful.

**Nemec Specialty Co.**

The Nemec Specialty company, manufacturers of baking powders and laundry starch has a variety of its products at booth numbered 40. The goods are piled up in an attractive way and show that Lowell is alive with pure food products.

**Chelmsford Spring Co.**

The display of products from the Chelmsford Spring Co., at booth numbered 41 is enough to make any one thirsty. This consists of a variety of mineral, stock and bottled goods of the mild form, including spring water and ginger ale. The booth gets its color scheme from the product.

## NORMAL SCHOOL HEAD

**John J. Mahoney of Lawrence Chosen Principal by State Board of Education Yesterday**

At a meeting of the state board of education held yesterday afternoon, John J. Mahoney of Lawrence, assistant superintendent of schools in Cambridge, was elected principal of the state normal school in this city, to succeed the late Cyrus A. Durgin. The newly elected superintendent has had valuable experience in school administration and those who know him best believe that the state board has made a good selection. He has made frequent contributions to educational journals. In 1907-1908 he went abroad, under the auspices of the National Civic Federation, for the purpose of studying the schools of England and Scotland.

### WHY "ANURIC"

**Is An Insurance Against Sudden Death! Sufferers from Backache, Rheumatism and Kidney Trouble.**

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience--such as Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery--"Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar, besides being absolutely harmless and is endowed with other properties for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

Dr. Pierce's Pleasant Pellets for the liver and bowels have been favorably known for nearly 50 years.--Adv.

Lawrence high school in 1903-04. He was elected principal of a grammar school in Lawrence in 1904, and in 1906 was elected supervisor of the Lawrence evening schools, retaining these positions until 1912, when he was elected assistant superintendent of schools in Cambridge. There he has immediate charge of the evening schools, and also acts as secretary of the school committee. He has also been an examiner of teachers for the Boston school committee.

Mr. Mahoney is a member of the Phi Beta Kappa, the National Education association, the National Society for the Promotion of Industrial Education, also of the National Council of English Teachers, Harvard Teachers' association, the New England Superintendents' association, and the Massachusetts School Masters' association.

The New York horse show this year will have a woman judge, the first in the history of the association.

### AMUSEMENT NOTES

#### LOWELL OPERA HOUSE

The initial performances of "Fine Feathers" by the Siles-Emerson players at the Lowell Opera House last night thoroughly satisfied large audiences which were thrilled by this excellent selection to be proffered twice daily during the remainder of the week. The play is replete with interesting and exciting situations and these are cleverly interpreted by the Emerson cast. Although last evening's performance was only the second of the week, the various members of the company seemed well acquainted with their respective parts and there was none of the "newness" often prevalent at the initial performances of a stock company.

By special arrangement between the management of the Opera House and the high school faculty, the local football squad and a good representation of "rooters" attended the show last evening and made things merry between the acts. The students also showed their appreciation of the play and contributed freely to the applause of the evening.

That is unable to provide for her as she had hoped, but there came a time when the man found a way to satisfy her desire. He is offered an opportunity to surround himself with wealth by crooked business dealings, to be worked under the hand of another man. At first he refuses on account of his own honesty but the wife persists that he get the money and he finally enters into the business which brings him the wealth his wife so strongly desired. His wrong doings wear on him, he begins to drink and as a last resort goes to the stock market where he is completely wiped out. In the last act when all is gone, he ends it in suicide. The story of the play is intensely interesting and shows that honesty is the best policy.

The principal characters in the performance are Homer Barton and Miss Ann O'Day, the young man and his wife. The former as James Reynolds interprets his role splendidly and Miss O'Day is once more given an opportunity to display her skill as Mrs. James Reynolds. The other members of the cast are also excellent. Included are Joseph Grehan, Frank Wright and Miss Dora Booth. "Fine Feathers" is one of the best plays of the season and must be seen to be appreciated.

#### KEITH'S THEATRE

The excitement of politics failed to detract from the size of the audience that greeted this week's bill at Keith's, and those who went were amply repaid for the program offered consisted of a well balanced and nicely varied assortment of high class acts. "The New Coachman" a laughable comedy conception, is presented by Louis A. Simon and company. Simon is a real comedian, and he has a real comedy in which to show his talent. "The New Coachman" tells the story of a college youth who has been left in a hotel apartment by the boys. This apartment has been let to a young married couple, who have advertised for a coachman, and finding the stranger in their flat assume that he's the new coachman. On the other hand, the girl believes the woman is to be his sweetheart, and hence is justly humiliated by her. Then follows a riot of fun. The climax is reached when the coachman attempts to hang pictures. The entire sketch has been extremely funny situations. Mr. Simon's supporting company ably assists him in his funmaking, and its members are Sylvia Starr, Annette Collins and John Burke. An act that includes a lot of good things, all the nature of surprises, is that furnished by Collins, Steel and Burke, who dance, talk and do stunts on the piano. It's a merry

mixup that they present and quite out of the ordinary. Dave Kindler is a whistler, and his act is as entertaining as it is original. His notes are sweetening anything like his offering. The Six Harvards are not of the "green" and "black" variety, but a first class musical team of four women and two men, who not only perform finely on the instruments, including the ever melodious saxophones, but who are good singers into the bargain. Irwin and Tierzog are not ball players but sinking comedians, and their act is a top-liner of his kind. They are real singers and their comedy is good. The adroit Brothers are well named for they are adroit gymnasts, working along the novelty lines. Their act is attractively set and is gracefully carried out. Miss Bussell's act is a comedy of actors and actresses, and perform in costume. One of them, "Pearl" by name, gives an imitation of Eva Tanguay that is all to the merriment. Again the Hearst-Selig Studios picture shows some up-to-date war pictures, the most interesting subjects now before the public on the films.

#### MERRIMACK SQUARE THEATRE

Mary Pickford delighted hundreds of patrons of the Merrimack Square theatre yesterday in her supreme triumph, the six act Paramount picture, "Madame Butterfly" which is an adaptation of the famous classic by John Luther Long. This is the same play which when shown at the Strand theatre in New York City at higher prices drew crowds that had to be turned away. The many settings of the scenes in this Paramount feature are superb, every care taken to make each perfect. The dramatic work of each member of the cast is deserving of highest praise. As the forsaken little Japanese lady, Cho-Cho-Sun, patiently and confidently waiting through the long months for the return of her American husband, only to have him return with the American wife, Mary Pickford touches depths of emotion in her expression of sorrow, pain and grief that have never before been required of her in the portrayal of the many accidental characters whose daintiness and charm have made her the supreme photo-play favorite of the age. This splendid attraction will be presented today and tomorrow. In addition to this six act masterpiece, the thrilling "Real of the Navy" serial will also be shown today and tomorrow, revealing many startling scenes. The other pleasing numbers on the program at the Merrimack square theatre for the first three days of the week

will also be shown. The amateurs will appear at their best this evening.

#### OWL THEATRE

Vall Vall, the popular and accomplished actress, will be the attraction at the Owl theatre this afternoon and evening in the vivid five-part Metro feature, "The Woman Pays." This famous emotional star is seen at her best in this photoplay. Many other excellent films will also be presented.

#### JEWEL THEATRE

Tonight, a show such as the public is rarely treated to, will be seen at the

Jewel theatre, where "Pro Patria" an astounding five act war play and amateur performance of five Mutual comedies and drama. "Pro Patria" attracted record breaking crowds at yesterday's performances, and with the other attractions which are booked for tonight, the show is decidedly strong. Wednesday and Thursday, the twenty-first episode of the Universal serial, "The Broken Coin" will be featured, besides other all-star features shown. Francis Ford and Grace Cunard will soon say good-bye to their friends in "The Coin," so be sure to see the few remaining episodes.

### Children Cry for Fletcher's

**CASTORIA**

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are not experiments, and endanger the health of children--Experience against Experiment.

### What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assuages the Fever, giving healthy and natural sleep. The Children's Panacea--The Mother's Friend.

## WAR INVENTIONS

Prof. Painleve Explains  
Work of New Ministry  
of Inventions

PARIS, Nov. 16, 4:40 a. m.—The work of the new ministry of inventions was described today by Prof. Paul Painleve, head of the department. The minister explained that hitherto many well equipped laboratories and scientists identified with them had played no part in preparations for national defense. It is his purpose to mobilize them.

The first and greatest difficulty with which the department has to contend, Prof. Painleve explained, is the enormous number of useless inventions. All must be tested and the work must be done rapidly. Those picked out as having possibilities are referred to special sections, such as electricity or aviation, under the direction of two or three young and active experts, who investigate them thoroughly. Such inventions as are deemed practicable are then turned over to specialists, who assist the inventors to perfect them.

Inventions are welcomed, whether from world-famous scientists or workmen. The variety dealt with is immense, varying from a slight improvement in the pilot of a machine gun to the most obscure applications of modern physics.

## KILLED JITNEY DRIVER

HERBERT J. MORRISON SENTENCED  
TO 17 YEARS IN STATE PRISON IN  
RHODE ISLAND

PROVIDENCE, R. I., Nov. 16.—Herbert J. Morrison was sentenced to 17 years in state prison here today under a charge of killing Leslie C. Hopkins, a jitney driver in Pawtucket on June 13. Morrison fired five shots at Hopkins while the latter was seated in the automobile. The state could find no motive for the crime as the defendant was neither intoxicated nor mentally defective, and so far as could be learned was not acquainted with the victim. Morrison was indicted for murder but was allowed to plead not to the lesser crime of manslaughter.

## MATRIMONIAL

Michel Poltras and Miss Georgiana Levesque were married last evening, the ceremony being performed at 7 o'clock at St. Joseph's rectory by Rev. Joseph Denis, O.M.I. The witnesses were Joseph Laporte and Philine Levesque. The bride wore white satin and carried a bouquet of roses. At the close of the ceremony the bride and groom were taken to the home of the bridegroom, 215 Allen street, where a reception was held. After a brief honeymoon trip the couple will make their home at 215 Allen street.

Cardell—Merrier  
Ernest E. Cardell and Miss Mabello Quimby were married yesterday afternoon, the ceremony being performed by Rev. A. C. Ferris, pastor of

Says Woman's Beauty  
Depends Upon Health

Health and Vigor Necessitate  
Regulation of Organs of  
Elimination.

Skin foods and face creams and powders cannot make a woman beautiful, because beauty lies deeper than that—it depends on health. In most cases the basis of health and the cause of sickness can be traced to the action of the bowels.

The headache, the lassitude, the sallow skin, and the lusterless eyes are usually caused by constipation. An ideal remedy for women, and one that is especially suited to their delicate organisms, is found in Dr. Caldwell's Syrup Pepsin, a mild laxative compound pleasant to the taste and free from opiates and narcotic drugs of every description. Mrs. Gertrude Jordan, 522 North Liberty St., Indianapolis, Ind., says: "It is simply fine; I have never been able to find anything to compare with Dr. Caldwell's Syrup Pepsin. I started using it for the baby and now it is my family standby in all cases where a laxative is needed."

Dr. Caldwell's Syrup Pepsin is sold in drug stores for fifty cents a bottle.

The High Street Congregational church. The couple were attended by Miss E. Quimby, sister of the bride, and by Mrs. B. Lee Ward, niece of the bride. The bride wore a broadcloth traveling suit. The couple left on an afternoon train for a three weeks' trip to Florida, where they will be the guests of the bridegroom's mother, Mrs. S. J. Cardell, at Satussum Heights, Fla. They will also visit a sister of the bridegroom, Mrs. G. A. Godfrey, in Florida, and they will spend some time at Palm beach.

## DUPUIS—MURPHY

Arthur H. Dupuis, second hand at the Lawrence Mfg. Co., and Miss Mary Antoinette Picard, a charming young woman of West Centralville, were married this morning at a nuptial mass celebrated at 8 o'clock at St. Louis church by the pastor, Rev. J. B. Labrosse. The bride wore midnight blue with mole trimmings and she carried a bouquet of roses. She was attended by her cousin, Oliver J. David, while the bridegroom's witness was his father, James Dupuis. At the close of the ceremony the bride and groom were taken to the home of the bride, 46 Fisher street, where a wedding dinner was served, followed by a brief reception. Mr. and Mrs. Dupuis, who were the recipients of numerous costly wedding gifts left this afternoon on a honeymoon trip to Springfield and they will be at home to their friends at 46 Fisher street after Nov. 27.

Crowley—Murphy  
James A. Crowley, employed at the B. & M. car shops and Miss Kathryn E. Murphy of Ashmont, were married yesterday morning, the ceremony being performed at a nuptial mass celebrated at 8 o'clock at St. Mark's church, Dorchester by Rev. John A. Daly. Rev. T. J. Murphy of Flint, Mich., acted as his assistant. The bride wore a dark blue traveling suit with hat to match.

MRS. GERTRUDE JORDAN

A trial bottle can be obtained free of charge by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Illinois.

## MURDER OF AMERICAN

DETAILS OF KILLING OF JOSEPH W. TAYS NEAR SAN BLAZ, SINALOA, MEXICO

EL PASO, Tex., Nov. 16.—Details of the murder of Joseph W. Tays, near San Blas, Sinaloa, Mex., are contained in a letter received today by J. W. Tays of this city, from his brother, E. H. Tays, father of the murdered man. According to the letter, dated Sept. 29, Tays got out for Los Mochis, 25 miles away, on Sept. 5, in company with four companions and three Indian teamsters. They were met by 500 Indians of the Villa faction and made prisoners. Despite this protest of American citizenship, they were forced to march naked five miles across the desert to the camp of Bachomo, Indian bandit chief.

Tays and his companions begged for water and their entreaties only brought forth threats of revolvers in their sides. All the while the Indians dangled full canteens before their famished appetites. On arriving at the camp of the Indian leader, the American and his companions were robbed of \$900, after which they were lined up and shot. The Indian teamsters died, and one was killed in trying to make his escape.

The father, accompanied by seven armed Americans, visited the scene of the tragedy next day, but was unable to recover the body of his son. Two days later Bachomo sent word to Tays that he would kill him, too, if he persisted in searching for his son's body.

Tays wrote his brother that he had notified Carranza authorities through the American consul at Mazatlan, but so far the bandits had escaped punishment.

## SINKING OF THE ANCONA

U. S. GOVERNMENT WILL AWAIT  
FACTS FROM AUSTRIAN GOVERNMENT

WASHINGTON, Nov. 16.—The American government will await the report of the Austrian government's statement of facts governing the sinking of the Italian liner Ancona before considering whether any rights of Americans have been violated. These facts probably will be sought through Ambassador Penfield at Vienna.

The state department now has before it the Italian government's communication addressed to neutral nations denouncing the sinking of the Ancona as "an unparalleled atrocity" and officials have also seen the published statement of the Austro-Hungarian admiralty describing the attack.

Two statements differ. Italy's communication charges that "without even a blank shot of warning from the attacking submarine" the Ancona was shelled and that the killing and wounding of passengers continued after the vessel stopped.

The admiralty statement on the other hand declares that the Ancona attempted to escape and only after repeated shelling was brought to a stop. It also claims that the passengers and crew were given 45 minutes to escape in small boats, and denies the charge that the submarine fired on the boats.

Diplomatic exchanges between the American and Austrian governments probably will follow over the entire question of submarine warfare and the obligations of a submarine commander to sea that neutrals are safe before destroying a prize.

## GRAND EXHIBITION

Continued

manufacturers of high grade colognes. Of course men are also attracted at that booth, which is numbered 42 for the aroma in the vicinity of this exhibit is most inviting. Five different colognes are on exhibition and the odors are seductive. Samples are being distributed to the visitors and in this manner the company is receiving great advertisement.

C. I. Hood Co.  
No made-in-Lowell exhibit would be complete without the name of C. I. Hood, whose products for almost half a century have carried the name of Lowell all over the world. The display is very striking, its first impression being that of completeness. On a step-like foundation many of Hood's preparations are arranged in attractive profusion. Hood's Sarsaparilla takes the lead, surrounded by Hood's pills, Dyes-nor-lets, Dandruff pills, and so on. A splendid display of Hood's toilet articles, including tooth powder, hair tonic, lotion, soap, tooth wash, etc., the fullest investigation is invited and the seal of the expert pharmacist is on everything with the Hood label.

Over all is a striking sign in black and orange, declaring that "Hood's Sarsaparilla has made Lowell famous throughout the world." The original pastel painting by Mr. Frank Deane, a popular artist of New York, is also shown, this being the subject of the Hood calendar for 1916. The various processes in the reproduction of this painting are shown in an interesting manner.

## American Woolen Co.

The Bay State mills of Lowell and the Beaver Brook mills of Collinsville combine to make the exhibit known as the American Woolen Co. company and occupy booth 51. The Bay State display is chiefly in the steamers, while that of the Beaver Brook consists of chinchillas, blankets, polo cloth, crash and cap cloth. The booths are artistically arranged, materials from both mills being used as decorations. Some of the finest weaves on exhibition including the army and navy blankets. The exhibit makes one think of winter warmth.

## American Hide &amp; Leather Co.

The finest leather to be found in the country is on exhibition at the booth of the American Hide & Leather Co., right across the aisle from the Lamson Co.'s exhibit. Samples of the leather are to be seen in 32 different varieties, most conspicuous of which are the willow calf, a development of the original box calf and six shades of tan Royal, a product peculiarly the property of the American Hide & Leather Co. The samples are artistically arranged on either side of the booth and the silky finish of the leather would make one think of looking through a store window at a beautiful bolt of silk or satin cloth. In fact the finish is so glossy that one can almost see one's face reflected in the leather. In the background of the booth is a large picture of the tannery in Perry street. The plant is the largest in this country and perhaps in the entire world. The product of the company is known the world over and Americans buying high grade shoes for leather goods, the leather for such shoes has been supplied to a large extent by the plant in Perry street. There are also other exhibits of interest at this booth to Lowell people especially for Lowell has the distinction of originating the "box calf" in the old White tannery to say nothing of numerous other durable leathers. A long stay at this booth is well worth one's time.

## J. C. Ayer Co.

At the booth occupied by the J. C. Ayer company and numbered 53, the visitors are given an opportunity to see how the millions of Americans put out yearly by the company are made up. In the booth is installed a machine handling almanacs at the rate of 150 a minute and it is figured that before the show closes over 40,000 almanacs will have been distributed. The almanacs of the company, which consist of patent medicines of all kinds are contained on glass shelves. The booth is a miniature fairy garden with a greenery display and the walls contain the portraits of the founder of the company, Dr. J. C. Ayer, and his brother, Fred Ayer.

## Appleton Co.

The exhibit of the Appleton Mfg. Co. embraces regular cotton manufactures, all of which are the art of the loom. Space does not permit a description of all the grades of output, for the mills of the Appleton Co. turn out a great variety of goods. There are apple web, ginghams, Appleton seersuckers, Swiss flannels, storm flannels, Byelow flannels, Alcott, Simsbury, Tyrol, Dozy and Dreamland types, all suggesting the greatest comfort of the bed. Wara, Sultans, Twilidown, A.G.W. and A.B.S. bleached goods and other trade-marked products are admirable samples of Appleton manufacture. There are also goods on exhibition absolutely guaranteed against "running." Samples of these goods are displayed which will yield nothing of their dye as long as the cloth lasts, and the quality of the cloth is of extreme durability. Persons visiting the Appleton booth will learn at a glance why the mills of the company have been running steadily for the past 25 years through all periods of industrial depression.

## Boott Mills

One of the distinctive features undertaken at the enterprise is the exhibit of the Boott mills, which is within a few years ago the Boott mills manufactured along ordinary cotton textile lines, but with the beginning of the more prosperous American of the present agent, E. W. Thomas, attention was diverted to the manufacture of duck. Auto tire duck is one of the most important products of the mills. Another feature of Boott production to which the

## FINE FEATHERS

ANN O'DAY, HOMER BARTON and Great Cast Give Play in Which Robert Edison, Tully Marshall, Lolla Robertson, Wilton Luckey and Max Fiskman Score Their Greatest Success. Last Seen in Lowell at \$2.00.

Hamilton Manufacturing Co.  
The Hamilton Manufacturing Co. shows a huge array of cotton textile products at its exhibit which is of unusual proportions and runs high toward the rafters. There is an artistic group of bolts of cloth of various colors, high up on the booth are flannels, both white and colored, bathrobe cloths in fancy weaves being artistically arranged so as to complete the pretty color scheme. There are also bleached pajama pieces, rice cloth, gabardines and pajama checks. The cotton crepes are in white and colors, and seersucker is also notable in the display. Cream colored serges, drills or trousers for the Cuban and Porto Rican, colored chambrays, hickory shirting stripes and other products are exhibited. The result is a very impressive display of the Hamilton output. There are over 1500 operatives at work, under the able guidance of Agent J. Miliken, making goods which are sent to the farthest corners of the world.

## Lawrence Manufacturing Co.

One of the most complete displays of hosiery and underwear ever exhibited at an industrial exposition is shown by the Lawrence Manufacturing Co., at its spacious booth situated in the manufacturing section. The Lawrence Manufacturing Co., with its entire plant located in this city and employing at the present moment 4200 hands, is the largest plant of its kind in the world. When running to capacity the plant employs over 5000 hands. The company produces 1200 types of ladies' hosiery and 1500 styles of men's underwear. Of course, these are not all shown in the exhibition booth, but what is on exhibition is well worth going some distance to see. The exhibit is carefully arranged so as to give the visitors a chance to see everything. The goods are banded high and artistically placed, and the display includes ladies' pure cotton stockings in all colors, men's half hose in various styles, cotton and worsted socks, men's underwear, including union suits, with short or long sleeves, and two-piece suits in all weights and colors. Every bit of the product is guaranteed by the company to be the best in the world. These Lowell-made products are shipped to all parts of the world.

## Massachusetts Mills

The Massachusetts mills, of which William A. Mitchell, is agent, to meet the requirements of an enormous export trade and the huge domestic consumption, is obliged to produce a wide variety of cloth. Notable in the display at the Massachusetts booth are the colorings obtained by the use of the finest dyes. The Massachusetts mills sends its products all over the world and the fabrics that are woven on the banks of the Merrimack and Concord rivers may be found in nearly all the cities of the orient. The display at the exposition includes the fancy and plainer dress goods for women, work shirts, shirtings, overall and jumper goods, chevrons, cambrays, cottons and house goods, and cloth worn by the men and women of Haiti, San Domingo and the Philippines. There is also shown the olive drab uniform cloth of the United States army, the olive drab summer uniform cloth having its inception in the mill here in Lowell. When the mills are running to capacity there employ about 3500 hands. As in nearly all other cotton mill booths, there is a large picture of the extensive mills bounded by Bridge and Merrimack streets.

## Merrimack Manufacturing Co.

The rich colorings and beautiful finish of the goods manufactured at the Merrimack manufacturing company make a grand display. The well stocked booth is full of materials, including fine velvets which are decorated with flower patterns, silk and satin velvets, percales, cambrays, satins and the famous "Merrimack ducking" fabric. There is also a fine display of corsets and silk finished velvets on display. The corsets include the ladies' corduroys and the men's heavy type of corduroy. The Merrimack employs about 3300 hands. The display is singularly beautiful and much time is spent at this booth by the visitors.

## Trenout &amp; Suffolk Mills

The Trenout & Suffolk mills show a fine array of cotton blankets with the new and highly satisfactory wool finish at its booth. It is the corner booth in the mill circuit and is wonderfully laid out with Canton flannels for the Chinese trade. French flannels, chambrays for South America, table cloth, mottled flannels, cotton underwear and the yarn for this product; rope, ginghams, once flannels for gloves and blankets by the score in all sorts of colors and patterns, plaids and plain. In fact, the basis of the exhibit is the blanket display, and it is a highly commendable one. There are bleached shakers and brown shakers, and the whole are placed in tremendous array throughout the booth. The decorating is done with exquisite taste and the goods are made to carry their own beauty with the best possible effect.

## Special Exhibits

Under the head of special exhibits come a variety of ladies' equipment with safety devices, and manufactured by the Morrison Safety Ladder Foot Section Grip Co., a spring manufactured by the National Spring Bed Co., and artificial limbs from the plant of William Andrews. In the exhibit of Mr. Andrews is a splendid likeness of former Mayor Hosford in purest marble. It is a beautiful piece of sculpture.

## Ideal Comb Co.

The display of the Ideal Comb Co., located at the foot of one of the aisles, is very interesting, especially to the ladies, inasmuch as the majority of the articles on display are for the use of ladies, such as bracelets, barrettes, shoe

## PRINT ALL WAR NEWS

GERMAN CENSORS INSTRUCTED TO  
PUBLISH IN FULL ALL ALLIED  
REPORTS

WASHINGTON, Nov. 16.—The German ambassador, Count von Bernstorff, announced today that he had been informed that German censors had been instructed to insist upon the publication in full in Germany of war reports issued by the allies. An announcement at the embassy, quoting the instructions of the German chief of the censor bureau, said:

"Cases have occurred where such news items which are unfavorable to us are eliminated from the reports at the order of the censors. The latter procedure does not correspond with the opinion held by the army headquarters that the unabridged quotation of the enemies' reports is required at all times, exceptions only to be made with papers in case of difficulties in printing demand consideration."

"We have the less reason to fear the unabridged publication of our enemies as our own war reports are strictly according to the truth, giving everybody the opportunity of forming a correct conception of the situation. The fear that the official reports published by the enemy might sometimes cause misunderstanding is counterbalanced by the consideration that facts can never be concealed for any length of time and that lies are always recognized as such in the end."

## DEMOCRATS IN CONGRESS JIBET

WASHINGTON, Nov. 16.—Democratic members of the ways and means committee, it was announced today, will meet here Nov. 29 to take up the organization of the new house of representatives. The committee will have its recommendations, including the chairmanships of principal committees ready when the democratic caucus meets Dec. 4, two days' before the opening of congress. Representative Kitchen of North Carolina already chosen by the caucus for chairman of ways and means committee, plans to come to Washington several days before the meeting.

## DON'T MERELY ASK FOR DUFFY'S—INSIST ON GETTING DUFFY'S

Manufacturers, who have built up successful businesses through the sale of reliable products, are occasionally the victims of envious competitors and dishonest merchants who try to sell the unsuspecting public unknown and very often unreliable products, instead of supplying trade marked and reliable brands asked for.

For YOUR protection and the reputation of the manufacturer we direct your attention to the distinguishing points on every genuine bottle of Duffy's Pure Malt Whiskey. If you are careful to familiarize yourself with them, no merchant, no matter how clever, can deceive you. The genuine

## Duffy's Pure Malt Whiskey

is sold in sealed bottles only—never in bulk—and is wrapped in Duffy's Annual as shown at left of illustration. After you have removed the Annual, look for the "Old Chemist" trademark, the label and seal over cork, also the company name blown in bottle. (See right of illustration.)

The majority of merchants are honest, but you will occasionally come in contact with the merchant who considers profits more than your health. Trade where you get what you ask for. "GET DUFFY'S AND KEEP WELL."

Sold in sealed bottles only. Beware of imitations.

NOTE—Get Duffy's from your local druggist, grocer or dealer \$1.00 per bottle. If he cannot supply you, write us, we will tell you where to get it. Medical booklet free.

## LOWELL IS GROWING

The immense industrial importance of this city will at once dash into the mind of any citizen who walks through the narrow alleys of the Kaslo and surveys the lovely booths on either hand. There, side by side, scores of great business enterprises are represented, many of which are of national importance and most of which carry the name of Lowell into every large city of this country and into many foreign countries. Practically all of the names of exhibiting firms are familiar, but their very familiarity has prevented us from seeing the various industries of this city in their true light. Our people have passed by the walls of the mills and factories for years and formed a vague impression of what goes on within, but they have not realized that practically everything found on the counters or in the show rooms of local stores may be procured with the "Made-in-Lowell" trade mark thereon. The local exposition is a condensation of Lowell, but it is more; it is a small reflection of industrial America—the biggest thing industrially in the world.

The Lowell exhibit is of a decidedly high grade, taken collectively or in detail. In it may be found the finest of textiles, the most delicate machinery, the best in clothing, in confectionery, in household utensils, in home and office furniture, in everything that conduces to successful modern life. One who sees the splendid display in the proper spirit wishes that side by side with the local product were the imported, for comparative purposes. This would be possible in some lines of manufacture but not in all, for Lowell makes some things so well that it has a clear field. Even where competition is possible, Lowell leads. Anybody who doubts should go to the Kaslo and think it over seriously. All who go there and who use their eyes will come away with the feeling that Lowell is indeed a great and growing city in which its citizens should take pride.

There are other indications of our prosperity and growing importance. Our industries are becoming more diversified; our plants are running full time; many of them are building additions. Generally speaking, building this year has been ahead of last and there is no indication of unemployment hardship. Let us take a deep breath and all together, cheer for Lowell—the city of opportunity and optimism.

## LOCAL SCHOOL CHANGES

As expected by those who have watched the circle of widening state interest since the Peabody fire, the state authorities have turned their attention to Lowell. In a letter to Commissioner Putnam, State Inspector Carey reminds the Lowell authorities of certain evasions of the law in this city and insists that additional fire escapes and exits must be provided in the near future in all public schools which are not properly equipped. There is only one answer and that can be given only by immediate compliance; the public will approve of no other.

If local authorities everywhere were insistent on the recognition of the law, whether in public or private buildings, it should not be necessary for the state to step in and demand reforms. Any investigator with common-sense may readily discover whether schools are safe or not, and if unsafe in the slightest particular, the fault should be corrected. Where the lives of children are concerned, no margin should be permitted for official laxity or evasion of the law on the part of those responsible. Better to have laws enforced at the risk of offending the few than a great calamity that will spread horror through the entire community.

Commissioner Putnam claims that since no money was appropriated for this specific purpose early in the year, it will be necessary to borrow sufficient to meet the new requirements. If so, let it be borrowed by all means. The estimated sum is somewhat less than \$5000—a mere trifle compared with some amounts which the municipal council is in favor of borrowing for unnecessary things. If we can afford \$76,000 for a street extension for which there is no public demand, we can surely afford to spend \$5000 in order to prevent a local repetition of the tragedy of Peabody. Let the money be borrowed and let the work proceed at the earliest possible opportunity. Safety in schools is a prime necessity.

Incidentally, it is to be hoped that the state inspector of schools will demand greater respect for the law locally than the state department of health has done. There should be no quibbling or uncertainty. Every school in this city should be made as safe as prompt attention and the expenditure of money can make it. Lowell should be anxious to lead Massachusetts in such a worthy movement.

## THE RECKONING

There are evidences of the awakening of democracy in most of the belligerent nations, and all students of history who predict the future frankly confess that there is no way of anticipating some of its possibilities. The governments may make claims and counter claims, but among the great

masses of the respective peoples is growing a feeling that for the future no inter or group or kingly claims shall be permitted to lead the world into a fratricidal slaughter. Under the title "Is Liberty perishing in Europe?" the New York World deals with some phases of this great subject. Following is an excerpt:

Europe was plunged into war by secret diplomacy. It is fighting the war, thanks to conspires in the dark. Not one of the belligerent nations is well informed as to the progress of events. The suppression or distortion of news and the shackling of the press are as notorious in the countries that are alleged to think they are battling for civil liberty as it is in those popularly supposed to be wedded to militarism and autocracy.

That the situation is dangerous for all concerned is shown by the mighty protests now made in Great Britain, France and Germany. Some day the truth is going to be known in all of these lands, and we may be sure there will be a stern reckoning then. Wicked everywhere, the censorship in England amounts to a crime against the people and probably explains most of the public lethargy which at times has menaced the very life of the empire. In Germany, a slave and devoted population long, sustained by falsehood, will eventually learn the facts, and when it does, war may take on a different aspect at home.

Foreigners have often commented on the fact that in America one notices a stronger public opinion than anywhere else. Our government may for a short time run counter to that mighty public opinion, but eventually the will of the people must prevail, and the people may be trusted to keep a pretty safe balance in national matters. A concrete instance was afforded by the fact that while America grew red hot after the loss of the Lusitania, there never was any indication of a desire for war. In Europe, military dogmatism betrays and misrepresents public opinion, and during war there no indication of thought is permitted, if it can be crushed. There will be a great airing of ideas when the war is over, and the world may be the better for it, even if some of the kings and the royal families have to step down and out.

## CAN IT BE TRUE?

After the many revelations of pernicious activity in hindering the making of ammunition and the shipping of supplies to the allies, few Americans doubt that there is a concerted effort to fight the war in some of its phases in this country. Now, the charges go deeper and involve the highest ministers of Austria and Germany in this country. Dr. Joseph Gorican, formerly with the Austrian consulate, declares that Count Bernstorff was in league with Dr. Dumba for the spending of millions to cripple American plants and he charges that the German and Austrian embassies can account for most of the bomb explosions in factories and fires on ships. This is indeed a serious charge and the people should suspend judgment until it is proved. The state department has referred the matter to the department of justice for investigation, and if our secret service is as efficient as we have been led to believe, we shall sooner or later see a clearing up of many dark episodes in recent history. The United States government ought not to depend on newspapers to get on the trail of treason, and if there is a concerted move here to attack American interests with the connivance of the Austrian and German governments—acting through their respective consulates—the government will not remain long in the dark.

## SUNSHINE IN JAPAN

Right in the midst of the foreign despatches for some days past, reports of the coronation of Emperor Yoshihito of Japan have come with refreshing and quaint insistence. Details of ceremonial magnificence, ancient costume, traditional symbolism and religious mysticism have been blended with concessions to modern progress, until to Americans the ceremony has seemed like a theatrical presentation of an Oriental play that is dated too far back to be other than mythical and legendary. As a matter of fact, the ritual of the Japanese coronation is intensely serious, for Yoshihito is a descendant of the oldest royal line in the world, and his crowning is hailed with things that stir the deepest feelings of the hearts of his people. He has seen his country grow from a beautiful land of fangs and rapacity into one of the most progressive nations of the earth and he knows how much modern Japan owes to the blending of the new and the old that he found there in such unique harmony. This people are united and patriotic and during his coronation they have shown the deepest love and loyalty to their ruler.

## BOOKER T. WASHINGTON

Fame has been kinder to Booker T. Washington, great educator and acknowledged leader of the negro people of America, than to most men. He has been honored by the nation and the world in a way that few other men have.

## GET RID OF THOSE POISONS IN YOUR SYSTEM!

You will find Dr. King's New Life Pills a most satisfactory remedy for all the poisons from your system. Accumulated waste and poisons cause manifold ailments, indigestion, headache, dizziness, nervousness, blackheads and a disagreeable feeling generally are indications that you need Dr. King's New Life Pills. Take a dose tonight and you will experience grateful relief by morning.

The praise that is heard over his remains only echoes praise heard for many years past, and the regret that is universally voiced comes from a nation that realizes a national loss. Dr. Washington was a great American for through his eventful career he was ever mindful of American ideals and aspirations and he exercised a profound influence on his people. Faced by prejudice and hostility in some sections and by the indifference of those he would serve, he had no slight task on hand, but he was ever deliberate, calm and patient under a strain that would have broken a less rugged man. He was a thinker and a worker with a great mentality and he managed to keep the ideal ever subservient to the practical. Born in slavery and lamented after death by the greatest in the land, the late Dr. Washington stands as a type which no other country on earth can produce.

## SEEN AND HEARD

In searching for the man with the smallest mental displacement and the one with the largest megaphone.

Talk to a successful man long enough and he will admit he once lived in a community where they pitched horse-shoes for amusement.

## Knew Her Number

They were eating their dinner when little Dorothy looked up into the face of the visitor and asked "How do you like the Hacked cream?" "Ha, ha," laughed the visitor. "That's pretty good. But you mean whipped cream, my child. It is delicious. I'm taking another goodly helping of it."

"I guess I know what I mean. It's Hacked cream," said the child a little peevish. "I know because I saw Kitty licking it."

The Scotchman's Contribution  
An Englishman, Irishman and Scotchman made an agreement among themselves that whoever died first should have five pounds placed on his coffin by each of the others. The Irishman was the first to die. Shortly afterward the Scotchman met the Englishman and asked him if he had fulfilled the agreement.

"Yes," said the Englishman, "I put on five sovereigns. What did you put on?"

"Oh, I just wrote a check for 10 pounds," said the Scotchman, "and took your five sovereigns as change."

Don't Miff This  
"Yes, dogs are undoubtedly sagacious animals," Jones said to his friends, "but none of your dog stories will do. This is my friend Johnson and he has a most intelligent retriever. One night Johnson's house caught fire. All was instant confusion. Old Johnson and his wife fled for the children and bundled out with them pretty sharp. Alas! One of the children had been left behind, but Rover jumped the dog, dashed into a house, snatched the child, repeated with the missing child, which he deposited on the lawn. Everyone was saved, but Rover dashed through the flames again and died the day after. No one knew. Presently the noble animal reappeared, scorched and burned, with what do you think?"

"Give it up," chorused the eager listeners.

"With the fire police, wrapped in a damp towel, gentlemen!"

Putting One Over  
Private Tommy Sims had had pneumonia and had been for some time in the hospital, where they treated him the best they could. He was much better, but the prospect of being discharged was dim.

One day the doctor was taking his temperature, and when he found the thermometer in his mouth the doctor moved on, and happened to turn his back. Tommy saw his chance. He pulled the thermometer out of his mouth and popped it into a cup of hot tea, replacing it at the first sign of the doctor's turning. When that worthy examined the thermometer he looked at it and Tommy and then back at the thermometer and gasped:

"Well, my man, you're not dead, but you ought to be!"

\$100 For One Word  
It had been a sweltering day, and Mr. K. smoked in silence one cigar after another. Mrs. K. pretended to be studying Jupiter, though in reality she was wondering how long it would be until her husband would say something. Jim is rather quiet for the most part, she will tell you. "I'll give him five minutes and then I'll treat him with my usual generosity."

"I'd give a hundred dollars to know," Jim remarked abstractedly. His wife clapped her hands in delight. Jim never disappointed her.

"What?" she asked.

"Well, you see, it was this way. I was talking over a business deal with the head of the firm and I got pretty enthusiastic. I guess. Suddenly the boss hand came down on the table with a crash. 'You used the right word that time, my boy. That's my idea exactly,' he exclaimed."

"Well," questioned his wife.

"Nothing, only I'd give a hundred dollars to know."

"CASCARETS" FOR HEADACHE, COLDS, LIVER, BOWELS

Enjoy life! Don't stay bilious, sick, headachy and constipated.

Get rid of bad breath, sour stomach, coated tongue, indigestion.

Get a 10-cent box now. They're fine! Cascarets live your liver, clean your thirty feet of bowels and sweeten your stomach. You get one or two, like candy, before going to bed and in the morning your stomach is clear, tongue is clean, bowels are in a box from your druggist and you enjoy the most, gentlest liver and bowel cleansing you ever experienced. Cascarets stop sick headache, biliousness, indigestion, bad breath and constipation.

Matters should give a whole career to cross, bilious, sick, feverish children any time. They are harmless and never gripe or sicken.

dollars to know what I said."—Indianapolis News.

## What is Marriage?

Marriage is a trade in which neither party pays much attention to business principles.

Each party to the swap expects to get everything he wants without giving up anything.

When he gives nothing and finds afterward that he got just what he gave, he is surprised and deeply hurt.

It is considered highly distasteful and indecorous for the prospective groom to try to ascertain whether the bride's feet are mates.

It is likewise gross and vulgar for the bride to endeavor to find out in what key the groom snores.

Their happiness, if they have no more sense than most people, depends almost entirely on trifles.

And either of them would be ashamed to ask anybody who knew about these trifles, beforehand.

Things big enough to fight about after marriage are too trifling to mention before the wedding day.

Most of the homely women get married.

That is because they know they are homely and never pass up a good chance.

The pretty ones think they have a lot of choice, and they wait and pick around and act snippy about it till the boys decide the affair pretty one is no more picking.

Then comes the "anybody's" stage.

We once knew a girl who said she wouldn't marry the best man in the world.

She kept her word.

But she's married.

The Moneyless Man  
Is there no secret place on the face of the earth

Where charity dwelleth, where virtue has birth,

Where angels in mercy and kindness will weave,

Where the poor and the wretched shall ask and receive?

Is there no place at all where a knock from the poor

Will bring a kind angel to open the door?

Oh! search the wide world, wherever you can,

There is no open door for a moneyless man.

Go, look in your hall where the chandelier's light

Drives off with its splendor the darkness of night;

Where the rich hang velvet, in shadow fold,

Sweeps gracefully down with its trimmings of gold;

And the mirrors of silver take up and send

On long-lighted vistas, the wondrous view—

Go there at the banquet, and find, if you can,

A welcoming smile for a moneyless man.

Go, look in your church of the cloud-reaching spire,

Which gives the sun his same look of red fire;

Where the arches and columns are gorgeous within,

And the walls seem as pure as a soul without sin;

Walk down the long aisles; see the pews and the great,

In the pomp and the pride of their worldly estate;

Walk down in your patches, and find if you can,

Who opens a pew for a moneyless man.

Go, look in the banks, where mammon

Has hundreds and thousands of silver and gold;

Where, safe from the hands of the thief and the fire,

He piles upon piles of glittering ore;

Walk up to their counters—ah! there you may stay,

Till your hair shall grow old and your hair shall grow gray,

And you'll find at the bank not one of the clan

Who opens a loan for a moneyless man.

Go, look to your judge, in his dark, dimming eye,

With the scales wherein law weighs the equity down;

Where he frowns on the weak and smiles on the strong,

And weighs his right whilst he justifies wrong;

Where juries their lips to the Bible have laid

To render a verdict they've already made;

Go there in the courtroom and find if you can

Any lawyer for the cause of a moneyless man.

Then go to your hovel—no raven has fed

The wife that has suffered too long for her bread;

Kneel down by her pallet and kiss the dear head

From the lips of the angel your poverty lost;

Then turn in your agony upward to God,

And bless, while it smites you, the chastening rod;

And you'll find at the end of your life's little span

There's a welcome above for the moneyless man.

—H. T. Stanton.

IN THE PRIVY COUNCIL

Arguments on Question Whether Sir Edgar Speyer and Sir Ernest Cassel Can Retain Membership

LONDON, Nov. 16, 11.35 a. m.—The lord chief justice, Baron Reading and Justices Sir Horace Avory and Sir Charles Lush agreed arguments today on the question whether Sir Edgar Speyer and Sir Ernest Cassel can remain members of the privy council.

The question before the court was the disposition of \$125,000 involved in the case. The Camden Iron Co., which is in the hands of a receiver, had made an agreement through its president, John Wood, with the Bridgeport Projectile Co. by which the Camden concern was prevented from selling presses to any other person or corporation than the Bridgeport company. It was alleged that Wood was paid \$125,000 for executing the contract, \$240,000 of which went to an American firm, the receiver, Heulings Lippincott, claimed the \$125,000 belonged to the creditors of the Camden company. Wood contended that he had a right to half the money as he had obtained enough other work to keep the plant busy.

The court reserved decision.

DEAD IN ELEVATOR WELL

BODY OF AGED MAN FOUND IN ELEVATOR WELL AT WOOD MILLS, LAWRENCE, TODAY

LAWRENCE, Nov. 16.—John S. O'Keefe, 76, of Ellsworth, Me., was found dead in an elevator well at the Wood mills today. Death was probably accidental. He had been here only about a month.

MAYOR DAVIS RENOMINATED

FRANKLIN, N. H., Nov. 16.—At the democratic caucus last night, Mayor Daniel E. Davis was renominated. Candidates for Convention chosen were John O. Poor in ward 1; Councilman Samuel J. Janelle in ward 2, and Gilbert G. Fellows in ward 3.

GERMAN AMBASSADOR TO TURKEY

AMSTERDAM via London, Nov. 16.—The new German ambassador to Turkey, Count Wolff-Meternich has arrived at Constantinople to assume his duties.

## Digestive Troubles

cause headache, biliousness, constipation, impure blood and other unpleasant symptoms. If these troubles are neglected they weaken the body and open the way for serious illness. Many chronic diseases may be traced back to indigestion that could have been immediately

## relieved by

Beecham's Pills. This well-known home remedy has proven itself dependable, safe and speedy during sixty years' use. The fame of having a larger sale than any other medicine in the world proves the dependable, remedial value of

tain membership in the privy council. The case was brought by the anti-German league, which obtained a writ compelling Sir Edgar and Sir Ernest to show cause why they should not relinquish their positions in the council because they are of German birth.

Sir Edgar Speyer in a letter to Premier Asquith last May resigned his privy councillorship and requested that his baronetcy be revoked on account of charges of disloyalty made against him in the press.

The German origin of Sir Edgar and Sir Ernest, both prominent financiers, has been the subject of much antagonistic comment in England.

## WAS BOUND AND GAGGED

BATH, ME., WOMAN ATTACKED BY TWO MEN AND LEFT HELPLESS IN CHURCHYARD

BATH, Me., Nov. 16.—The local police are bending all their efforts to solve the mystery connected with the binding and gagging of Mrs. Bertha Studley, aged 27, who was left helpless in a churchyard directly opposite her home at 8 Willow street, early Sunday evening.

As Mrs. Studley tells the story to the police she was on her way home from the home of Miss Gertrude Greenleaf at 853 Washington street, where she is employed as a domestic. She walked up Washington street and turned into North street, and as she approached the Free Baptist church at the corner of North and Willow streets she was alarmed by the approach of a strange man whom she believed to be intoxicated.

To avoid him she darted into a path through the churchyard which would bring her into the front of her home on Willow street. As she reached the rear of the church she says she was grabbed by a strange man, and before she could make an outcry he was joined by another. They quickly took from her an apron which she was wearing under her dress and tearing it into strips, tied one about her mouth and the other across her eyes. Producing a long piece of rope similar to a clothesline, they tied it about her neck, bound both arms behind her and tied her ankles together. Then they jumped a nearby fence and left her.

## BLAME GERMAN AGENTS

CAMDEN IRON WORKS PREVENTED FROM PUTTING ON MARKET ANY SHRAPNEL SHELL PRESSES

TRENTON, N. J., Nov. 15.—Details of an agreement by which the Camden Iron Works, one of the largest producers of shrapnel shell presses in the United States, has been prevented from putting on the market any of these machines since last May, have been revealed in the United States district court for New Jersey in an argument before Judge Haight as published here today.

It was reported that German influences were responsible for the making of the contract, but this could not be confirmed. Neither did the proceedings reveal that such was the case.

The question before the court was the disposition of \$125,000 involved in the case. The Camden Iron Co., which is in the hands of a receiver, had made an agreement through its president, John Wood, with the Bridgeport Projectile Co. by which the Camden concern was prevented from selling presses to any other person or corporation than the Bridgeport company. It was alleged that Wood was paid \$125,000 for executing the contract, \$240,000 of which went to an American firm, the receiver, Heulings Lippincott, claimed the \$125,000 belonged to the creditors of the Camden company. Wood contended that he had a right to half the money as he had obtained enough other work to keep the plant busy.

The court reserved decision.

## QUALITY never loses its charm.

## KITCHENER AT MUDROS

BRITISH SECRETARY OF WAR ACCOMPANIED BY RESIDENT-GENERAL OF EGYPT

MILAN, Nov. 15, via Paris, Nov. 16.—Earl Kitchener, British secretary for war, who has arrived at Mudros, is accompanied by the resident-general of Egypt, according to a Saloniki despatch to the Corriere Della Sera.

The "resident-general of Egypt" referred to may be Major General Julian H. G. Byng, who has been commander of the British forces in Egypt since 1912. It has been assumed that during his trip to the east Earl Kitchener would visit Egypt and prepare its defenses to resist a possible invasion by troops of Germany and her allies.

## TO MEDIATE FOR PEACE

DUTCH GOVERNMENT HAS NO PRESENT INTENTION OF OFFERING

# PEACE TALK IN COMMONS

Trevelyan Urges Negotiation Instead of Fighting—Others Condemn Him—Kitchener Attacked

LONDON, Nov. 16.—Charles P. Trevelyan, Liberal member for Yorks, in a speech in the House of Commons yesterday urged the formulation of terms of peace for the purpose of trying to obtain by negotiation instead of by bloodshed the restoration of Belgium and the settlement of European boundaries on lines of nationality.

"Germany," said Mr. Trevelyan, "to preserve her existence can continue the war six years. Meanwhile what is going to happen to us and the rest of the world? A war of attrition means for us, as well as for Germany, utter and irremediable ruin."

England Firm, Says Law

Andrew Bonar Law, minister for the colonies, condemned Mr. Trevelyan's speech as "useless and mischievous."

"There is not another member of the house," said Mr. Law, "who believes for a moment that Germany will free Belgium or restore Alsace to France until she is thoroughly beaten, and the British government is as determined now, as it was on the first day of war, to force on us, that it should continue until the objects sought by it are attained."

O'Connor Condemns Peace Talk

T. P. O'Connor, one of the Irish nationalist leaders, said that the view should not be permitted to go abroad that Mr. Trevelyan represented any considerable section either of parliament or the country. Until Germany was defeated, he added, it was certain she never would consent to terms of peace satisfactory to the allies.

John Hodge, Laborite member, said that during the last six months he had visited France for the purpose of counteracting the evil effects of such "mischievous pacifist views" as Mr. Trevelyan had expressed.

Kitchener Called a Blunderer

"As long as Earl Kitchener—the man who accepts no advice—remains at the war office we will not win the war," declared Sir Arthur B. Markham in the debate on the conduct of the war.

Earl Kitchener, Sir Arthur added, was responsible for the "blunders" at Antwerp and the Dardanelles and also for the withholding of information from the public, whom he treated like "derbies."

## LINER CRETEC ARRIVES

STEAMSHIP FROM NEW YORK AND BOSTON ESCAPES SUBMARINES AND REACHES NAPLES

NAPLES, Nov. 16, via Paris, Nov. 16.—The steamship Cretec, from New York and Boston has arrived here safely. There was intense anxiety among the passengers on board after they learned at Gibraltar of the sinking of the Ancon. The captain took all precautions against possible attack. The vessel was shelled from submarines by a heavy storm which raged while she was crossing the Mediterranean.

SCHOOL HOUSE SAFEGUARDS

State-Wide Committee Acts on the Recommendation Relating to Buildings and Rubbish

BOSTON, Nov. 16.—The first recommendation at a meeting yesterday in the state house of the state-wide committee for safeguarding school houses, which was appointed as a result of the Faneuil hall conference Nov. 9, was as follows:

"That all basements be isolated from the first floor by fireproof materials, masonry or wire lath and hard plaster, and by fire doors, self-closing; that the basement be entered preferably only from outside the building; that the entire basement, especially all portions where rubbish or inflammable material may collect, be equipped with automobile sprinklers having adequate water supply, and installed as required by the national board of fire underwriters, and that all inclosed areas capable of containing rubbish be eliminated wholly and no combustible material be stored under stairways."

A committee of three, William H. Hayward, Franklin H. Wentworth and Chief George L. Johnson of Waltham was appointed to see about an expansion of the committee named in Faneuil hall.

A sub-committee, R. Clifton Sturgis, Prof. C. B. Reed and Frank Irving Cooper, was appointed to determine to what extent the proposed building law furnishes safeguards for new or existing school buildings.

The next meeting will be Nov. 23, in room 435, state house.

## CAUSE OF MUCH TROUBLE

Constipation is more frequent in women than in men. It is almost always present in old age. Many results of constipation are attributed to something else. Constipation causes pimples and eruptions. By pressing on the veins it causes cold ankles and feet and produces varicose veins. It may cause neuritis. Constipation often makes children delicate and feeble.

The remedy is to stimulate the liver by the use of Pinkettes, the gentle laxative pills that do not gripe or purge but simply assist nature. Taken regularly for a time, they really do correct constipation.

Write the Dr. Williams' Medicine Co., Schenectady, N. Y., for a free sample and booklet on the treatment of constipation or get a full-size 25-cent bottle of Pinkettes from your own druggist.

Made from Cream of Tartar

No Alum—No Phosphate

## TO REMOVE GROWTHS ACCUSED OF FORGERY

VETERINARIANS REPORT LIQUID AIR VERY SUCCESSFUL—TAKES PLACE OF SURGEON'S KNIFE

BOSTON, Nov. 16.—Liquid air in place of anesthetics and the surgeon's knife in the removal of foreign growths from animals is being used with marked success at the Angell Memorial hospital of the Massachusetts S.P.C.A., on Longwood avenue. This is believed to be the first instance of its use in this way in veterinary surgery.

Within the past few days Drs. Francis J. Flanagan and Hugh P. Dalley, veterinary staff surgeons of the hospital, have used liquid air to remove a cancer from the throat of a dog, a skin cancer from a dog's hip and to curing a horse's infected leg. Several other operations have been performed with great success.

It has been found particularly efficient in the removal of all superficial growths, ulcers and warts from animals.

With the use of liquid air, the temperature of which is 312 degrees below zero, no anesthetic or knife is necessary. The liquid air is applied to the affected part, the freezing process destroying the tissues, with the result that the affection is readily and painlessly removed.

PORTLAND, ME., MAN TAKEN IN PITTSFIELD—OFFERED A BAD NOTE FOR AUTO, IT IS SAID

PITTSFIELD, Nov. 16.—George L. Trott of Portland, Me., was arrested here yesterday afternoon, charged with forgery of a note for \$1000, by which, it is claimed, he endeavored to buy an automobile in A. Hills.

Trott came to Pittsfield Saturday and bought a motion-picture theatre, paying down a small amount and giving a mortgage for the balance to Leo Zander.

In payment for an automobile yesterday morning, it is claimed, he tendered a note bearing Zander's signature, which Zander says is a forgery. Trott formerly lived in Chelsea. He had been employed at a theatre in Portland.

Mrs. Trott says that they have been married nine years and that this is the first time Trott has been in like trouble.

## CHURCHES DEMOLISHED

FOR NEARLY A MONTH GORIZIA HAS BEEN UNDER BOMBARDMENT BY ITALIANS

VIENNA, Nov. 16, via London, Nov. 16.—For nearly a month Gorizia has been under bombardment by Italian artillery. The attack began Oct. 18 and continued with varying intensity. An official telegram from the front describing it says:

"On several days more than 100 projectiles of all calibers, but especially heavy shells, fell on the town. The bombardment usually begins early in the morning, reaching its climax between 3 and 4 in the afternoon and relaxing towards evening. The convent of Monte Santo has been burned and its church destroyed. The vestry of the Gorizia cathedral has been demolished. The Franciscan convent of Castagnavizza, with the burial vault of Charles X., Henry V. and other members of the Bourbon family, has been damaged several times by shells which have damaged the roof as well as paintings in the church and convent."

"The convent of the Ursulines in the center of the town has been half demolished and the church of San Antonio has been damaged by aerial bombs. Both railway stations have been pierced by artillery projectiles. Churches in the suburbs of Podgora, Cracoberg, Petma, Santa Andrea and Gellavia have been destroyed. The southern portion of Gorizia has suffered more heavily than other parts of the town. The city frequently is bombarded by airmen."

## PROTEST BY GERMAN-AMERICANS

BOSTON, Nov. 16.—To protest vigorously against the production of the "Battle Cry of Peace," on the ground of the strictly declared neutrality of the United States about 25 representative German-American citizens, including Baron von Riches of Readville, Joseph Pinch, Wilhelm Housman, Charles Kuntz and Curtis G. Metzler, met at Young's hotel last evening to appoint a committee to present their protest to Mayor Curley.

## DINNER RUSH KILLS FOUR

Drowned From Scow When Docks Bridge Laborers Jump as Noon Whistle Blows

TROY, N. Y., Nov. 16.—Four foreigners employed on a bridge being built on the Hudson across here were drowned yesterday afternoon from a scow from which a dozen laborers jumped when the dinner whistle sounded.

## LEAVES \$2,000,000 ESTATE

Mrs. Margaret E. Armour Willa \$25,000 to Educational, Charitable and Religious Societies

KANSAS CITY, Mo., Nov. 16.—The will of Mrs. Margaret E. Armour, widow of S. B. Armour, the packer, who died here Nov. 11, was filed for probate yesterday. The estate is valued at about \$2,000,000.

Of this amount \$25,000 was bequeathed to various educational, charitable and religious institutions.

## CHICAGO HAS NO IDLE ARMY

Work for Everybody. With State Seeking 1500 More Men and Railroads Short-Handed

CHICAGO, Nov. 16.—There is no "Army of the Unemployed" in Chicago this year.

The first blast of winter, which sent the mercury down to 23 degrees Sunday night, was the test. For years this has been the signal for an army of vagrants to appear.

The cheap lodging houses were crowded Sunday night, but yesterday there were few of the lodgers about, and it was said that they were working.

"It is different from last year," said Wm. S. Taylor, manager of the Rufus Dawes hotel. "There is work for everybody, it seems. The men who drift in here are making time between jobs, mostly. They don't stay. Last year we had them all winter. The state has 1500 jobs open and the railroads want men."

## NASHUA STRIKE

Man Arrested on the Charge of Shouldering Militiamen

NASHUA, N. H., Nov. 16.—The first arrests this month in connection with the textile strike here were made early this evening. John Bagshaw was taken at the upper end of Factory street, just before shutting down time in the mills by Inspector Dean and Patrolman F. A. Brown and Mulvanity, and was booked on two counts of assault.

It is charged that he shouldered two militiamen who were returning to the mill.

Peter Khudma who was near Bagshaw was arrested on a drunkenness charge.

At a meeting of the striking textile operatives yesterday forenoon Organizer Thomas E. McMahon read a telegram from San Francisco, where the American Federation of Labor is in session. It is signed by John Golden, International president, and read as follows:

"American Federation and United Textile Workers will stand by the striking textile workers of Nashua to the hilt or until employers arbitrate. Hope strikers will stand united."

Organizer McMahon said that with the number of workers who left Nashua for jobs in other cities, practically all of the Greek employees in the closed mills have gone. Many French operatives of the Dodge production of the Lithuanians have also left the city.

## MURDER OF HUSBAND

JURY CHOSEN TO TRY MRS. BURNS, WHO IS ACCUSED OF KILLING HUSBAND BY POISON

PORTSMOUTH, N. H., Nov. 16.—The trial of Mrs. Mary A. Burns of Nottingham, charged with the murder of her husband, Frank A. Burns, at Nottingham on Dec. 22, 1914, by poison, was opened in the superior court yesterday before Chief Justice Robert G. Pike and Judge presiding.

Mrs. Burns, accompanied by Mrs. Shaw, wife of Deputy Sheriff Shaw, came into the courtroom just prior to the opening of the court and took a seat beside her mother, Mrs. George H. Davis. Nearby were two sisters, Mrs. Fred Gove and Mrs. John Currier, who are said to be important witnesses for the defense. Some distance away was another sister, Mrs. Louise Demeritt, who will testify in behalf of the state.

Mrs. Burns chatted freely with her mother and other relatives near her. She appeared calm and collected and awaited attentively the talesmen as they were drawn and questioned by Atty. Gen. James P. Tuttle for the state and Col. John H. Bartlett for the defense.

The only interruption during the morning session was when the young son of the state, Mrs. John Currier, disturbed the serenity of the court, and mother and baby were sent to an ante-room by Sheriff Ceylon Spinney.

It was not until late in the afternoon and after 40 talesmen had been drawn and examined that the following jury was empaneled: Benjamin Stockhouse, engineer, Derry; foreman; Alfred and Marston, farmer, North Hampton; Joseph L. Lawrence, farmer, East Kingston; Michael J. Mooney, button worker, Portsmouth; George C. Brown, carpenter, Exeter; Hiram O. Durgin, shoemaker and farmer, Newton; Fred L. Webster, assistant postmaster, Windham; Warren M. Hatch, cooper, Derry; Edward R. Weeks, farmer, Greenfield; Alonzo G. Wilson, farmer, Salem; Luther H. Roberts, farmer, Chester; Chester A. Kimball, shoe cutter, Danville.

This morning the jury was taken in automobiles to Nottingham to view the scene of the alleged murder. Owing to the fact that Mrs. Burns is the first woman to be tried on a murder charge in this city for nearly 25 years, there is great interest manifested in the case, and the courtroom at both sessions yesterday was thronged with spectators.

## EXPRESS BUNDLES STOLEN

Chief of Police Murphy of Athol Thinks Car Was Entered on Way From Boston

ATHOL, Nov. 16.—It was discovered yesterday that a number of articles had been stolen from a car in which Sanborn express packages had been sent from Boston.

Goods consigned to C. E. Sault, Miss Lucy Keefe and others were missing.

Chief Murphy believes the car was entered on the way from Boston. It left Boston Saturday evening, arriving in Athol Sunday morning.

## UNIVERSALIST CONFERENCE

Of Merrimack Valley Churches To Be Held In Grace Church (Tomorrow)—The Program

Following is the program for the Merrimack Valley Universalist conference to be held in Grace church tomorrow:

10:00 Half hour for sociability.

10:30 Devotional exercises led by Rev. A. F. Welch, Amesbury.

11:00 Sermon, "Why?" Rev. S. G. Dunham, Fitchburg.

12:00 Lunch.

1:30 Business.

2:00 Address: "A Radical Peace Program," Rev. C. L. Dole, D.D., Jamaica Plain. Discussion.

3:00 Address: "The Glory of Work," Rev. W. H. Morrison, D.D., Nashua. Discussion.

Mr. Welch and Dr. Morrison are well known in the conference.

## A Woman Going to California

Alone or With Children

Every woman I don't care how competent and independent she is, feels a little more at ease when traveling alone, or with children, if she can rely on a responsible official, paid to look after her comfort and convenience.

That's a special feature of our "Personally Conducted" Parties to California.

Join one. It's the best way to travel, especially for women. If comfort, interest, safety and very moderate cost are to be taken into account.

The cost of it all is surprisingly low. If you will write or drop in on the office and see me, I will be glad to explain every detail of the famous "Personally Conducted" Parties.

Alex. Stocks, New England Passenger Agent, C. & N. R. R., 264 Washington st., Boston.

## ROBBERY OF \$273,000 TO MANUFACTURE SHELLS

MAN WANTED IN CANADA ON CHARGE MADE DESPERATE ATTEMPT TO ESCAPE

CHICAGO, Nov. 16.—George Wakefield, wanted in Canada for alleged complicity in the \$273,000 robbery of the New Westminster (B. C.) branch of the Bank of Montreal several years ago, and arrested here recently on another charge, made a desperate attempt to escape yesterday.

Wakefield and others were charged with a fake prize fight fraud. State Atty. Hoye had this charge quashed yesterday in order to turn Wakefield over to the federal authorities on extradition proceedings.

Wakefield, free for the moment, left the criminal court building, but at the exit was met by United States Deputy Marshal Thomas Sheehan with the federal warrant. Wakefield struck Sheehan in the face and ran.

Sheehan overtook him and a lively fight was in progress when the marshal was reinforced.

Wakefield was arrested and taken before United States Commissioner Mason, who set the extradition hearing for next Friday.

## POSTOFFICE FIGHT

Hartwell Finds He Cannot Teach and De Postmaster Too, So He Retires at South Attleboro

SOUTH ATTLEBORO, Nov. 16.—The postoffice fight in this village took a new turn yesterday.

Thomas Dean held the office of postmaster here for a number of years. About two months ago the office was changed from a third class office to a fourth class office. This necessitated a civil service examination for postmaster. One was held recently. Mrs. Thomas Dean, Miss Mary Doran and E. G. Hartwell, assistant teacher in the North Attleboro high school, participated. When the marks were made known a few days ago it was found that Mr. Hartwell had 99 and Mrs. Dean was second with 87.

Mr. Hartwell gave out a statement yesterday in which he says he will be obliged to drop his candidacy for the postmastership, despite the fact that he has been notified by Washington that he is eligible for appointment.

Mr. Hartwell had planned, if appointed, to keep on teaching at the North Attleboro high school and place an assistant in charge of the postoffice here. He finds, however, that if he took the local job he would be obliged to resign his position as teacher. He therefore decided to drop out of the postoffice fight.

Mrs. Dean's mark of 86 now leads.

PLANT TO BE PUT IN OPERATION AT ST. JOHNS, NEWFOUNDLAND, IN JANUARY

ST. JOHNS, N. F., Nov. 16.—An announcement was made today that the first plant to be established in Newfoundland for the manufacture of shells for the British army would be put in operation early in January. A foundry in this city has been secured and is being transformed into a munitions factory. Its operations will be backed by local capital, will be under the direction of the munitions commission at Ottawa.

## EX-GOV. BRACKETT BETTER

BOSTON, Nov. 16.—Ex-Gov. J. Q. A. Brackett, who has been at the private hospital of Dr. A. F. Christian, 401 Marlboro street, for more than a week, suffering from a nervous disorder, was reported last night to be rapidly improving.

It is expected he will be in a condition to warrant his removal to his home within a few days.

## PLAY SUPPRESSED

Skit on Recruiting Announced For Production in Dublin Theatre Barred By Censor

LONDON, Nov. 16.—The censor has suppressed the new Bernard Shaw play, "Faherty," V. C., announced for production at the Abbey theatre in Dublin. The play is a skit on recruiting.

## SOCIAL AND FRATERNAL

A list of routine and important business was transacted at the monthly meeting of the officers of Industry Council, Royal Arcanum, held last evening in Odd Fellows temple. Reginald Harvey J. Chase presided. It was voted to call the regular meeting of the council on Wednesday evening at 7:30 o'clock. The members will then attend the industrial show at the Casino. Remarks were made by Thomas H. Wilson and George H. Desrochers.

## Wameet Staff Association

The regular meeting of Wameet staff association, I.O.O.F., M.U., was held last evening in Odd Fellows hall. After the gold and initiatory staffs had their drills, the following program was presented: Piano solo, A. W. Henderson; songs, P. G. Thomas M. Smith, P. G. James McArdie and Brother James Taylor of Integrity lodge, P. G. William Bowles, P. G. John Everett, P. G. William Atkinson and P. G. William Dawson of Wameet lodge; readings, Thos. Smith of Integrity lodge and Brother Major of Wameet lodge. Brother Arthur Willis was in charge of the entertainment.

## IN FAVOR OF THE ALLIES

GREEK GOVERNMENT IS REPORT-  
ED TO HAVE MODIFIED ITS POSI-  
TION

LONDON, Nov. 15.—The Greek government is reported to have modified its position somewhat in favor of the entente allies. The correspondent at Athens of the Exchange Telegraph Co. says it has decided that in the event of a retreat of the allies to Greek soil, Serbian troops will be placed on the same footing as the British and French. Premier Skouloudis originally proposed to permit the French and British to reach the sea without interference from the Greeks, but to disarm Serbians who crossed the border. The change is due, the correspondent says, to formidable objections raised by the French minister at Athens. However, it still remains for Greece to define her position clearly. Designation of a neutral zone has been suggested.

## LINER SAXONIA DOCKS

CUNARD FROM LIVERPOOL  
BROUGHT GOLD SOVEREIGNS  
VALUED AT \$3,750,000

NEW YORK, Nov. 15.—The Cunard liner Saxonia, from Liverpool, docked here today. She brought gold sovereigns valued at \$3,750,000 for various consignees.

## LOWELL IN THE LEAGUE

FIRST GAME TONIGHT AT ASSOCI-  
ATE HALL BETWEEN SO. FRAM-  
INGHAM AND LOWELL

Lowell is now positively assured of being represented in the Central Mass. Basketball league, which up until last night, was called the Bay State League. Manager Lew attended the meeting of the league directors and managers in Northboro last night at which the league name was changed and action taken on Manager Lew's application for representation in the league. Two applications from Lowell, one from Manager Lew and one from Manager Durbin of the Crescents were read and the one from Manager Lew was favorably acted upon. Tonight at Associate hall basketball will be officially opened in this city when the South Framingham quintet and the Lowell team meet. The Lowell lineup will consist of the following: Grant and Dote, forwards; Mulvanity, center; Hansen and Pollanssen, guards.

## JAPANESE SHIP SEIZED FOR 'VOTES FOR WOMEN'

HELD BY FRENCH ON SUSPICION  
OF CARRYING ARMS TO MUTI-  
NEERS IN INDIA

PEKING, Nov. 15.—The French minister, A. R. Conty, was advised today that the Japanese steamer Iro had been taken into Saigon bay, French Cochinchina, by a French cruiser on suspicion of being engaged in carrying arms to mutineers in India. On board the Iro was a man without a passport, who represented himself as an American. Later he admitted he was a German. He is believed to be a former German consul in China. The Iro left Shanghai on Nov. 2, ostensibly for Bombay, to be sold by her Japanese owners. When the French cruiser approached the Iro, packing cases were thrown overboard. An irregularity in the Iro's papers was discovered and also a shortage in her cargo.

## NO NEWS OF REVOLUTION

TOKIO, Nov. 15.—So far as can be ascertained, no information has been received in official circles here to bear out recent reports from America reporting revolutionary troubles in India. Notices to the American embassy from Calcutta and to Japanese officials from consuls in India give no indication of such disturbances.

The above goods are new and perfect and will be delivered to all parts of the city.

## ACCUSED OF CONTEMPT

ALLEGED ATTEMPT TO INFLUENCE  
JUROR CHARGE AGAINST OSBORN  
F. BRIGGS OF BOSTON

BOSTON, Nov. 15.—Osborn F. Briggs, son of Frederick L. Briggs, secretary of the state board of registration in embarking and a well-known undertaker, was before Judge Fox on the sixth session of the superior court yesterday to answer to a charge of contempt. The charge, preferred by Asst. Dist. Atty. Webb, at the instance of the court, alleged an attempt to influence a juror, through the latter's brother, on the eve of a trial of a suit brought against Briggs' father and Irwin L. Smith for \$7100. The matter has been under investigation several days by Inspector Silas Walt and Asst. Dist. Atty. Webb, and the result was disclosed at the hearing on the contempt charge before Judge Fox. The case is the first of the kind brought to the attention of the court in a long time. Judge Fox told counsel, after argument, that he would read the testimony over before reaching a conclusion, and on Thursday he will announce his decision. He said he wanted the defendant to be present. The suit brought by Horace E. Hall against Frederick L. Briggs and Smith was for \$7100 for alleged breach of a lease of the estate 22-21-26 Chardon street, involving rental, taxes and insurance.

## LAYMEN'S CONVENTION

DR. JOHN M. MOORE EXPLAINS  
MISSIONARY PROGRESS OF RE-  
CENT YEARS

BOSTON, Nov. 15.—Some explanation of the missionary progress of recent years was given by Dr. John M. Moore, general secretary of the department of missionary education of the Northern Baptist convention in an address at the Boston laymen's convention today. His work, the American doctor in Japan was described by Dr. Rudolph B. Teusler of Tokio, a missionary physician sent there by the Protestant Episcopal church. The program also included addresses by Dr. Charles E. Burton, general secretary of the Congregational Home Missionary society and by Charles G. Trumbull, editor of the Sunday School Times. "The Church Holding Her Own in America," was Dr. Burton's subject. The Boston convention is part of a nation-wide campaign in which home and foreign mission boards are co-operating under the auspices of the laymen's missionary movement.

## MAKES YOUR STUFFED, GERM-LADEN, CATARRHAL HEAD CLEAR AS A BELL

When you wake in the morning plagued with the tortures of head colds and catarrh, head, nose and throat stopped up, air passages clogged with obnoxious catarrhal discharges that have collected during the night and you can hardly breathe, just put a little Hyomel Pocket Inhaler charged with the pleasant healing oil of Hyomel between your lips. Hold it there while inhaling and breathe the medicated, antiseptic germ killing air deep into your nose, throat and lungs with every breath you draw. By the time you are dressed your head will be clear as a bell, you will breathe with ease and comfort, eat your breakfast with a relish and go about your day's work with a clear brain and steady eye. This clean smelling, germ destroying air of Hyomel penetrates deep down into every fold and crevice of the membranous lining of your nose, throat and lungs where no liquid spray could possibly get and absolutely kills and drives out of your system every germ it finds there, heals the inflamed swollen tissues and after the very first trial you notice a wonderful improvement. A few weeks' use and every catarrhal germ is killed and driven out of your system. Druggists everywhere think so well of Hyomel that they agree to give you a guarantee with every complete inhaler set you purchase that if it does not satisfy you they will gladly return every cent you paid for it, but if using for the first time be sure to ask for the complete Hyomel Pocket Inhaler outfit, as the smaller package does not contain the inhaler. Most any reliable druggist will gladly supply you on request.

## THE SPELLBINDER

Now that the time for another election draws near, the voter gives his attention to the consideration of what has transpired at city hall since the last election, with a view to ascertaining if those who have been handling the city's affairs during the present administration have measured up to the required standard; in other words, he considers whether or not they have made good. The Spellbinder has contended, from the time that the present administration first showed its hand clearly, that it was not making good, and now reason draws near, the voter gives his attention to the consideration of what has transpired at city hall since the last election, with a view to ascertaining if those who have been handling the city's affairs during the present administration have measured up to the required standard; in other words, he considers whether or not they have made good. The Spellbinder has contended, from the time that the present administration first showed its hand clearly, that it was not making good, and now reason draws near, the voter gives his attention to the consideration of what has transpired at city hall since the last election, with a view to ascertaining if those who have been handling the city's affairs during the present administration have measured up to the required standard; in other words, he considers whether or not they have made good.

## THE RECORD OF FAILURE OF THE MURPHY ADMINISTRATION

- 1.—Mayor Murphy, before he was elected, promised not to run for a second term, and very distinctly promised to support the French-American candidate this year. He is a candidate again in opposition to the French-American candidate.
- 2.—Mayor Murphy, before he was elected, promised "equal rights to all; special privileges to none." But in the police department, glaring discrimination has been shown against the "O'Donnell men," and glaring favoritism toward the "Murphy men," and throughout his administration the spirit of favoritism for political friends and the opposite spirit toward those who were not "right" has frequently shown itself.
- 3.—The Murphy administration promised a wise, careful and economical handling of the city's finances, but one of its earliest acts was to attempt to use the city's trust funds for current expenses, a proceeding that was prohibited under the law, but which fact was not discovered until the money had been withdrawn, thereby nearly depleting certain savings banks of the city, and placing in jeopardy the deposits of hundreds of small depositors, besides losing a substantial amount of interest money. The municipal council, proposed, if permitted to use this money which was drawing interest from sources outside of the city treasury and pay interest on it out of the city treasury, thus losing interest money both ways.
- 4.—The Murphy administration promised a rigid and impartial enforcement of the laws. With "pitiless publicity" it has enforced the laws against minor offenders, such as Sunday soap-sellers, but has signally failed to enforce the law in the cases of murders, burglaries, safe-breaks, hold-ups, and big gambling games; and it has failed to respect the laws relative to horses unfit for service, the traffic laws, the installation of steel vaults, and the creation of an isolation hospital.
- 5.—The Murphy administration promised economy and lower taxes, but it has burdened the taxpayers with the two highest tax rates in the history of Lowell; to wit, \$21.90 for 1914 and \$20.80 for 1915. It has brought about the highest valuation of real estate in the history of Lowell, increasing that valuation by \$3,480,000; it has borrowed the greatest amount of money, and it has voted and spent the greatest amount of money ever appropriated for current expenses. And what is there to show for it all?
- 6.—The Murphy administration promised to build a contagious disease hospital and a high school. Where are they?
- 7.—Mayor Murphy promised that high school pupils that they will be in their new high school next September. But only a revival of the age of miracles can make good that promise.
- 8.—The Murphy administration promised Thomas Yarnum, the Knights of Columbus, and others, whose land they have voted to take, satisfactory settlements, after election. But these promised settlements cannot be made under the law, and all must seek a settlement through the courts, at additional expense to themselves and to the city.
- 9.—Mayor Murphy promised the board of trade that he would decrease the cost of lighting \$25,000. But the cost of lighting has increased nearly by that amount.
- 10.—The Murphy administration promised the residents of Pawtucketville a new bridge. Where is it? There has been plenty of talk and considerable recoupling, but there is no bridge. There will be an engineer's bill, however.
- 11.—Mayor Murphy in his campaign advertisements pledged that he would perform his duty unhampered by pledges or agreements, except those made openly to the public. But Mayor Murphy and his administration have introduced the secret sessions, in defiance of the spirit of the charter and have performed a great part of their duties behind closed doors; declining to take the taxpayers, who pay the bills, into their confidence.
- 12.—The Murphy administration promised to do something to lessen the number of deaths of children by drowning in the unprotected waterways of the city, but the drownings have continued since that promise was made and not a cent has been spent toward such protection.
- 13.—The Murphy administration promised organized labor to keep contract labor out of Lowell, but as soon as the man promised had gone out of town the contract labor came in.
- 14.—The Murphy administration promised the extension of Dunmer street. Where is it?
- 15.—The Murphy administration promised efficiency, but it has failed to properly house the school children of the city.
- 16.—The Murphy administration promised efficiency and equal rights, but the remote sections of the city are inadequately lighted while the taxpayers of those sections are paying their share toward the cost of the white way which benefits only certain down town streets.
- 17.—Mayor Murphy promised discipline and the "abolition of politics" in the police department. "This perhaps is the best joke of all. The department is riddled with dissensions and feuds. Ask any policeman. How they love each other!"
- 18.—Mayor Murphy's administration promised efficiency and economy. But when it went into office it found money to purchase an automobile ambulance, which necessity demands, and it has never purchased the motor ambulance, having used the money for another purpose. But it did borrow money to buy new touring cars for the superintendent of police, the chief of the fire department, the street, park and finance departments.
- 19.—The Murphy administration promised not only a new bridge for Pawtucketville but good streets and bridges throughout the city, but has failed to keep any of the bridges in good repair.
- 20.—The Murphy administration promised to lighten the burden on the taxpayers but one of its first acts was to increase the water rates 10 per cent, and one of its last acts was to raise the valuation in property in nearly every part of the city for the purpose of increased taxation.
- 21.—The Murphy administration promised to stop gambling, but there is more gambling than ever in Lowell, and the heated and loudly proclaimed raids upon Turks, Chinamen and small boys don't fool the public.
- 22.—The Murphy administration's unbusinesslike methods show in smaller things as well as in all of the greater matters, for the handling of the municipal band concerts making them political shows was a purely waste of money.
- 23.—The Murphy administration promised to adhere to its do-nothing policy, successfully dodged and ignored the questions of a public hall and a public market for which the public has been clamoring.
- 24.—The Murphy administration promised economy but it forced through a useless \$35,000 sewer in Pawtucketville, for which there was no demand, nor even the customary petition, and on which the city will not get back its money in a lifetime.
- 25.—The Murphy administration has boasted about its enforcement of the liquor law but the public knows that conditions are as wide-open as they ever were in the history of the city.

And there are many other instances publication of which is prevented by lack of space; they'd fill columns.

"And They Rescinded"—  
Finally, the business record of the Murphy administration at city hall, from the beginning down to its last meeting, to date, has been a succession of long talks and motions to act, ultimately and invariably followed by motions to rescind former action, with nothing accomplished in the end. The administration has been considering four propositions for two years: Pawtucket bridge, the high school, the contagious disease hospital and Dunmer street extension, and now with three of the members about to conclude their terms of office, not a tap of work has been started on any one of the four propositions. The Murphy administration voted last year to use the trust funds for current expenses. But it ran against the law and it rescinded former action. The administration voted last year to borrow \$25,000, but it ran against the law and it rescinded former action. It voted \$20,000 for a Pawtucket bridge, but it rescinded the vote. It voted to engage Mr. Denman, but rescinded its action. It voted a bridge contract to the Luten company of Springfield, but subsequently it rescinded former action on this matter. It voted to locate a hospital on the Sixth avenue site. But it also voted to rescind that vote. In fact it has been voting and rescinding regularly on the hospital matter. It voted open competition for architects on the high school matter, and then it rescinded action. It voted certain operations relative to the Dunmer street extension, and then it followed the inevitable motion to rescind. It voted certain matters on the repairs of the Memorial building and likewise voted to rescind what it had previously voted. It voted certain action in the case of the Keeney boy, who is sorely in need of money, and then rescinded that action. It voted to purchase fire apparatus, and then rescinded the vote. It voted certain action relative to the

extension of Porter street, and, of course, voted to rescind at a later date. In fact, the word "rescind" has become a household word in Lowell, since the present administration has been in office.

The Murphy administration's conduct of the city's affairs throughout has been such as to warrant some rescinding on the part of a tired-out and disgusted public, and the indications loom up strongly that the biggest motion to rescind of all will that be of the voters, on next Tuesday, when they shall vote to rescind their own former action whereby they put this do-nothing administration into office.

## AT TOWER'S CORNER

Between Mayor Murphy, George H. Brown, Jackson Palmer and "Happy Days" Casey, 2000 persons defying the wintry blasts of last night were entertained at Tower's corner, for there were comedy and abuse galore, with now and then a smattering of argument.

Mayor Murphy was advertised to appear at 8.30 but Jackson Palmer arrived first, and the crowd surrounded him. Mr. Palmer, however, awaited the mayor's coming. Upon arriving the latter started to talk without delay.

His Honor passed lightly over his one term promise and referred to a \$100,000 obligation against the city which his administration had met. Throughout his talk on the affairs of the administration his Honor didn't attempt to go beyond the comparative number of people arrested for drunkenness when he was mayor and before that time; the number of houses of ill-fame discovered by the police and the number of violations of the liquor law prosecuted. Such matters, as the highest tax rates in the city, the four propositions on which the administration has fallen down; the fencing of the unprotected waterways were carefully overlooked. Nothing was said as to how the school children were to be properly cared for, when the high school is going to be finished, or when the contagious hospital is going to be constructed. None of these matters was of sufficient importance to demand Mayor Murphy's attention; he couldn't rise above the question of enforcing the liquor laws. His Honor in an effort to forestall something that he anticipated from Jackson Palmer, quoted some statistics relative to prosecutions for violation of the milk law. But throwing rhetoric and reason to the winds His Honor devoted the greater part of his time to a vicious attack upon the proprietor of The Sun and The Spellbinder. His Honor managed to work himself up into a veritable frenzy of the crowd, and with the approving "Happy Days, Boy" from Casey at the end of each outburst. Mayor Murphy by his frequent references to a crucifixion "on the cross" undoubtedly aroused the latent religious feeling within the breast of George H. Brown, for the latter subsequently tried to outdo the mayor with his biblical figures of speech. His Honor was "all hot up" during this part of his discourse and said things as wild as regards the truth as they were relative to good English.

When the mayor had exhausted himself he retired and the crowd then turned to greet Jackson Palmer, but Jackson arose only to state that he had agreed to allow Geo. H. Brown to precede him with a few chaste remarks. Brown, after paying a glowing tribute to Mr. Palmer, his lamented father, and his estimable mother, launched forth, speaking in a highly excited frame of mind. Brown really had some plausible arguments and he completely answered Mayor Murphy's previous statements relative to the financial dealings of this administration, but he was so terribly excited over it that it is doubtful if the crowd gave his remarks the attention that they warranted. Brown then tried to outdo Murphy with his biblical figures of speech, and averred that he was "all hot up" and looking heavenward he poured forth his soul on the subject of the Pharisees pointing to one in the audience and calling him by name, to the delight of the crowd.

When Mr. Brown calmed down he showed how the Murphy administration had paid off certain obligations of the city, by special legislation, and he referred to Mayor Murphy's press agent as the "invisible government." But George was not disposed to remain calm for any length of time, and soon was soaring to the clouds again and into the bible. Evidently His Honor's recent affiliation with the Young Men's Christian association has got Brown worked up about the church vote, and he's out to show that he's right there on the religious end. When Mr. Brown had finished, Jackson Palmer smilingly arose and started forth, the picture of calmness and good nature. Mr. Palmer in a few words turned the laugh on Mayor Murphy by asking if he has known for two years that anybody isn't paying a proper amount of taxes why didn't he get after the assessors long ago instead of getting after the man thus offending on the eve of the primaries. Mr. Palmer devoted himself to Mayor Murphy's affiliation with the liquor and corporate interests and, like the former speakers, mentioned names. He also paid his respects to Mayor O'Donnell's administration, intimating that Mayor O'Donnell's administration had constructed a bridge over a canal which the Locks & Canal should have paid for. Mr. Palmer was obliged to cut his remarks short as he had another speech to make later and as the hour had grown quite late and the crowd was getting cold.

## THE SPELLBINDER

### STEAMER OHIOAN ARRIVES

First of Pacific Fleet to Make Trip By Way of Straits of Magellan, Owing to Clogging of Canal

NEW YORK, Nov. 15.—The steamer Ohioan arrived today from Seattle, being the first of the Pacific fleet to make the trip by way of the Straits of Magellan, owing to the closing of the Panama canal by slides. The Ohioan stopped at Puerco, instead of sending her passengers and cargo across the isthmus as other vessels have done, it was decided to continue the trip. The steamer made the trip from Panama to New York in 37 days without stopping her engines until she picked up a pilot off the Scotland lights.

### SEVERE RE-TAKE KALDANDELEN

PARIS, Nov. 15.—The Serbians have recaptured Kaldandelen, taking 320 prisoners and large quantities of munitions, according to the Athens correspondent of the Journal, telegraphing Sunday.

If you want help at home or in your business, try The Sun "Want" column.

## MAN BURNED TO DEATH

Three Others Fatally Injured in  
Fire at Historic Benning Race  
Track—Loss \$135,000

WASHINGTON, Nov. 15.—One man was burned to death and three others were probably fatally injured as a result of a fire at historic Benning race track in the suburbs of Washington last night, which in addition to destroying 14 of the stables and other structures, burned at least 20 valuable horses. Estimates today placed the loss on the buildings and horses and equipment at about \$135,000. While the track had not been used since 1906, having been turned into a winter home and training quarters for

horses, the stables were filled with horses racing at nearby tracks. Among the stables destroyed was that of August Belmont, but none of his horses were on the ground at the time. They were to have arrived today. A hundred or more valuable horses were turned loose to seek safety and it is feared that many of them were burned or otherwise injured. For years the track was the meeting place of all the best horses of the country.

## HERE'S THE FRENCH WAR REPORT

PARIS, Nov. 15.—"There is nothing to add to the preceding communication," says the war office this afternoon.

## FIGHTING AT DARDANELLES

LONDON, Nov. 16, 1.52 p. m.—An official communication from Constantinople, as forwarded from Amsterdam by the Central News, follows: "At the Dardanelles there is the usual artillery bombardment, together with fighting by the use of bombs. "In the Caucasus one of our patrols surprised a hostile patrol of 100 men in the region of Mito. The hostile patrol was defeated, losing 50 killed or wounded."

## GIRLS IN BAD HEALTH

Hundreds of girls go to work day after day, afflicted with some ailment peculiar to their sex, dragging one foot wearily after the other, working always with one eye on the clock and wishing for closing time to come. Every such girl should rely on Lydia E. Pinkham's Vegetable Compound to restore her to a normal healthy condition, then work will be a pleasure. For forty years this famous root and herb medicine has been eminently successful in controlling the diseases of women. Why don't you try it?

## Why You Are Lucky To Live in Lowell

Are you taking advantage of living in a city that has one of the best equipped and most modern gas plants in the world?

This plant produces an ideal fuel for furnace, heater or range—Lowell Coke. And Lowell Coke, the most satisfactory fuel known, sells for \$2.50 a ton less than coal.

Thousands of Lowell people realize this unique opportunity to save money without sacrifice of satisfaction.

Why not join the growing number who have changed from coal to coke?

**Lowell Coke**  
\$5.90 a ton—4 tons, one delivery, \$23.
